Below 60%

Between 60% - 90%

Above 90%

For susceptibility tests verified between 1/1/21 and 12/31/2021

First isolate per patient per year per institution

Note: Yearly total isolate numbers listed per each hospital site. Refer to the SJMC antibiogram if the organism number is <20 ** for % regional susceptibilities. CLSI recommended >30 isolates

* Enterococcus species Gentamicin Synergy
