Purpose:

To clarify Regional Hospital's services with regard to reproductive healthcare.

Policy:

1. Regional Hospital for Respiratory and Complex Care provides Long Term Acute Care (LTAC) for patients whose medical conditions meet LTAC admission criteria as defined by the National Association of Long Term Hospitals.
2. Regional Hospital for Respiratory and Complex Care does not directly provide any reproductive health services.
3. Patients who require reproductive health services will be referred to a provider of their choosing. Regional Hospital will provide reasonable assistance in locating an appropriate provider when requested by a patient.
