POLICY:

Reproductive Health

Kaiser Permanente Health Plan has a long history of commitment to reproductive health and providing access to the women’s health services. Currently, the services provided at Central Hospital are as following: surgical abortion, human immunodeficiency virus (HIV) testing, pre-exposure prophylaxis (PrEP), post exposure prophylaxis (PEP), prescriptions, and related counseling, sexually transmitted disease testing and treatment, treatment of miscarriages and ectopic pregnancies, hospital pharmacy dispensed contraception, tubal ligations, vasectomies, and pregnancies related ultrasounds.
