

Cath Lab at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Date of Review: 8-24-21

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse considers all of these factors when making assignments and managing the patient flow.

Hours of Operation

Monday through Friday 0700-1730
Stand-by: Stand-by team of 4 (minimum of 1 RN and 1 Rad Tech) will stay for cases scheduled prior to 1730 closing time on Monday through Friday.

Unit Staffing

- 1 Charge RN
- 1 Lead Tech
- 4-7 staff based on case type and/or the need to run 2 rooms.
- All employees begin their shift at 0700. All Shifts are 10 hours.
- Minimal staffing for complete cath lab case is 4 team members which is a mix of radiology technicians and registered nurses. There must be a minimum of 1 RN and 1 Radiology Technician for each case. Some procedures like pain injections, cardioversions and TEE can be done with anesthesia and 1-2 cath lab staff.

Break and Lunch Considerations

Cases are scheduled with breaks and lunches considered. If there are not enough team members to break the team members for lunch, the team will break between cases.

Breaks and lunches are offered within Washington State requirements.

Geographical Considerations

- This unit contains 2 procedure suites.
- Each room has negative airflow specifically for patients requiring airborne isolation.
- Each room has a dedicated Pyxis machine
- Each suite is restricted access entry according to Legacy policy

Central Sterile at Legacy Salmon Creek Medical Center Staffing Plan

Date of Review: 8/24/21

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The CS Supervisor considers these factors when making assignments and managing the patient flow.

Hours of Operation

Sunday through Thursday 24 hours
Saturday 7:00 AM to 7:30 PM
Holidays 7:00 AM to 7:30 PM

Unit Staffing

- 1 Central Sterile Specialist Monday through Friday 6:00 AM to 2:30 PM
- 1 Implant Coordinator Monday through Friday 6:00 AM to 2:30 PM
- 3 techs Monday through Friday 6:00 AM to 2:30 PM
- 1 tech Monday through Friday 7:30 AM to 4:00 PM
- 1 tech Sunday through Thursday 6:00 AM to 2:30 PM
- 1 tech Tuesday through Saturday 6:00 AM to 2:30 PM
- 1 tech Wednesday through Saturday 6:00 AM to 4:30 PM
- 1 Supervisor Monday through Friday 2:00 PM to 00:30 AM
- 5-6 techs Monday through Friday 2:00 PM to 00:30 AM
- 1 tech Sunday through Thursday 20:30 PM to 7:30 AM
- 1 tech Saturday and Sunday 7:00 AM to 3:30 PM
- 1 tech Saturday and Sunday 9:00 AM to 7:30 PM

Break and Lunch Considerations

Breaks and lunches are offered following the Washington State requirements. Techs are relieved for uninterrupted-meal periods.

Geographical Considerations

This unit contains sterile storage, assembly/ sterilization area, and decontamination. Patient and case tracking boards are located at the assembly area.

Critical Care at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Date of Review: 8/24/21

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse considers all these factors when making assignments and managing the patient flow.

Hours of Operation 24 hours a day, 7 days per week, 365 days per year

- Unit Staffing
- 1 Charge RN for the ICU, 1 Charge RN for the Step Down IMICU
 - Staffing based on acuity and total number of patients. Assignments are 1:1 or 1:2 for ICU status patients and 1:3 for IMICU status patients
 - Core staffing is thirteen staff RNs based on mode census of 26, 2 CHTs during 0600-1930 and 1 CHT 1800-0630. Increasing staff or flexing staff is based on patient census and acuity.
 - One unit secretary provides clerical support 07-1930 seven days/week, flexing staff is based on patient census and acuity
 - Minimal staffing is 2 RNs for each unit

Break and Lunch Considerations

The hours of care required to provide lunch are considered at the time the staffing levels are designed for the patient populations. The presence of the charge nurse and other nurses within the department is also a consideration as these nurses are qualified to provide lunch coverage.

Breaks and lunches are offered within Washington State requirements. Nurses hand off patient care and are provided uninterrupted meal periods.

Geographical Considerations

This Critical Care area contains 32 private patient rooms located on the 3rd floor wing 3A and 3B. There are 4 patient rooms that are negative airflow specifically for patients requiring airborne isolation. Two patient rooms have a double lift system.

Each area (ICU and IMICU) has 1 clean and 1 dirty utility room, 1 nurse station, 2 centrally located pyxis machines, 1 equipment room, computer on wheels or a wired computer in every room, centrally located Philips monitor station and a centrally located call light system.

- General Considerations
- Staffing and standards of care are based on Legacy policies and American Association of Critical Care Nurses (AACN) healthy work environment standards.
 - This unit is supported by ancillary services and is based on patient and unit needs which include but not limited to Respiratory Therapy, Pharmacy, Dietary, Imaging, Spiritual Care, Care Management, Rehab Services, Environmental Services, Material Services Operations and Volunteer Services.

Critical Care at Legacy Salmon Creek Medical Center Nursing Staffing Plan

**Measurement
Methods**

- Any staff member that has concerns about staffing of the unit is encouraged to share their concerns with their charge nurse, house supervisors, and/or unit leadership. We also request documenting concerns and response in our internal tracking program.
- At each Staffing Committee meeting, any staffing concern brought forward will be reviewed. The Staffing Committee will then make recommendations based on the concern brought forward.

Non-Clinical:

- Internal Tracking Report
- Patient Experience Results
- Press Ganey Engagement Results
- AACN Healthy Work Environment Survey

Clinical

- Hospital Acquired Pressure Injury
- Falls
- *Clostridium Difficile* Infection
- Catheter Associated Urinary Tract Infection
- Central Line Associated Blood Stream Infection
- Hand hygiene audits- compliance
- Medication Errors
- Surgical Site Infections
- Ventilator associated events

Critical Care Nursing Manager: Cheryl A. [Signature] Date: 10-5-21

IMCU Staffing Committee Representative: Lacy Petersen [Signature] Date: 10/18/21

Emergency Department at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Date of Review: 08/09/2021

The unit staffing plan includes data and information of the multiple of factors that impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse takes into account all of these factors when making assignments and managing the patient flow of admissions, discharges and transfers.

Hours of Operation Open 24 hours a day/7 days a week/365 days a year (including all holidays)

- Unit Staffing
- 1 Charge RN
 - 10-22 staff RNs with variable start times based on volume. Increasing staff or flexing staff is based on patient census and acuity.
 - Staffing assignments are 4:1 but actual room assignments are all 3:1.
 - Minimum staffing is 2 staff members per open pod (a minimum of 1 RN)
 - 6-8 ED tech/US with variable start times based on volume.

Break and Lunch Considerations

The hours of care required to provide lunch are considered at the time the staffing levels are designed for the the patient populations. The presence of the charge nurse and other nurses within the department is also a consideration as these nurses are qualified to provide lunch coverage.

Breaks and lunches are offered within state requirements. Nurses hand off patient care and are provided uninterrupted meal periods.

Geographical Considerations

This unit contains 32 private patient rooms. All rooms are designed for patient care. There are 2 patient rooms that are secure for behavioral health patients. There are also 4 additional rooms at the front of the department that are used for triage and flow depending on patient volume. There are 6 rooms that are negative airflow specifically for patients requiring airborne isolation.

The department has 3 clean and 3 dirty utility rooms, four nurse's stations, computer or computer on wheels in all patient rooms, and 5 pyxis machines throughout the department.

Emergency Department at Legacy Salmon Creek Medical Center Nursing Staffing Plan

	<p>Short Stay rooms 201-212 are utilized and staffed by the Emergency Department between the hours of 1400-2330 daily for pediatric patients 17 and younger. Currently on hold due to decreased peds volume and use of SSU by surgical services.</p>
<p>General Considerations</p>	<ul style="list-style-type: none"> • Staffing and standards of care are based on Legacy policies and guidelines. • This unit is also supported by Respiratory Therapy, IV Resources, Critical Response Nurse, CSW, Care Management Nurse, Pharmacist and additional ancillary services based on patient and unit needs.
<p>Measurement Methods</p>	<ul style="list-style-type: none"> • Any staff member that has concerns about staffing of the unit is encouraged to share their concerns with their charge nurse, house supervisors, and/or unit leadership. We also request documenting concerns and response in our internal tracking program. • At each Staffing Committee meeting, any staffing concern brought forward will be reviewed. The Staffing Committee will then make recommendations based on the concern brought forward. <p>Non-Clinical:</p> <ul style="list-style-type: none"> • Internal Tracking Report <p>Clinical</p> <ul style="list-style-type: none"> • Surgical Site Infection rates • Falls • Hand hygiene audits • Medication Errors • Hospital Consumer Assessment of Healthcare Providers and Systems • Hospital Acquired Pressure Injury rates • Catheter Associated Urinary Tract Infection rates • Central Line Associated Blood Stream Infection rates

Endoscopy at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Date of Review: 8/24/21

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse considers all these factors when making assignments and managing the patient flow.

Hours of Operation

Monday through Friday 0700-1630

Stand-by:

- 1 Endo RN and 1 Sedation RN on stand-by 1630-0700 M-Fri. and 0700-0700 Sat. and Sun.
- -Stand-by RN for Procedures requiring 3 RNs or multiple procedures M-Fri. 1630-1930, Sat. and Sun 0700-1900

Unit Staffing

- 1 Charge RN
- 1 CHT for scope reprocessing based on number of scheduled procedures.
- 1-8 RNs based on case type and/or the need to run 2 rooms.
- Minimal staffing is 2 RNs

Number of RNs and use of CHT varies daily depending on scheduled/acuity of scheduled procedures.

Break and Lunch Considerations

Cases are scheduled with breaks and lunches considered. If there are not enough team members to break the team members for lunch, the team will break between cases.

Breaks and lunches are offered within Washington State requirements.

Geographical Considerations

This unit contains 2 procedure suites, a decontamination area for manual reprocessing of soiled scopes, a clean room for high-level disinfection of scopes and scope storage.

Workflow is unidirectional from decontamination area to clean area to facilitate infection prevention and patient and staff safety. (Reason for change: support AAMI standards, and TJC requirements).

Each room has negative airflow specifically for patients requiring airborne isolation.

Each room has a dedicated Pyxis machine

Endoscopy at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Medical Specialties Unit at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Date of Review: 9/1/2021

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse considers all these factors when making assignments and managing the patient flow of admissions, discharges and transfers.

Hours of Operation 24 hours a day, 7 days a week, 365 days a year

- Unit Staffing
- One charge nurse every shift.
 - Minimum staffing: 2 RNs
 - Core staffing: 9 RNs plus charge nurse on Day shift and 8 RNs plus charge nurse on Night shift. 4 CHTs on Day shift, 2 CHTs on Night shift.
 - Ratios: *All ratios may vary depending on patient acuity, unit needs, or need for close observation.* 1 RN for up to 4 patients for both Day shift and Night shift. Charge RNs do not have a patient assignment for both Day shift and Night shift. 1 CHT for up to 8 patients on Day shift. 1 CHT for up to 16 patients on Night shift.
 - 1 chemotherapy certified RN on unit for patients receiving IV chemotherapy
 - Overflow Staffing: At time of peak census, Medical Specialties may overflow patients to another area of the hospital that is not 5C & 5D. Staffing ratios and minimal staffing will be maintained in overflow areas. Operating overflow area will increase our core staffing requirements.

Break and Lunch Considerations

The hours of care required to provide breaks and lunch are considered at the time the staffing levels are designed for the patient populations. The presence of the charge nurse and other nurses within the department is also a consideration as these nurses are qualified to provide lunch coverage.

Breaks and lunches are offered within Washington State requirements. Nurses hand off patient care and are provided uninterrupted meal periods.

Geographical Considerations

This unit contains 32 private patient rooms and is located on the 5th floor, wings 5C & 5D. There are 2 patient rooms that are negative airflow specifically for patients requiring airborne isolation.

The department is divided into two wings, each with a clean utility room, dirty utility room, a nurse's station, mounted computer in all patient rooms, centrally located patient call station/nurse tracking system, two Pyxis machines, and a centrally located supply room.

Medical Specialties Unit at Legacy Salmon Creek Medical Center Nursing Staffing Plan

	<p>In times of peak census, overflow areas may be designated as part of the Medical Specialties Unit. Our primary overflow unit is 5A where a maximum of 12 patients can be cared for. Hospital Leadership may designate other physical locations for medical overflow if necessary, to meet our patient needs.</p>
<p>General Considerations</p>	<ul style="list-style-type: none"> • Staffing and standards of care are based on Legacy policies and scopes of service. • This unit is also supported by Respiratory Therapy, IV Resource RN, Dietary, Care Management, Rehab Services and additional ancillary staff as needed per patient requirement or department need.
<p>Measurement Methods</p>	<ul style="list-style-type: none"> • Any staff member that has concerns about staffing of the unit is encouraged to share their concerns with their charge nurse, house supervisors, and/or unit leadership. We also request documenting concerns and response in our internal tracking program. • At each Staffing Committee meeting, any staffing concern brought forward will be reviewed. The Staffing Committee will then make recommendations based on the concern brought forward. <p>Non-Clinical:</p> <ul style="list-style-type: none"> • Internal Tracking Report <p>Clinical</p> <ul style="list-style-type: none"> • Hospital Acquired Pressure Injury • Falls • <i>Clostridium Difficile</i> Infection • Catheter Associated Urinary Tract Infection • Central Line Associated Blood Stream Infection • Hand hygiene audits • Medication Errors

PACU at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Date of Review 8/24/21

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse considers all of these factors when making assignments and managing the patient flow.

Hours of Operation

Monday-Friday 0700-2130
Saturday-Sunday 0700-1730

- 2 RN's on stand-by 2030-0800 Monday-Friday.
- 1 RN on stand-by 0700-1730, 2 RNs on stand-by 1630-0730 Sat. and Sun.
- 2 RNs on stand-by 0600-0730 holidays (25.5 hours)

All stand-by times are subject to change based on scheduled cases in the Operating Room

Unit Staffing

- 1 Charge RN
- 7-8 RN's Mon-Fri with variable start times based upon the OR schedule. Flex to volume.
- 1 CHT Mon-Thur 0900-1930 depending on census

Number of RNs and use of CHT varies daily depending on scheduled/acuity of scheduled procedures.

Break and Lunch Considerations

The hours of care required to provide lunch are considered at the time the staffing levels are designed for the the patient populations. The presence of the charge nurse and other nurses within the department is also a consideration as these nurses are qualified to provide lunch coverage.

Breaks and lunches are offered within Washington State requirements. Nurses hand off patient care and are provided uninterrupted meal periods.

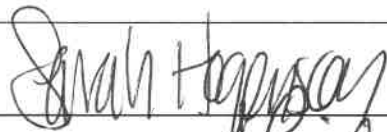

Geographical Considerations

- This unit contains 11 PACU bays, 2 isolation bays, and a clean and soiled utility room.
- Isolation bays are negative airflow specifically for patients requiring airborne isolation.
- The unit has one Pyxis machine.

Progressive Cardiac Care Unit at Legacy Salmon Creek Medical Center: Nursing Staffing Plan

Date of Review: 7/21/21

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse considers all these factors when making assignments and managing the patient flow.

Hours of Operation 24 hours a day, 7 days per week, 365 days per year

Unit Staffing

- 1 Charge RN for 6A/B, 1 Charge RN for 5B
- Core staffing 4 RNs on day shift and night shift on each unit: 6A/6B/5B
- Helper RN for 6A/6B/5B for up to 12 hours on day shift and for up to 6 hours on night shift (*varies depending on census*)
- Additional helper RN for up to 12 hours on day shift and night shift when patient census on 5B/6A/6B totals over 12 patients with a COVID positive or suspected COVID diagnosis at the beginning of the shift.
- Core staffing 2 CHTs on day shift and 1 CHT on night shift on each unit: 6A/6B/5B
- Core staffing 1 Monitor Tech on day shift and on night shift
- One 8-hour shift 0800-1630 Unit Secretary three days a week except off for Legacy recognized holidays
- Minimum Staffing for any of the 3 units, 6A, 6B, 5B, would be 1 RN and 1 CHT with a Charge available or 2 RNs (1 can be the Charge RN). Minimum staffing level applies to 4 patients or fewer on the unit.
- **Ratios:** 1 RN for up to 4 patients for both Day shift and Night shift on 6A/6B/5B. Charge RNs do not have a patient assignment for both Day shift and Night shift. Helper RNs on each shift may not have a patient assignment. 1 CHT for up to 8 patients Day shift on 6A/6B/5B. 1 CHT for up to 16 patients on Night shift on 6A/6B/5B. *All ratios may vary depending on patient acuity or need for close observation.*

Break and Lunch Considerations

The hours of care required to provide lunch are considered at the time the staffing levels are designed for the the patient populations. The presence of the charge nurse and other nurses within the department is also a consideration as these nurses are qualified to provide lunch coverage.

Breaks and lunches are offered within Washington State requirements. Nurses hand off patient care and are provided uninterrupted meal periods.

<p>Geographical Considerations</p>	<p>This unit contains 48 private patient rooms. All rooms are designed for patient care. 32 rooms are on one level and 16 rooms on the floor below. There are 5 patient rooms that are negative airflow specifically for patients requiring airborne isolation. 47 rooms are equipped with ceiling lifts.</p> <p>The department has 6 clean and 6 dirty utility rooms, three nurse's stations, a computer in all patient rooms, centrally located call light system on each unit and 5 centrally located pyxis machines.</p>
<p>General Considerations</p>	<ul style="list-style-type: none"> • Staffing and standards of care are based on Legacy policies. • Staffing is based upon CALNOC guidelines for step-down units (intermediate care). • This unit is also supported by a Case Manager, Social Worker, Respiratory Therapy, IV Resources, Dietary, Physical Therapy, Occupational Therapy, Speech Therapy, Imaging, and Environmental Services.
<p>Measurement Methods</p>	<ul style="list-style-type: none"> • Any staff member that has concerns about staffing of the unit is encouraged to share their concerns with their charge nurse, house supervisors, and/or unit leadership. We also request documenting concerns and response in our internal tracking program. • At each Staffing Committee meeting, any staffing concern brought forward will be reviewed. The Staffing Committee will then make recommendations based on the concern brought forward. <p>Non-Clinical:</p> <ul style="list-style-type: none"> • Internal Tracking Report <p>Clinical</p> <ul style="list-style-type: none"> • Hospital Acquired Pressure Injury • Falls • <i>Clostridium Difficile</i> Infection • Catheter Associated Urinary Tract Infection • Central Line Associated Blood Stream Infection • Hand hygiene audits <p>Medication Errors</p>

PCCU Staffing Committee Representative: Alexis Callahan Date: 10/4/2021

PPCC & Lactation at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Date of Review: 8/24//21

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing.

Hours of Operation

PPCC is open 7 days a week
Lactation OP clinic is open 7 days a week
Lactation IP staff are available 7 days

Unit Staffing

PPCC

- 1 RN for 1-14 patients (up to 2 patient appointments per hour)
- 2 RNs for >14 patient appointments

Lactation

- Minimum of 1 Lactation consultant or specialist– number of hours worked is determined by combination of number of IP referrals (FBC/NICU) and OP appointments, as well as patient phone support needs

Break and Lunch Considerations

Breaks and lunches are offered within Washington state requirements.

Geographical Considerations

The PPCC and Lactation have 2 patient care rooms each

The department has 1 clean and 1 dirty designated area, computers in all patient care rooms

General Considerations

Lactation is staffed following Legacy policy as well as ILCA and AWOHNN guidelines
PPCC is staffed following Legacy policy.

PPCC & Lactation at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Measurement
Methods

- Any staff member that has concerns about staffing of the department is encouraged to share their concerns with their unit leadership. We also request documenting concerns and response in our internal tracking program.
- At each Staffing Committee meeting, any staffing concern brought forward will be reviewed. The Staffing Committee will then make recommendations based on the concern brought forward.

Non-Clinical:

- Internal Tracking Report
- Number of no shows/Cancelations of appointments
- Daily Productivity Assessment

Surgical Services Unit at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Date of Review: 8/24/21

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurses consider all these factors when making assignments and managing the patient flow.

Hours of Operation

Inpatient:

24 hours a day, 7 days a week

Outpatient:

M-F 0530-1930

Saturday: 0530-1800

Call Coverage: 1930-2230 to staff if patients are on the unit after 1930

Unit Staffing

Surgical Services is a result of merging inpatient and outpatient surgical care into one department. Staff are trained to care for patients in both the inpatient and outpatient setting. Staffing decisions are based on the patient volume in both areas and staff float between them as patient care warrants.

Inpatient

- 1 Charge RN
- 7-8 staff RNs based on volume; delayed start times or floating to outpatient based on surgical schedule. Increasing staff or flexing staff is based on patient census and acuity.
- Minimal staffing is 2 RNs.
- 2-4 CHTs based on patient volume.
- 1-2 Total Joint RN coordinators Monday-Saturday as volume warrants
- 1 Total Joint Program Coordinator-PTA Monday-Friday as volume warrants
- Overflow Staffing: At time of peak census, inpatients may overflow to another area of the hospital that is not 6C & 6D. Staffing ratios and minimal staffing will be maintained in overflow areas. Operating overflow area will increase our core staffing requirements.

Outpatient

- 1 Charge RN
- 15-18 staff RNs with a mix of 0530 and 0700 start times. Increasing staff or flexing staff is based on patient census and acuity.
- Minimal staffing is 2 RNs one of which is a competent nurse in outpatient care.
- 2 CHTs Monday-Friday and 1 CHT on Saturday 0600-1830 based on patient volume.
