Purpose statement: We work toward the day when optimal health is a reality for all.
Guided by equity, innovation, and engagement, we:

- Create a culture of excellence in public health.
- Set strategic direction for achieving our transformational goals.
- Collaborate across the organization and the public health and health care systems to spark synergy and bring a sense of urgency to our work.
- Create trust and safety on our team while practicing straight talk and mutual accountability.
- Tell our story inside and outside DOH in clear and compelling ways.
