

Division of Prevention and Community Health

We collaborate with state agencies, community partners and tribal nations to prevent disease and promote a healthy start, healthy choices and access to services. Through our work, we hope to enhance the health of individuals, families and communities and eliminate health inequities in disproportionately impacted populations. The division has four programmatic offices, an administrative office and a COVID-19 Response team. More than 500 employees work to deliver public health services statewide.

The Office of the Assistant Secretary (OAS) provides leadership and support for the entire division in the areas of constituent and external relations; internal operations; policy, rules and legislative affairs; organizational culture; health equity; continuous improvement and performance management; epidemiology and data; public disclosure; strategic thinking and planning.

Michele Roberts, *Assistant Secretary*

Stephanie Dunkel, *Deputy Assistant Secretary*

Heather Drummond, *COVID-19 Vaccine Director*

Jolene Black, *COVID-19 Vaccine Deputy Director*

Amy Underwood, *Lead Administrative Assistant*

- **Pama Joyner**, *COVID-19 Care Coordination Director*
- **Cindil Redick-Ponte**, *Equity and Social Justice Manager*
- **Amy Sullivan**, *Senior Epidemiologist*
- **Colleen Thompson**, *Policy and Legislative Affairs Director*
- **Dan Weeks**, *Finance and Operations Director*

The Office of Family and Community Health Improvement (OFCHI) is responsible for ensuring optimal wellness for families and communities with a focus on primary prevention. This office oversees the following bodies of work: Genetics and Screening, Community Engagement and Workforce Development, Thriving Children and Youth, Community Health Improvement and Linkages (includes sexual and reproductive health and breast, cervical, and colon cancer), Surveillance and Evaluation, and Healthy Systems.

Katie Eilers, *Office Director*

- **Alex Padilla**, *Deputy Office Director (Acting)*

The Office of Healthy and Safe Communities (OHSC) is responsible for improving access to healthy environments and nutrition, and the prevention of chronic disease, substance abuse, violence, injuries, and more. OHSC includes the National Violent Death Registry and Washington State Cancer Registry teams. This office oversees the following programs: Planning, Partnership, Policy and Operations; Community Based Prevention, Injury Violence Prevention, and Surveillance and Evaluation.

Beth Mizushima, *Office Director*

- **Amy Ellings**, *Deputy Office Director*

The Office of Immunization (OI) is responsible for establishing and maintaining statewide infrastructure to support vaccine supply and access, clinical guidance on immunizations, immunization data collection and analysis, and promotion of immunization across the lifespan. This office collaborates with healthcare providers, government agencies, and community organizations to educate parents on healthy choices and preventive care.

Jamilia Sherls-Jones, *Office Director*

- **Tawney Harper**, *Deputy Office Director*

The Office of Nutrition Services (ONS) is responsible for addressing food insecurity, supporting healthy eating, active living, breastfeeding and child development. This office oversees the following programs: Women, Infants and Children (WIC) Nutrition program, SNAP-Education, breastfeeding peer counselors and the Farmer's Market Nutrition Program.

Paul Throne, *Office Director*

- **Brittany Tybo**, *Deputy Office Director*
