Vaccine Order Processing and Delivery Estimates

If you are expecting orders to arrive before the holidays, please keep in mind that routine shipments from McKesson can take up to 4 business days to process before they are shipped. Also, note that shipments may take longer than 4 days to process and ship if the provider does not have regular business hours on a daily basis.

McKesson shipments may arrive on any day of the week, including Mondays, based on the way business hours are entered. Below is the shipping schedule for routine vaccines as stated in the current contract.

Note: Orders may ship out more quickly than the “Order Shipped By” day shown in this table.

Order Received* by McKesson On	Order Shipped By**
Monday	Thursday
Tuesday	Monday
Wednesday	Monday
Thursday	Tuesday
Friday	Wednesday

*Business/Ship day ends at 11:00 PST, orders must be received by McKesson prior to this cutoff to be considered received on a given day.

**Orders shipped by applies to providers with normal business hours only. Providers with hours other than normal business hours should note that orders may ship out later than the “order shipped by” date shown in this table. Please allow for transportation time from the “shipped by” date for physical delivery to the facility.

Department of Health strive to approve orders within 24 hours of receipt, so long as there are no questions with the order and the provider is current with required accountability reporting.

Please note: This calendar is for the routine program only and does not apply to COVID-19 vaccine deliveries.
