Land Acknowledgment

Welcome to the Washington State Department of Health. We start today with a land acknowledgement. We are meeting virtually from all over, but our physical offices are located in Tumwater, on the traditional territories of the Coast Salish people, specifically the Nisqually and Squaxin Island peoples. Tumwater and the South Puget Sound region are covered by the Treaty of Medicine Creek, signed under duress in 1854. The employees of the State of Washington are guided by the **Centennial Accord and chapter 43.376 RCW** – respecting and affirming tribal sovereignty and working with our tribal governments throughout the state in government-to-government partnership.

COVID Vaccine Updates
December 1, 2021

An aerial photograph of Seattle, Washington, taken during the golden hour of sunset. The sun is low on the horizon, casting a warm, golden glow over the city and the surrounding water. The Space Needle is prominently featured in the foreground on the right side, its distinctive structure silhouetted against the bright sky. The city's buildings and streets are visible below, and the water of the Puget Sound is seen in the distance. The overall atmosphere is serene and inspiring.

Health

*Where Equity,
Innovation, and
Engagement meet.*

Proportion of COVID-19 cases attributable to variants

Case Counts

CASE COUNTS

● Probable Cases ● Confirmed Cases ● Incomplete (Probable Cases) ● Incomplete (Confirmed Cases) — Total Cases (7 day avg.) - - - Incomplete (7 day avg.)

Distribution By the Numbers

for the week starting November 29, 2021

51 Weeks of distribution

25.5 M At least 1 dose to adolescents
12–17 y/o

572 M Total doses delivered

37.5 M Additional doses administered

454 M Total doses administered and reported

6.4% Percentage of doses reported as wastage

82.2% of US Adults (18+) have received at least 1 dose (n = 212.3 M)

196.2 M Americans are fully vaccinated

99.9% of US Adults (65+) have received at least 1 dose (n = 54 M)

**Countdown to 1 Year Anniversary:
15 Days**

As of November 29,
80.8%*
of the population
12 and up has
received at least one dose
and
74.6%*
is **fully vaccinated.**

*This percent includes aggregate data from the Department of Defense and Department of Veterans Affairs and is higher than the DOH data dashboard.

Vaccination Rates Not Uniform Across the State

TOTAL POPULATION INITIATING VACCINATION (RECEIVING AT LEAST 1 DOSE)

| | |
|--|--------------|
| Percent of Total Population Initiating Vaccination | 66.7% |
| Percent of Total Population Fully Vaccinated | 61.6% |
| Percent of Population Initiating Vaccination (16+) | 79.6% |
| Percent of Population Fully Vaccinated (16+) | 73.6% |
| Percent of Population Initiating Vaccination (12+) | 78.2% |
| Percent of Population Fully Vaccinated (12+) | 72.2% |

Promoting Health Equity

DOH is committed to addressing concerns regarding equity observed in our initial vaccine efforts.

Strategies:

- Multilingual communication and outreach
- Leveraging community partnerships
- Prioritizing equitable vaccine access in underserved communities
- Using community feedback to address barriers
- Coordinating with community partners to cover gaps in service to reach priority communities

April 15th
Vaccination now open to 16+

Equity Gap: the average difference in % of population initiating vaccination in high vs low SVI census tracts

What's coming next?

(Things we are waiting for...)

- Moderna for adolescents
- Moderna for children (6-11 y)
- Moderna full BLA
- Smaller Pfizer/Comirnaty package size
- J & J for adolescents
- J & J for children (6-11 y)
- J & J full BLA
- Boosters for kids (?)
- Vaccine recommendations 6 months+ (?)

Pediatric vaccination (ages 5-11)

COVID-19 Pediatric Eligibility

Washington State Local Health Jurisdictions

2020 Population Estimates for 5–11 year olds by county

~677,745 children between the ages of 5 to 11 in WA.

Washington State Dose Administration for 12-15 Year Olds By Week

Children and Youth Services ^

Provide vaccines to children, ages 5-11

Provide vaccines to youth, ages 12-17

Consent allowed from a foster parent or other person authorized by a court to provide consent to medical care for a child in an out-of-home placement

Consent allowed from a person with signed authorization from parent to make health care decisions

Consent allowed from a relative responsible for health care

Consent allowed from school nurse, counselor, or homeless liaison (for a youth defined as homeless under the federal McKinney-Vento Homeless Education Act)

Consent allowed from youth who are legally emancipated or married to an adult

Consent allowed from youth qualifying under the Mature Minor Doctrine

Verbal consent allowed (over the phone)

Written consent allowed

Parent/Guardian/Authorized adult does not need to be physically present

Care-a-Van Updates

- Over 3000 doses administered via the Care-a-Van.
- Our 100th Care-a-Van event is today at Columbia Basin College in Pasco.
- We are beginning to receive requests for January and even into March of next year!

Health Promotion and Education: Coming Up

COVID-19 vaccine for ages 5-11

- New: Toolkit to help schools host a vaccine clinic
- Ongoing: Social media to educate parents
- New video: Misinformation/disinformation

Blog topics coming up (medium.com/wadepthealth)

- WAMVerify
- Vaccination for kids (5-11)
- Before your child's vaccine checklist (Spanish only)

Pending translations

- [VaccinateWA.org/kids](https://vaccinateWA.org/kids) in 40 languages
- Several documents in large print and in Braille

Health Promotion and Education: New for Flu

New graphics, ads

- Flu partner toolkit updated with new TV ads and social graphics featuring families with young children

Emphasis on flu vaccine for children

- [Concerning data](#) show over 25% decline in flu vaccination rates among kids 6 months – 5 years
- Flu vaccination is important in all ages but especially those too young to receive COVID-19 vaccine. And vaccinate before holiday travel or gatherings

Community Shared Learning: Small Group Discussions

- Youth Vaccine Access and Engagement: How to Best Reach Youth and Families?
- Building Vaccine Confidence: Community Concerns?
- Vaccine Access and Outreach for People with Disabilities
- Community Care Efforts: Highlighting Lessons Learned, Strategies & Challenges
- Building Better Access to COVID-19 Information

Community Agreements

- Transparency
- Respect
- Take space, make space
- Grace
- Confidentiality
- Take care of yourselves and others

Breakout Rooms

- ASL interpreter paired with Collaborative members
- Spanish interpretation available in the Youth Access room
- Closed captioning available the Community Care room unless otherwise requested
