<b>Purpose:</b> WAC 246-300-001 Licensed health care facilities and coronavirus disease 2019 (COVID-19). Adopting an emergency rule to clarify that licensed facilities must comply with state and federal statutes, rules, lawful orders, and other legal requirements, including lawful orders issued to prevent the spread of COVID-19. This emergency rule establishes that all health care facilities licensed by the Department of Health must comply with state and federal statutes, administrative rules, lawful orders, and other legal requirements relating to the operation of the facility and the control or prevention of the spread of COVID-19, including orders issued by the Governor, by the Secretary of Health, by a local board of health, and by a local health officer.

EMERGENCY RULE  Linder PCW 24.05 250 the agency for good source finds:
Under RCW 34.05.350 the agency for good cause finds:  That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health,
safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon
adoption of a permanent rule would be contrary to the public interest.
That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate
adoption of a rule.
·
Reasons for this finding: The worldwide COVID-19 pandemic and its persistence in Washington State continue to threaten
the life and health of the people and economy of Washington, and remain a public disaster affecting life, health, property or
the public peace. COVID-19 continues as an ongoing and present threat in Washington with continuing prevalence of COVID-19 cases and hospitalizations, primarily among unvaccinated populations but also in breakthrough infections in some
fully vaccinated individuals. Clarifying the applicability of state and federal statutes, administrative rules, lawful orders, and
other legal requirements to licensed health care facilities will assist facilities to comply with these requirements and will assist
the department in its efforts to ensure the health and safety of the workers, recipients of services, and visitors in those
facilities.
The immediate adoption of this emergency rule and the clarity it brings to licensed health care facilities is necessary for the

preservation of public health, safety, and general welfare. Observing the time requirements of notice and opportunity to

comment upon adoption of a permanent rule would be contrary to protecting immediate public interests.
