

# Medical Surge Catalogue

Version 12

11/08/2021

**Dear Healthcare Partners,**

The state supply of various medical materiel has been available to help support state agencies, counties, tribes and other partners and organizations through the COVID-19 pandemic. This resource will only continue to be available to support organizations in extraordinary circumstances such as when supplies are unavailable through regular supply chains, when shipping delays cause an immediate need, and when urgent needs arise that cannot be addressed through other means.

The medical equipment contained within this catalogue was either purchased by Washington State or issued from the Federal Government, in order to assist Local Health Jurisdictions (LHJ’s) and Private Healthcare Organizations (PHO’s) in their response to the Covid-19 pandemic. The Federal Strategic National Stockpile ventilators are on loan for a to-be-determined time. The State procured medical equipment is provided free of charge and its ownership can be transferred, if desired.

**NOTE:** The Washington State Attorney General has determined that, in a time of public need, state procured assets can be gifted to LHJ’s and PHO’s. If you have any questions concerning this subject, please contact the Washington State Medical Surge Logistics Chief at the e-mail below.

To place a request, follow the instructions below.

If you would like more information about this equipment, the quantity available, or technical changes to this catalogue, please contact the [WA State Medical Surge Logistics Chief](#).

Please feel free to openly distribute this catalogue.

**NOTE:** DOH only carries the items contained in this catalogue.

Ventilators - Federal Strategic National Stockpile.....	4
Ventilator Circuits.....	7

**NOTE:** All headings are hyperlinked to the associated page.

# Placing a Request

## PPE Requests

The state PPE supply will only continue to be available to support organizations in extraordinary circumstances such as when supplies are unavailable through regular supply chains, when shipping delays cause an insufficient level of PPE, and when urgent needs arise that cannot be addressed through other means. If a need is accessed pleas go through the below request steps.

For more PPE information please [visit our PPE webpage](#)

1. If an urgent need exists, contact your [county emergency management](#) agency to determine how orders should be placed with them. They are able to answer questions about the forms and ordering process.
2. Complete the forms/process provided from county emergency management.
3. If local emergency management is able to fill this request from a locally existing supply, they will let you know how that process will be completed.
4. If local emergency management is not able to fill the request, and determine the need is urgent they will send the request to the state for processing.

State agencies, federally recognized tribes, and local emergency management agencies are eligible to submit requests directly to the state through Web EOC.

## All other requests

Please use the above requests process through your [county emergency management](#) agency.

For more info on the medical equipment contained within this catalogue [please contact us](#).

# Fatality Management

## FEMA Human Remains Pouch

No cost to the requestor

- 94" x 36" with handles

## Ventilators - State Procured

State procured ventilator ownership can be transferred from the state to the requestor at no cost. Please inquire with the Medical Surge Logistics Chief if you have any questions.

### Vyaire Bellavista 1000s

The Bellavista 1000 ventilator combines state-of-the-art ventilation technology with an innovative user-control concept. Use it for universal applications from neonatal to adult ventilation and coping with daily challenges in an intensive care unit, an intermediate care setting or respiratory care units, regardless of whether ventilation is invasive or noninvasive. The high-performance turbine drive, the compact design of Bellavista and at least four hours of battery time offer important options for in-hospital transfers.

**Note:** May not be available due to limited stock.

#### Training and Resources

- [Ventilator Training Alliance- Bellavista 1000](#)

#### Comes with the following:

- Trolley
- Circuit Support Arm
- Humidifier Bracket
- Cylinder Support w/Belts
- I-Flow 200s Proximal Flow Sensor (10 ea.)
- AirLife Circuit w/"Y" for vents with Internal Exh. Valves (20 ea.)
- Vyaire Exhalation Valve (10 ea.)
- User Manual

# Ventilators - Federal Strategic National Stockpile

SNS ventilators are on loan, at no cost, from the federal government for a to-be-determined time. You can also place a direct SNS request with your county Emergency Manager.

## Ventec VOCSN V+ Pro Emergency

The V+ Pro critical care ventilator is an emergency configuration of the VOCSN multi-function ventilator. VOCSN is intended to provide continuous or intermittent ventilatory support for the care of individuals who require mechanical ventilation. It may be used in invasive and non-invasive applications, intended for pediatric through adult patients weighing at least 5 kg, for use in home, hospital, institutional, and transport settings, including portable applications.

### Training and Resources

- [Ventilator Training Alliance - Ventec VOCSN V+ Pro Emergency](#)
- [SNS Ventec VOCSN V+ Pro Emergency Training and Resources](#)
- [SNS Held - Ventec VOCSN High Flow Kit Training and Resources](#)

### Comes with the following:

- Roll Stand
- Power cord / Charger
- User Manual
- VOCSN High Flow Kit that delivers a continuous, set flow of gas (usually air and oxygen from a high-pressure source) to the patient through a large bore nasal cannula or other interface. It is designed for spontaneously breathing patients and is not intended for life support. The flow rate can be set anywhere from 15 to 60 L/min for adults, or 4 to 25 L/min for pediatric patients and FiO<sub>2</sub> may be set anywhere from 21% to 100%.

### The kit includes the following:

- Adult, Valve less, Heated Ventec One-Circuit
- Humidifier Bypass
- OptiFlow+ Adult Cannula, Medium (Universal)
- Auto-fill Disposable Adult Humidification Chamber
- High Pressure O<sub>2</sub> Hose
- Temperature Probe
- 850 Heater Wire Adapter
- Water Bag Pole
- MR850 Heated Humidifier
- Resupply Kit is included:
  - Patient Breathing Package Adult, Active, Heated, Blue, with Humidifier Bypass, Blue (4 ea.)
  - Patient Breathing Package, Adult, Active, Blue (6 ea.)
  - External Bacterial Filter (41 ea.)
  - Internal Bacterial Filter (10 ea.)
  - **NOTE: Resupply Kits are available upon initial issue of this ventilator. Subsequent supplies are the responsibility of the end user.**

## Zoll EMV+ 731

The Zoll EMV+ 731 portable critical care ventilator is a small, durable, full-featured portable mechanical ventilator designed to operate in hospitals or severe and under-resourced environments. It is suitable for use with adults, pediatrics and infants in prehospital, field hospital, and hospital settings.

### Training and Resources

- [Ventilator Training Alliance Zoll EMV+ 731 Training and Resources](#)
- [SNS Zoll EMV+ 731 Training and Resources](#)

### Comes with the following:

- Rolling Go-Pack Case containing:
  - Kit, Ped/Adult & Inf/Ped, Single-limb Y Ventilator Circuit 6 ft.
  - Medical Hose Assembly DF\*DF OXY USA NON, 6 ft. (1 ea.)
  - Assembly, 3-Liter Reservoir Kit (1 ea.)
  - LNCS Series Adult Reusable Finger Clip Sensor (1 ea.)
  - LNCS Series Patient Cable (1 ea.)
  - Power cord / Charger
  - User Manual
- Accessory Kit containing:
  - Infant/Pediatric, Single-Limb, Y Ventilator Circuit 6 ft. (1 ea.)
  - Ped/Adult, Single-Limb, Y Ventilator Circuit 6 ft. (3 ea.)
  - Filter, Bacterial / Viral Depth Filter, No Port (8 ea.)
  - Humidification Kit including:
    - Case with shoulder strap
    - Hygroscopic Condenser Humidifier AirLife® 35 mg @ 500 mL 1.0 cm @ 0.5 LPS / 2.5 cm @ 1.0 LPS (4 ea.)
    - Gibeck Heat and Moisture Exchanger Humid-Vent™ 30.5, Vt = 0.2L 0.3, 20 LPM (2 ea.)
    - Gibeck Heat and Moisture Exchanger Humid-Vent™ Mini 30, Vt = 0.2 L 0.9, 10 LPM (1 ea.)
    - Disk Filter (2 ea.)
    - Foam Filter (2 ea.)
- Resupply Kit is included:
  - Circuit, Vent, Single Limb, Y, Adult/Ped (1 / Vent)
  - Circuit, Vent, Single Limb, Y, Adult/Ped (1 / Vent)
  - Kit, Adult, Mask #5 / Harness (1 / Vent)
  - Kit, Large, Adult, Mask #6 / Harness (1 / Vent)
  - Kit, Child, Mask #4 / Harness (1 / Vent)
  - HME - Heat Moisture Exchanger, Adult (12 / Vent)
  - HME – Heat Moisture Exchanger, Inf, dead space less than or equal to 10ml (3 / Vent)
  - HME - Heat Moisture Exchanger, Ped, dead space less than or equal to 25 ml (3 / Vent)
  - Circuit. Vent, Single Limb, Y, Inf (2 / Vent)
  - Filter, Bacterial / Viral (BV) (10 / Vent)
  - **NOTE: Resupply Kits are only available upon initial issue of the ventilator. Subsequent supplies are the responsibility of the end user.**

## Vyaire LTV 1200

The LTV 1200 ventilator offers both invasive and noninvasive modes of ventilation in Pressure Control, Pressure Support, Volume Control and Spontaneous Breath Types with the following features: Infant, pediatric or adult patient presets, Spontaneous Breathing Trial, and the Oxygen (O<sub>2</sub>) resource management tool.

### Training and Resources

- [Ventilator Training Alliance Vyaire LTV1200 Training and Resources](#)
- [SNS Vyaire LTV1200 Training and Resources](#)

### Rolling Go Pack Comes with the following:

- Rolling Go-Pack Case including:
  - LTV Disposable Ventilator Circuits for Adult/Peds/Infant
  - LTV Hygroscopic Heat and Moisture Exchanger (HME and bacterial filter combined) - for Adult/Peds
  - LTV Hygroscopic Heat and Moisture Exchanger (HME and bacterial filter) - Infant
  - LTV MDI adapters- Adult/Peds/Infant
  - LTV Closed Suction Catheters 14 Fr- Adult/10 Fr- Peds/6 Fr- Infant
  - Care Fusion Patient (Adult) Circuit, w/o Peep, 22mm (10 ea.)
  - Care Fusion Patient (Ped) Circuit, w/o Peep, 15mm (10 ea.)
  - Care Fusion Patient (Ped /Inf) Circuit, w/o Peep, 15mm (10 ea.)
  - Power cord / Charger
  - User Manual
- Resupply Kit is included:
  - LTV Disposable Ventilator Circuit Adult (4 / Vent)
  - LTV Disposable Ventilator Circuit Peds (2/Vent)
  - LTV Disposable Ventilator Circuit Infant (2/Vent)
  - LTV Hygroscopic Heat and Moisture Exchanger (HME and bacterial filter combined) –Adult (12 / Vent)
  - LTV Hygroscopic Heat and Moisture Exchanger (HME and bacterial filter combined) – Peds (2 / Vent)
  - LTV Hygroscopic Heat and Moisture Exchanger (HME and bacterial filter) – Infant (8 /Vent)
  - LTV MDI adapters- Adult (4 / Vent)
  - LTV MDI adapters- Peds/Infant (2 / Vent)
  - LTV Closed Suction catheters 14 Fr- Adult (4 / Vent)
  - LTV Closed Suction catheters 10 Fr- Peds (1 / Vent)
  - LTV Closed Suction catheters 6 Fr- Infant (1 / Vent)
  - **NOTE: Resupply Kits are only available upon initial issue of the ventilator. Subsequent supplies are the responsibility of the end user.**

## Ventilator Circuits

No cost to the requestor

### **AirLife Circuit w/“Y” for Vents w/Internal Exh. Valves,** Ref #: OP1775 (Carton of 10)

Works with various ventilator models. Please check with your manufacturer.

## Vyair LTV1200 CareFusion Circuits

**NOTE:** These circuits are not part of the SNS ventilator resupply kits and do not come with filters. If you only need circuits, we have a very large number.

- Care Fusion Patient (Adlt) Circuit, w/o Peep, 22mm, SPU, (For use with LTV 1150 and 1200. May be used with LTV 900, 950, and 1000 only if Peep is not required), **Ref #: 10822x10 (Box of 10)**
- Care Fusion Patient (Ped) Circuit, w/o Peep, 15mm, SPU, (For use with LTV 1150 and 1200. May be used with LTV 900, 950, and 1000 only if Peep is not required), **Ref #: 10823x10 (Box of 10)**

## Flex Air HE PAPR System w-Loose Fit Hood w-Cape

The Flex Air™ PAPR System is a compact, lightweight Powered Air Purifying Respirator (PAPR) System with onboard Lithium-Ion Battery installed in the waist-mounted blower. The flexible design permits the use of 2 HE (High Efficiency) particulate filters or 3 combination cartridges for protection against organic vapors, acid gases, ammonia, formaldehyde and methylamine. Workers are protected by having contaminated air purified by filtration media mounted on the PAPR blower unit and delivered via a lightweight breathing hose to the user's head cover.

### Kit Includes:

- 1 Flex Air Blower White
- 1 Charger w/Barrel Plug - Li-Ion Battery
- 1 Belt Assy - 60"L x 2"W
- 1 Airflow Indicator
- 1 Breathing Tube Assy - Loose Fitting Head Cover – White
- 1 Loose Fitting Hood w/Cape - Tychem QC – Yellow
- 2 HE2 Filters + 2 extra
- 1 User Instruction - Loose fitting Hood w/Cape
- 1 User Instruction
