Her are the details. Dropped of three prescription at about 2pm 6/9/20 at 4315 6th ave . Went a few hours later and picked up. After getting home realized there were on to meds in the staples shut paper bag. Just the stool softener and anti nausea meds, no ocycodone, even though receipt had three items on it. Went back, PA and Pharmacist refused to admit mistake and would not give me missing prescription. We requested a camera check and it revealed only two bottles were put in the bag, so the finally gave me full prescription. The PA was Angela Laney. I donâ€™t have the name of the pharmacist involved. The item â€œlostâ€ is a highly addictive and expensive drug, that was stolen by someone in the pharmacy, and I was blamed and treated like an addict. I am sending pics of all the meds attached to this. I also have witness, my partner has to drive me everywhere because I have two broken arms. For more info you can Email or call: Deborahbonnierose@yahoo.com 253-389-2217
