I. Definitions

This Plan uses and incorporates the definitions from Revised Code of Washington (RCW) 69.48.020 and Washington Administrative Code (WAC) 246-480-020 and related rules (the “Drug Take-back Laws”).

Authorized Collector means any of the following persons or entities that have entered into an agreement with a Program Operator to collect Covered Drugs:

(a) A person or entity that is registered with the United States Drug Enforcement Administration and that qualifies under federal law to modify its registration to collect controlled substances for the purpose of destruction;

(b) A law enforcement agency; or

(c) An entity authorized by the department to provide an alternative collection mechanism for certain Covered Drugs that are not controlled substances, as defined in RCW 69.50.101.

Authorized Employee means the designated contact person or persons at the Collection Site who are authorized to install, remove, transfer, and store inner liners as required by 21 cfr 1317.35(d), 21 cfr 1317.75(g), and 21 cfr 1317.80(c).

Board of Pharmacy means the Washington State Pharmacy Quality Assurance Commission.

Carrier means the common carrier used to transport Covered Drugs.

Collection Site means the location where an Authorized Collector operates a secure collection receptacle for collecting Covered Drugs.

Container means the cardboard box that both supports the Inner Liner inside the Kiosk during drug collection and becomes the outer shipping package when the Inner Liner is full and/or removed from the Kiosk.

Collection System is Inmar’s term for collection methods including permanent collection Kiosks at fixed locations, Mail-back Distribution Locations and Collection Events.

Collection Method means one of the three collection types (Kiosk, Mail-back, or Collection Event) authorized for collection and disposal of home-generated controlled substances by the DEA under 21 CFR Section 1317.

Convenience Standard means the goals established in RCW 69.48.050(2) and RCW 69.48.060(3)(c)(i-iii).

Covered Drug (a) means a drug from a Covered Entity that the Covered Entity no longer wants and that the Covered Entity has abandoned or discarded or intends to abandon or discard. "Covered Drug" includes legend drugs and non-legend drugs, brand name and generic drugs, drugs for veterinary use for household pets, and drugs in medical devices and combination products.

(b) "Covered Drug" does not include:

- (i) Vitamins, minerals, or supplements;
- (ii) Herbal-based remedies and homeopathic drugs, products, or remedies;
- (iii) Controlled substances contained in schedule I of the uniform controlled substances act, chapter 69.50 RCW;
- (iv) Cosmetics, shampoos, sunscreens, lip balm, toothpaste, antiperspirants, or other personal care products that are regulated as both cosmetics and nonprescription drugs under the federal food, drug, and cosmetic act, 21 U.S.C. Sec. 301 et seq.;
- (v) Drugs for which manufacturers provide a pharmaceutical product stewardship or drug take-back program as part of a federal food and drug administration managed risk evaluation and mitigation strategy under 21 U.S.C. Sec. 355-1;
- (vi) Biological drug products, as defined by 21 C.F.R. 600.3(h) as it exists on June 7, 2018, for which manufacturers provide a pharmaceutical product stewardship or drug take-back program and who provide the department with a report describing the program, including how the drug product is collected and safely disposed and how patients are made aware of the drug take-back program, and who updates the department on changes that substantially alter their drug take-back program;
- (vii) Drugs that are administered in a clinical setting;
- (viii) Emptied injector products or emptied medical devices and their component parts or accessories;
- (ix) Exposed needles or sharps, or used drug products that are medical wastes; or
- (x) Pet pesticide products contained in pet collars, powders, shampoos, topical applications, or other forms.

Covered Entity means a state resident or other nonbusiness entity and includes an ultimate user, as defined by regulations adopted by the United States drug enforcement administration. "Covered Entity" does not include a business generator of pharmaceutical waste, such as a hospital, clinic, health care provider's office, veterinary clinic, pharmacy, or Law Enforcement Agency.

Covered Manufacturer means a person, corporation, or other entity engaged in the manufacture of Covered Drugs sold in or into Washington state. "Covered Manufacturer" does not include:

- (a) A private label distributor or retail pharmacy that sells a drug under the retail pharmacy's store label if the manufacturer of the drug is identified under RCW 69.48.040;
- (b) A repackager if the manufacturer of the drug is identified under RCW 69.48.040; or
- (c) A nonprofit, 501(c)(3) health care corporation that repackages drugs solely for the purpose of supplying a drug to facilities or retail pharmacies operated by the corporation or an affiliate of the corporation if the manufacturer of the drug is identified under RCW 69.48.040.

DEA means the U.S. Drug Enforcement Administration.

DEA Rule means the DEA Final Rule, “Disposal of Controlled Substances,” 79 Fed. Reg. 53520 *et seq.* adopted on September 9, 2014 and codified at 21 CFR 1317.

Department means the Department of Health.

DOT means the U.S. Department of Transportation.

Drop-door means the door on the Kiosk where Covered Drugs are deposited by Covered Entities.

Drug Take-back Laws means RCW Chapter 69.48 Sections 69.48.010 through 69.48.200 and the WAC Sections 246.480.010 through 246.480.990.

Drug Take-back Program (Program) means a program implemented by a Program Operator for the collection, transportation, and disposal of Covered Drugs.

Inhaler Mail-back Envelope (Envelope) means a free pre-paid, pre-addressed envelope for the collection and disposal of inhalers.

Inmar’s Plan (Plan) means the Product Stewardship Plan presented in this submission.

Inner Liner means the liner placed inside the Container that meets the requirements of 21 CFR Section 1317.60.

Kiosk means a secure collection receptacle into which Covered Entities deposit Covered Drugs, which meets the requirements of 21 CFR Section 1317 and is in compliance with state and federal law, including any applicable on-site storage and collection standards adopted by rule pursuant to chapter 70A.205 or 70A.300 of the RCW and United States Drug Enforcement Administration regulations.

Legend Drug means a drug, including a controlled substance under chapter 69.50 RCW, that is required by any applicable federal or state law or regulation to be dispensed by prescription only or that is restricted to use by practitioners only.

Liner Kit is a set of three (3) pre-labeled and pre-paid cardboard box Containers, liquid barriers, and Inner Liners that meet the requirements of 21 CFR § 1317.60.

Law Enforcement Agency or LEA is a federal, state, tribal, or local law enforcement office or agency.

Mail-back Distribution Location means a facility, such as a town hall or library, that offers pre-paid, pre-addressed mailing envelopes to Covered Entities.

Mail-back Program means a method of collecting Covered Drugs from Covered Entities by using pre-paid, pre-addressed mailing envelopes.

Mail-back Starter Kit means 20 Standard Mail-back Envelopes, 5 Inhaler Mail-back Envelopes and 3 Pre-filled Injector Mail-back Packages with a visual reorder trigger, including instructions to Mail-back Distribution Locations on how to reorder additional Mail-back Starter Kits. All supplies are free of charge.

Mailer is a generic term that refers to all pre-paid, pre-addressed Standard Mail-back Envelopes, Inhaler Mail-back Envelopes and Pre-filled Injector Mail-back Packages.

Non-legend Drug means a drug that may be lawfully sold without a prescription.

Packaged Container means the full Inner Liner used in the Kiosk after it is removed, secured within the Container, prepared, and sealed for transportation to a DEA Reverse Distributor.

Pharmacy means a place licensed as a pharmacy under chapter 18.64 RCW.

Population Center means cities or towns and the unincorporated areas within a ten-mile radius from the center of a city or town.

Pre-filled Injector means an unused or partially used pre-filled injector product with a retractable or otherwise securely covered needle. This does not include emptied injector products.

Pre-filled Injector Mail-back Package means a free pre-paid, pre-addressed, FDA-cleared sharps container and outer shipment package for the collection and disposal of Pre-filled Injector products.

Program Toll-free Phone Number means the single toll-free telephone number for Covered Entities to obtain Mailers or to locate a Collection Site which is established pursuant to RCW 69.48.070(1)(d) and (2).

Program Operator means a Drug Take-back organization, Covered Manufacturer, or group of Covered Manufacturers that implements or intends to implement a Drug Take-back Program approved by the Department.

Program Website means the single website for Covered Entities to obtain Mail-back Envelopes and Packages or to locate a Collection Site that is established pursuant to RCW 69.48.070(1)(d) and (2).

Retail Pharmacy means a place licensed as a pharmacy under chapter 18.64 RCW for the retail sale and dispensing of drugs.

Service Provider is any vendor retained by Inmar to provide materials or carry out its obligations under Inmar's Plan.

Standard Mail-back Envelope (Envelope) means a free pre-paid and pre-addressed mailing envelope for the collection and disposal of all Covered Drugs except for those dispensed in an Inhaler or Pre-filled Injector.

II. Collection System

Inmar Rx Solutions, Inc. a wholly owned subsidiary of Inmar, Inc. (“Inmar”), submits this proposed Drug Take-back Plan on behalf of the Covered Manufacturers represented in Appendix A and pursuant to RCW 69.48.020 and WAC 246-480-020, the Drug Take-back Laws. Inmar will fully implement the Plan within 180 days of the Department’s approval of Inmar’s Plan. Inmar will set up a Collection System that is safe, secure, and convenient on an ongoing, year-round basis and provides equitable and reasonably convenient access for residents across the state consistent with RCW 69.48.050(2) and RCW 69.48.060.

A. Equitable and Reasonably Convenient Access

In accordance with RCW 69.48.060(3)(c)(i), Inmar will establish a minimum of one Collection Site in each Population Center and one additional Collection Site for every fifty thousand residents of the city or town located within the Population Center. Additionally, in accordance with RCW 69.48.060(3)(c)(ii), on islands and in areas outside of Population Centers, a Collection Site will be located at the Site of each potential Authorized Collector that is regularly open to the public and is willing and qualified to participate in the Program. Inmar will give preference to locating Collection Sites at Retail Pharmacies, hospitals or clinics with on-site pharmacies, and Law Enforcement Agencies. Additionally, Inmar will solicit long-term care facilities and substance use disorder treatment centers as needed where a retail pharmacy, hospital or clinic with an on-site pharmacy, or law enforcement agency is unavailable and to ensure that Collection Sites are geographically distributed to provide reasonably convenient and equitable access to all residents of the Population Center.

Inmar has notified potential Authorized Collectors of the opportunity to serve as an Authorized Collector for the Program in accordance with RCW 69.48.060(1)(a). Inmar will commence good faith negotiations with any interested Authorized Collector no later than thirty days after the Authorized Collector expresses interest in participating in the Program.

As required by RCW 69.48.060(1)(c), Inmar will include as an Authorized Collector any Retail Pharmacy, hospital or clinic with an on-site pharmacy, or Law Enforcement Agency that offers to participate in the Program without compensation. Inmar enters into agreements with all willing Authorized Collectors ensuring their commitment to compliant operation of the Collection Sites and shipping of contents in compliance with the DEA regulations and all other state or federal laws and rules governing the keeping of Covered Drugs. A refusal to sign the agreement or comply with the DEA regulations or other applicable laws and rules would be a reason why an Authorized Collector would be excluded from the Program. Authorized Collectors will be included in the Program no later than ninety days after receiving the offer to participate.

Inmar is also making efforts to identify long-term care facilities and substance use disorder treatment centers throughout the state where Collection Sites can be established. A list is being compiled of potential locations that are eligible to host a Collection Site. Letters will be sent notifying and inviting these locations to participate in the Program on January 14, 2022. A call campaign following-up with these potential Authorized Collectors will begin on February 7, 2022. After the success of these efforts has been evaluated, a more targeted outreach effort will begin on March 1, 2022 in Population Centers that are still underserved by Collection Sites.

In accordance with the requirements of RCW 69.48.060(3)(c)(ii), on islands and in areas outside of Population Centers, Inmar will locate Collection Sites at each potential Authorized Collector that is regularly open to the public and is willing to participate in the Program. Collection Sites will accept all Covered Drugs from Covered Entities during the hours that the Authorized Collector is normally open for business with the public per RCW 69.48.060(2)(a).

Inmar will establish Mail-back Distribution Locations or hold periodic Collection Events to supplement service in any area of the state that is considered to be underserved by Collection Sites as determined by the Department and in consultation local law enforcement, the local health jurisdiction, and the local community pursuant to RCW 69.48.060(3)(d). However, in accordance with RCW 69.48.050(2)(d), Inmar will ensure that physical Collection Sites are the primary method of collection across the state and that methods of supplementing Collection Site service are secondary and do not exceed serving 15% of the state's residents.

B. Collection Sites

In accordance with RCW 69.48.060(3)(c)(i), Inmar will establish a minimum of one Collection Site in each Population Center and one additional Collection Site for every fifty thousand residents of the city or town located within the Population Center. Additionally, in accordance with RCW 69.48.060(3)(c)(ii), on islands and in areas outside of Population Centers, a Collection Site will be located at the Site of each potential Authorized Collector that is regularly open to the public and is willing and qualified to participate in the Program.

Inmar has identified potential Collection Sites in all Population Centers and continues to work to secure Collection Sites in each Population Center. The following process will continue until Inmar has secured the required number of Collection Sites to meet the standards set forth in RCW 69.48.060(3)(c)(i).

1. Inmar will continue working with all interested Authorized Collectors to secure agreements, establish Collection Sites, and install Kiosks.
2. Inmar will continue to reach out to potential Authorized Collectors who have not responded regarding a willingness to participate in the Washington Drug Take-back Program.
3. In Population Centers where a Collection Site has not yet been identified through the process described above, Inmar will provide Mail-back Distribution Locations or Collection Events to supplement service to underserved areas pursuant to RCW 69.48.060(3)(d). In accordance with RCW 69.48.050(2)(d), Inmar will ensure that physical Collection Sites are the primary method of collection across the state and that methods of supplementing Collection Site service are secondary and do not exceed serving 15% of the state's residents.
4. Inmar will continue to solicit potential Authorized Collectors and evaluate annually the need for additional Collection Sites based on population growth.

Convenience Tracking and Geographical Distribution

Inmar uses a tracking spreadsheet and maps to monitor convenience. The spreadsheet is updated weekly and records the required number of Collection Sites per Population Center in Washington,

Inmar's established number of Collection Sites per Population Center and the number of supplemental services being established state-wide. The spreadsheet uses formulas to track the percentage of the population being serviced by a Kiosk versus the population being serviced through an alternative collection method such as Mail-back Distribution Locations or Collection Events. This spreadsheet helps Inmar track whether more than 15% of the population is being serviced by alternative collection methods and where there may be gaps in coverage so those areas can be targeted.

To date, Inmar has identified 281 Population Centers requiring 318 Kiosks to meet the Convenience Standard set forth in RCW 69.48.060(3)(c)(i). Of that, Inmar has established agreements with 194 Collection Sites and 36 Mail-back Distribution Locations distributed across 100 Population Centers in Washington. Appendix B provides the current list of Authorized Collectors with which Inmar has entered into agreements. Appendix D provides the current list of committed Mail-back Distribution Locations that are pending consultation with local health jurisdictions before they can be confirmed for use. Inmar is committed to meeting the convenience standard within 180 days of approval through continued efforts described above to establish Collection Sites and Mail-back Distribution Locations.

It is always Inmar's intention to establish a Collection Site wherever possible and as a first option in Population Centers. However, where space constraints or other factors make it challenging to establish a Collection Site, Mail-back Distribution Locations are sought out as an alternative and established in consultation with the Department, local health jurisdictions, law enforcement and the local community. Based on Inmar's current tracking of Population Centers in Washington, Mail-back Distribution Locations can be established in the remaining 181 Population Centers without a Collection Site and Inmar would not be over the required 15% threshold for the amount of population being serviced by alternative collection methods. Inmar will continue to solicit Authorized Collectors beyond Plan approval and work to decrease the number of Population Centers underserved by Collection Sites and improve the geographical spread of Kiosks throughout the state.

The following map shows the geographical distribution of Collection Sites and Mail-back Distribution Locations that Inmar has entered into agreements with at the time of Plan submission. The circles represent a 20-mile radius around each Site and Location to demonstrate convenient access for the surrounding area as per RCW 69.48.060(3)(c).

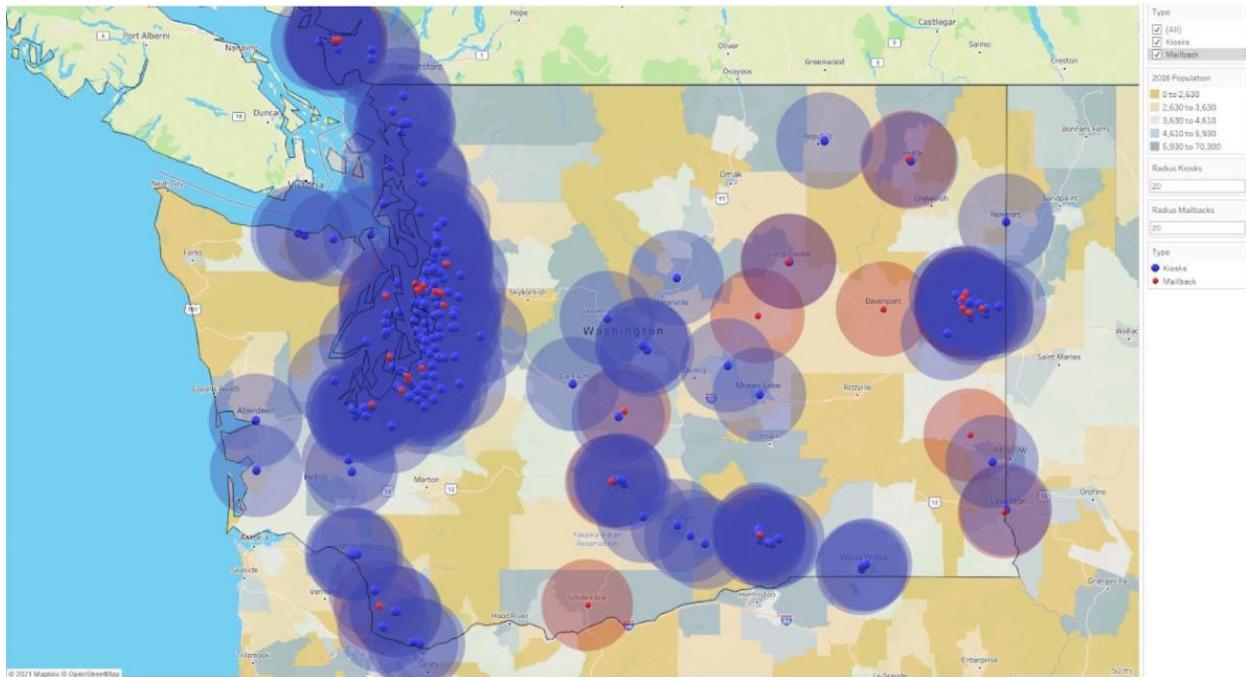

Figure 1: Map of Collection Sites and Mail-back Distribution Locations

In compliance with RCW 69.48.060(2)(b), Inmar will only accept Covered Drugs from Collection Sites located at a long-term care facility as referenced in RCW 69.48.060(1)(d)(i), and allowed under applicable federal regulations, that are in the possession of individuals who reside or have resided at the facility.

Collection Sites are available for use during the normal business hours of the Authorized Collector and accept all Covered Drugs from Covered Entities as required by RCW 69.48.060(2)(a). For Collection Sites that are added after Plan approval, Kiosks will be installed and fully operational within 90 days of receiving an offer to participate from the Authorized Collector unless the Authorized Collector requests additional time for installations and operation of Kiosk(s).

C. Secure Collection Receptacles

Inmar’s Kiosk is made in the USA and designed to be safe and secure, as required by RCW 69.48.060(2)(c). Produced from 16-gauge cold-rolled steel, and with an easy-to-use, Americans with Disabilities Act (ADA)-compliant Kiosk design, Covered Entities can easily drop Covered Drugs through the Drop-door and into the shippable Container and Inner Liner inside. The Container is a 275 lb-rated box with a 6-mil, DEA-compliant Inner Liner. Inner Liners are either 18 gallons or 35 gallons dependent upon the geographical location and population density of the Collection Site. This volume rating is printed directly onto our Inner Liners and has passed the tests prescribed in accordance with ASTM D 1922 and ASTM D 1709.

The Kiosk design exceeds standard safety requirements and meets those as required by RCW 69.48.060(2)(c). Kiosks will comply with all state and federal laws, including any applicable on-site storage and collection standards adopted by rule pursuant to chapter 70A.205 or 70A.300 RCW and DEA regulations. The top of the Kiosk is sloped, limiting the ability to stack items on top. In addition, the Kiosk features an extended metal Drop-door that lowers into the Container to detect when capacity is reached. When the Drop-door encounters resistance within the Kiosk, it is an indication that it is time to change the Container. This manual capacity indicator eliminates the need to change batteries and/or sacrifice the location of the Kiosk to be proximate to an electrical outlet. Lastly, the Kiosk access door is reversible to allow for convenient placement in any appropriate location in the Collection Site.

Kiosks will be securely installed inside an Authorized Collector's registered Collection Site in accordance with 21 CFR § 1317.75 and RCW 69.48.060(2)(c) to include:

- Pharmacies: in the immediate proximity of a designated area where controlled substances are stored and at which an employee is present (e.g., can be seen from the pharmacy counter).
- Hospitals/clinics: in an area regularly monitored by employees and shall not be located in the proximity of any area where emergency or urgent care is provided.
- Substance use disorder treatment program: in a room that does not contain any other controlled substances and is securely locked with controlled access.
- Long-term care facility: in a secured area regularly monitored by long-term care facility employees.

The Kiosk has pre-drilled holes in the bottom for easier installation. It also features a 4-point locking system with steel projections in two center locations and the top and bottom of the door that are activated when locked for strengthened security. Top and bottom deadbolt locations are hidden from the outside to prevent break-ins.

Inmar provides secure installation of Kiosks for the Authorized Collector at the Collection Site. The Collection Site is requested to remove any physical barriers of the identified Kiosk location in advance of the agreed upon installation date and time as well as the location to be identified on the floor with markings such as tape to ensure the Kiosk is installed in the proper location. However, Authorized Collectors may request to install the Kiosk themselves. In this scenario, Inmar will ship the Kiosk to the Authorized Collector with instructions on how to properly install a Kiosk according to DEA regulations. At the time of contract signing and receiving the order form for the Kiosk, Inmar will send an electronic form to the Authorized Collector that provides an installation checklist and requires the Authorized Employee to sign acknowledging their inspection of installation according to those instructions. Inmar then conducts an in-person audit within 30 days of installation to ensure the Kiosk is properly installed and ready to receive Covered Drugs.

Pursuant to RCW 69.48.070(1)(g), Kiosk signage will include instruction on what items are allowed and prohibited for deposit into the Kiosk. Kiosks will accept all Covered Drugs from Covered Entities during the hours that the Authorized Collector is normally open for business in accordance with RCW 69.48.060(2)(a) except for Pre-filled Injectors. In accordance with RCW 69.48.060(3)(f) and with approval from the Department, Inmar will provide Authorized Collectors with Pre-filled Injector Mail-back Packages at the time of Kiosk installation to distribute for use by Covered Entities. Section II.G

provides more detail on Pre-filled Injector Mail-back Packages. Authorized Collectors will be provided an initial stock of no less than 3 Pre-filled Injector Mail-back Packages but Inmar will work with each Authorized Collector to understand space constraints and determine the best amount to keep in stock regularly. Inmar will instruct the Authorized Collector on how to order more Pre-filled Injector Mail-back Packages when inventory is low and follow the same process as Mailers at all Mail-back Distribution Locations as described in Section II.F.

Kiosk signage will instruct Covered Entities to contact Inmar through the Program Toll-free Phone Number and Program Website to request Pre-filled Injector Mail-back Packages. Inmar will also provide Authorized Collectors with signage to display at Collection Sites instructing Covered Entities how to request a Pre-filled Injector Mail-back Package from the Authorized Collector or by using the Program Website or Program Toll-free Phone Number.

The Kiosk signage will also feature a Program Toll-free Phone Number and Program Website publicizing collection options and Collection Sites and discouraging improper disposal practices for Covered Drugs, such as flushing them or placing them in the garbage per RCW 69.48.070(1)(d). Inmar will work with the Department to design any additional signage that meets the needs and requirements of the Program. Kiosk signage will be designed for consistency with that of other approved Program Operators. Appendix F provides examples of signage to be used in Kiosks and Mailers. This signage provided is meant to be a sample only and final signage will be customized upon approval to align with Washington rules and existing programs.

Upon installation of the Kiosk, Authorized Collectors are provided enough supplies for 3 returns. Supplies include:

- Pre-addressed, pre-paid, serialized Container
- Serialized Inner Liners to protect against puncture and provide a liquid barrier
- Easy-to-use zip ties to compliantly seal Inner Liner
- Absorbent pad for placement in the bottom of the Inner Liner.

D. Returns Process

Inmar offers the opportunity for Authorized Collectors to choose which returns process works best for them. In each case, Inmar establishes a service and transportation schedule with each Collection Site. The schedule will depend on which Collection Method is being used and may be adjusted with the agreement of the Authorized Collector based on Kiosk usage. As required by RCW 69.48.060(2)(c), prompt collection is always provided, as well as additional or urgent service if needed. Authorized Collectors may elect to change their chosen Collection Method at any time and Inmar will ensure completion of such a change within 30 days of written request by the Collection Site, unless more time is requested.

Technician Assisted Returns

Inmar will provide employees who are trained specifically in servicing Kiosks in Washington. Pursuant to RCW 69.48.060(2)(c), Inmar provides a service schedule that meets the needs of each Collection

Site to ensure that each Kiosk is serviced as often as necessary to avoid reaching capacity and that collected Covered Drugs are transported to final disposal in a timely manner.

The service will include the following:

- Observation of the condition of the Kiosk upon arrival
- Notification to the Authorized Collector of arrival
- Coordination of 2 Authorized Employees to witness the change out of Kiosk Inner Liner supplies
- Removal, packaging, and documentation of the Inner Liner and Container from the Kiosk
- Replenishment of new supplies for renewed operation
- General clean-up and wipe down of Kiosk
- Notation of Inner Liner serial number removed, and replacement Inner Liner serial number installed along with signatures by 2 Authorized Employees (witnesses)
- Removal of Packaged Container to be placed behind the pharmacy counter to await FedEx pick-up
- Technician calls FedEx to schedule pickup of the Packaged Container unless otherwise agreed upon by Authorized Collector
- Final signature from Authorized Employee of completion of service event.

Self-Service Returns

Inmar will train Authorized Collectors to service the Kiosks on their own to allow for expedited servicing as desired. For the safe on-site removal of contents and servicing of Kiosks, Inmar abides by the DEA regulations in 21 CFR 1300 et al. Pursuant to RCW 69.48.060(2)(c), Inmar provides a service schedule that meets the needs of each Collection Site to ensure that each Kiosk is serviced as often as necessary to avoid reaching capacity. The steps to service a Kiosk are fast, efficient, and DEA-compliant. Inmar will provide Authorized Collectors with training materials* including step-by-step instructions for tracking, sealing, shipping, and replacing Containers. The process for Authorized Collectors, once a Kiosk is installed, is as follows:

- Authorized Collector receives the Liner Kit
- Authorized Employee constructs the Container with Inner Liner, inserts and securely locks the Kiosk
- Authorized Collector team unlocks the Kiosk Drop-door to enable Covered Entity use
- Installation date of Inner Liner is documented and witnessed by the Authorized Employee on a tracking sheet
- Once Kiosk is full, Authorized Employee will open the Kiosk in accordance with 21 CFR § 1317.05(c), 21 CFR § 1317.80(d) and 21 CFR § 1317.35(c)
- Container and Inner Liner are removed and documented on the tracking sheet
- Container is packaged (Inner Liner is zip-tied, outer box is taped) to be compliant with all DOT Hazardous Materials Regulations
- The sealed Inner Liner will not be opened, x-rayed, analyzed, or otherwise penetrated
- Replacement Container and Inner Liner is constructed, inserted, secured into Kiosk and documented on the tracking sheet
- Authorized Employee contacts FedEx for pickup of Packaged Container for shipping to the Reverse Distributor for ultimate destruction.

Authorized Collectors receive training materials that provide detailed instructions on how to manage a Kiosk, including but not limited to: installation (if applicable), safety and security, recognizing capacity, replacing Inner Liners (if applicable), storage of Packaged Containers and the rules and regulations pertaining to these items and the operation of a Kiosk in general. Sample training material is provided in Appendix G but does not represent final state-specific material. Training materials will be customized upon approval to include, but not limited to, the following changes:

- Removal of LifeInCheck branding
- Inmar's purchasing and installing Kiosks as the default option
- References to Washington and Federal law where applicable
- Clarification of where Authorized Collectors are to ship Packaged Containers
- Inclusion of requirements for every type of potential Authorized Collector and Collection Site
- Single Program Website and Program Toll-free Phone Number that has been coordinated and agreed upon with other approved Program Operators
- Removal of references to other Inmar programs/offers and placing of client logos on Kiosk
- Updating Inner Liner storage requirements to reflect 21 CFR 1317.60(b)
- Removal of content pertaining to weight limits.

The Authorized Collector will be responsible for packaging the Container and Inner Liner for shipment and contacting FedEx for pickup. FedEx will respond within 48 hours of request by phone. Authorized Collectors utilizing the FedEx shipping portal are able to request in the "Notes" field a specific pick-up time. Inmar will also reach out to its contacts at FedEx to ensure that local contacts are aware of Collection Sites and their needs related to quick turnaround. At no point will the Authorized Collector have to store the Packaged Container for longer than 48 hours after calling FedEx. During this time, Authorized Collectors will be required to store the Packaged Container in accordance with all applicable laws including 21 CFR § 1317.05(c), 21 CFR § 1317.35(c), and 21 CFR § 1317.80(d).

Service Standards

As required by RCW 69.48.060(2)(c), Inmar has established several processes for Authorized Collectors to seek assistance for service issues including a process for additional prompt Kiosk supplies replenishment upon notification from the Collection Site. Aside from visual inspection when locking and unlocking the Kiosk for use during business hours, Authorized Collectors are provided with the following resources should they experience issues with the Kiosk:

- Email the take-back@inmar.com inbox, which is monitored by a team of full-time workers, and the issues can be quickly triaged and handled. This inbox is the quickest and most effective way for us to respond to any issues with Kiosks.
- Authorized Collectors can also call 1-800-350-0396, option 5 for urgent issues.

The above resources can also be used to request additional supplies when a Kiosk becomes full prior to a scheduled service date as required by RCW 69.48.060(2)(c).

Inmar's Operations team has direct relationships with personnel at FedEx corporate offices. Should an issue arise with the standard 48-hour service level agreement, these contacts will be leveraged daily for mitigation of further issues as well as any needed general support. Detailed FedEx contact information can be found in Section II.I below.

All Packaged Container FedEx shipment tracking numbers will be periodically monitored from Collection Sites to the designated Reverse Distributor as designated in Section II.I below. Typically, any Packaged Container that is shipped has a 3-5 day ground shipment timeframe from the moment it is scanned by a FedEx driver to the delivery point. Should a Packaged Container not arrive at our Reverse Distributor within an acceptable timeframe (seven days), Inmar will do the following:

- Reach out to Authorized Collector to determine when Packaged Container was picked up
- Track via tracking ID portal at FedEx.com
- Contact regional representative for FedEx to investigate the root cause of delay
- Investigate the location of Packaged Container and identify updated arrival date at Reverse Distributor site.

In accordance with RCW 69.48.080(4), Inmar will notify the Department as soon as practicable after encountering any safety or security problems during collection, transportation, or disposal of Covered Drugs.

E. Kiosk Maintenance and Cleaning

Inmar provides cleaning services and maintenance at least once per quarter or as requested. Collection Sites are able to email a monitored email inbox that is operated by a team who triage Authorized Collector requests. Should a Kiosk require maintenance or cleaning outside of the quarterly service schedule, service is provided within 48-72 hours of the initial request.

- Requests can be made by emailing the team at take-back@inmar.com inbox, which is monitored by a team and issues can be quickly triaged and handled. This inbox is the quickest and most effective way for Inmar to respond to any issues with Kiosks.
- Authorized Collectors can also call 1-800-350-0396, option 5 for urgent issues.

F. Auto-replenishment of Kiosk Supplies

The supplies used to collect and transport Covered Drugs are provided in automatically-replenished Liner Kits of three Containers. Each Liner Kit includes pre-labeled and pre-paid cardboard box Containers, liquid barriers, and Inner Liners. The Liner Kits, when packaged with the interior components, are approximately 6 inches thick. The Container is cinched tightly around the inner components, which makes for a very easy-to-store kit. Liner Kits are then stored in accordance with 21 CFR § 1317.60(b), 21 CFR § 1317.05(c), 21 CFR § 1317.35(c), and 21 CFR § 1317.80(d).

Upon receipt of the Packaged Container at the Reverse Distributor, an electronic raw data file via SSH File Transfer Protocol (SFTP) with the weight, serialized barcoded label information, and tracking information is passed to Inmar. This information is then received and entered into an Order Management log and Inbound Receipts log. The system tracks when the second of the three Containers is received at the Reverse Distributor. Inmar then initiates a reorder trigger for the next Liner Kit to be shipped. The delivery of the Liner Kits occurs according to the following schedule:

- After the second full Container is received, the new Liner Kit would be received by the Collection Site within 14 days. This timeline allows Inmar to complete the processes described above where the SFTP file is logged and a reorder trigger is initiated.

- Collection Sites can contact Inmar at any time through the Program Website or Program Toll-free Phone Number to request additional Liner Kits. Inmar responds to such requests within 2 business days of receipt of the request. If a Collection Site contacts Inmar requesting an additional Liner Kit for any reason outside the normal process described above, the Liner Kit would be received by the Collection Site within 7 days. Turnaround of requests for additional Liner Kits outside the auto-replenishment process are quicker because there is no SFTP file, logging, etc.

It should be noted that only after the second Container is received from a Collection Site will a new Liner Kit be sent. Auto replenishment reduces the amount of inventory maintained at the Collection Site while maintaining sufficient supplies to keep the Kiosk continuously operable.

The below resources can be used to request additional Kiosk supplies prior to a scheduled auto-replenishment service date as required by RCW 69.48.060(2)(c):

- Email the take-back@inmar.com inbox, which is monitored by a team of full-time workers, and the issues can be quickly triaged and handled. This inbox is the quickest and most effective way for Inmar to respond to any issues with Kiosks.
- Authorized Collectors can also call the Program Toll-free Phone Number.

G. Mail-back Services

Upon Request Service

In accordance with RCW 69.48.060(3)(e), Inmar will provide Mailers free of charge to all Covered Entities. Three types of Mailers, including Standard Mail-back Envelopes, Inhaler Mail-back Envelopes and Pre-filled Injector Mail-back Packages, will be available for request to all Covered Entities on the approved Program Website and by calling the Program Toll-free Phone Number. Standard Mail-back Envelopes will accept all Covered Drugs, including pills, creams and liquids, and Schedule II-V controlled substances. Inmar provides separate envelopes for inhalers and Mail-back Packages for Pre-filled Injectors (not including emptied injector products). The Mailers provide written instructions for returning Covered Drugs, inhalers or Pre-filled Injectors as required by RCW 69.48.080(1).

Covered Entities are able to request up to three (3) Standard Mail-back Envelopes, three (3) Inhaler Mail-back Envelopes and three (3) Pre-filled Injector Mail-back Packages at a time via the Program Website or Program Toll-free Phone Number. Covered Entities will receive the Envelopes no later than 10 business days from the date of request.

When a Covered Entity calls the Program Toll-free Phone Number, Inmar will take the required information from the Covered Entity over the phone. The required information for shipment will be entered for the Covered Entity and the Mailer, which is free, prepaid and pre-addressed, will be shipped directly to the Covered Entity, which they can then ship to Covanta Environmental Solutions, LLC (Covanta), Inmar's Service Provider, free of charge. More information on Covanta is provided in Section II.I below.

Mail-back Distribution Locations Service

In accordance with RCW 69.48.060(3)(e), Inmar will provide a Mail-back Program for the distribution of pre-paid, pre-addressed mailing envelopes for the Drug Take-back Program. Inmar will establish Mail-back Distribution Locations in consultation with the Department, local law enforcement, the local health jurisdiction, and the local community in addition to the required Collection Sites and where the minimum number of Collection Sites cannot be met. Mail-back Distribution Locations may include, but are not limited to, town halls, libraries, health/medical offices and retail locations. However, in accordance with SSB 1161, Sec 3(2)(d), Inmar will ensure that physical Collection Sites are the primary method of collection across the state and that methods of supplementing Collection Site service are secondary and do not exceed serving 15% of the state's residents.

Inmar has reached out to officials at local health jurisdictions, law enforcement agencies, city governments, and other community leaders in Population Centers that are underserved by Collection Sites to request consultation about the number and location of Mail-back Distribution Locations or the frequency of Collection Events. This initial outreach was conducted via an email campaign requesting the recipients to participate in a survey which allows them to provide written feedback to us. This activity is ongoing and Inmar will continue to seek out and engage in consultations until a Collection Site, Mail-back Distribution Location or Collection Events are established in all Population Centers that are underserved. Ongoing for the life of the Program, community members are directed on how to provide written and oral feedback through the "Contact Us" page of the website. The website will state: "If you have questions, interest or feedback on the Program, email us at take-back@inmar.com or call 844-4WA-CDTB (844-492-2382)." This email is monitored by Inmar's operational support team and all calls are handled by live representatives. Inmar will provide details to the Department regarding the effectiveness of these efforts during meetings or as requested.

Inmar obtains signed order forms where Mail-back Distribution Locations will be established. Each Location will agree to maintain compliance with the Drug Take-back Laws and will remain in compliance to that end. Each Mail-back Distribution Location is required to provide access to Covered Entities during normal business hours, display signage and instructions regarding proper use of all Envelopes and Packages and comply with all applicable state and federal laws. Pursuant to RCW 69.48.070(1)(e), Inmar will provide to each Mail-back Distribution Location educational information to provide to Covered Entities regarding the safe disposal of Covered Drugs.

Once a location has been accepted as a Mail-back Distribution Location, Inmar will send a Mail-back Starter Kit. Standard Mail-back Envelopes will accept all Covered Drugs, including pills, creams and liquids, and Schedule II-V controlled substances. The Starter Kit will include 20 Standard Mail-back Envelopes, 5 Inhaler Mail-back Envelopes and 3 Pre-filled Injector Mail-back Packages. The Starter Kit is a countertop display that comes pre-assembled. The front of the box displays information about what can and cannot be included in the Mailers and how the Covered Entity may request more Mailers via the Program Website or Program Toll-free Phone Number. There is currently no limit on the number of Mailers that a Covered Entity may take from a Mail-back Distribution Location. The Mailers provide written instructions for returning Covered Drugs.

Inmar will track the unique identifier for all Mailers sent to each Location for fulfillment and logistical purposes. Inmar will add a visual reorder trigger in the box of Standard Mail-back Envelopes. Once

the Location gets to the reorder trigger in the box, the visual reorder trigger will instruct the Location to email Inmar for another kit. This service model ensures that there is no 'down time' at the Location for Standard Mail-back Envelopes. If a Location begins to use a larger number of Standard Mail-back Envelopes, the number of fulfilled Standard Mail-back Envelopes sent to that Location will be increased. As needed, Inmar will assess the need to increase the quantity of Envelopes sent to each Mail-back Distribution Location. This will be monitored by the request frequency data per Location and will be assessed on an as needed and per Location basis. Each Location will be reassessed yearly or as needed should the frequency of fulfillment from one particular Location increase dramatically. Additionally, Mail-back Distribution Locations may order Mailers, outside of the standard 20 units, in units of 50 up to 250 at a time.

Inmar is committed to providing all Authorized Collectors an option to supply Covered Entities with information regarding mail-back options. Inmar will provide both Mail-back Distribution Locations and Authorized Collectors with promotional brochures in accordance with RCW 69.48.070(1)(e-f).

Additional Services

As required by RCW 69.48.060(3)(e), Inmar will provide, free of charge, Mailers to any entity, including Retail Pharmacies, that request them with the understanding that providing Mailers does not necessarily make the entity a Mail-back Distribution Location. Covered Entities are provided up to three Mailers per request. Other entities, including Retail Pharmacies can request Mailers in units of 50 up to 250 at a time. These requests for Mailers are handled in the same way as regular Mail-back Distribution Locations requests through the Program Website or the Program Toll-free Phone Number.

Description of Mailers

A description of Mailers used for both requested and Mail-back Distribution Locations Mail-back services is provided below.

The Standard Mail-back Envelopes and Inhaler Mail-back Envelopes will meet DEA Rule requirements under § 1317.70(c)(2), specifically:

- Pre-addressed, postage paid
- Nondescript and does not indicate what may be inside
- Waterproof, spill proof, tamper-evident, tear-resistant, and sealable; the envelopes also contain an absorbent pad
- Contain a unique ID number that allows for tracking
- Include instructions for the user that indicate the process for mailing the package, substances that can be sent, notice that packages can only be mailed in the US customs territory and notice that only packages provided by the Authorized Collector will be accepted
- No Personally Identifiable Information will be required.

Both Envelopes are white in color with a gray interior and are 7" x 10". The Envelopes include a 3" perforated lip security seal. They are distributed by the Reverse Distributor Covanta.

A sample Standard Mail-back Envelope is shown below:

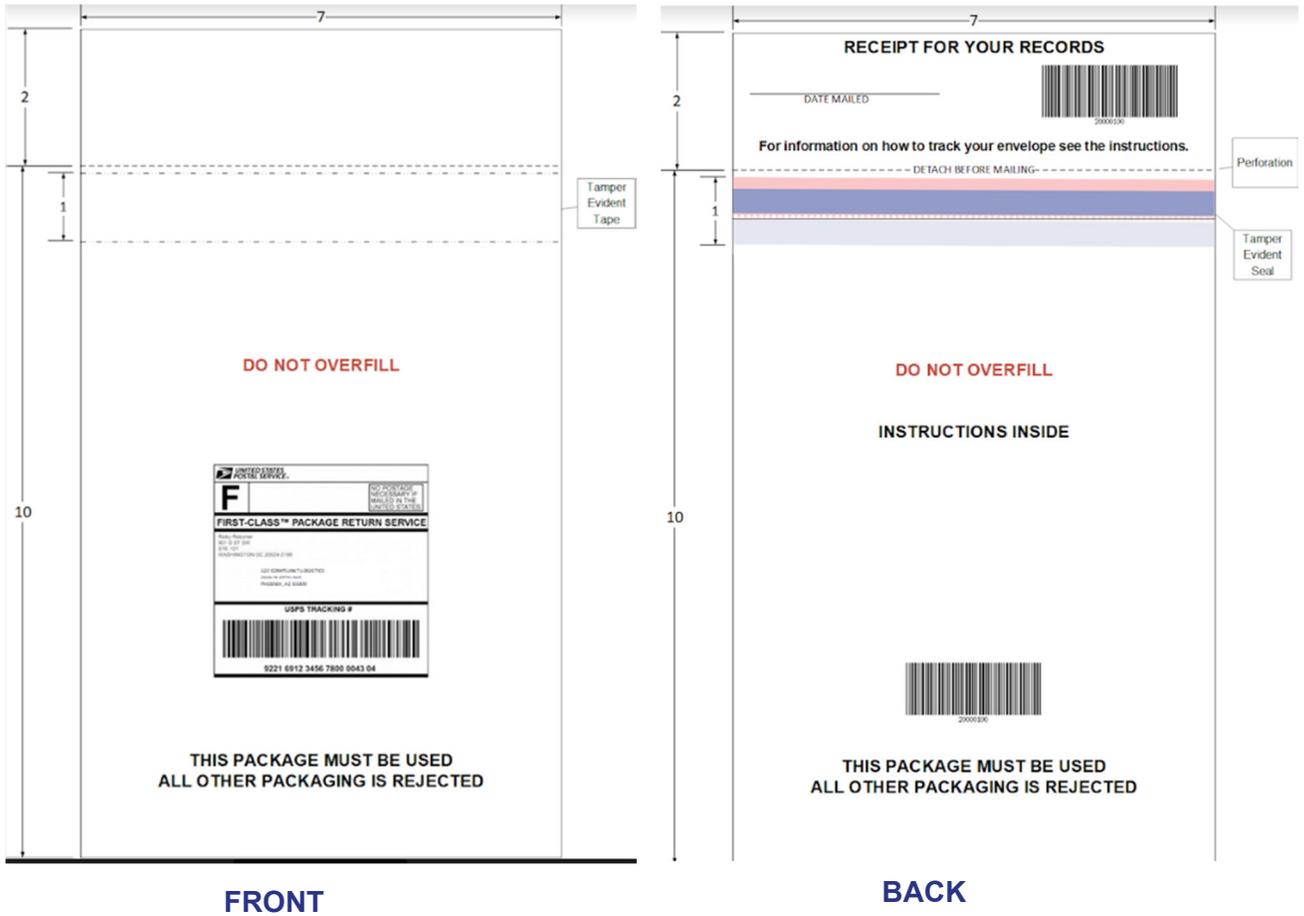

Figure 2: Sample Standard Mail-back Envelope

Sample Inhaler Mail-back Envelope

Covered Entities will be able to request three (3) Inhaler Mail-back Envelopes at a time via the Program Website or Program Toll-free Phone Number. Covered Entities will receive the Inhaler Mail-back Envelopes no later than 10 business days from date of request.

A sample Inhaler Mail-back Envelope is shown below:

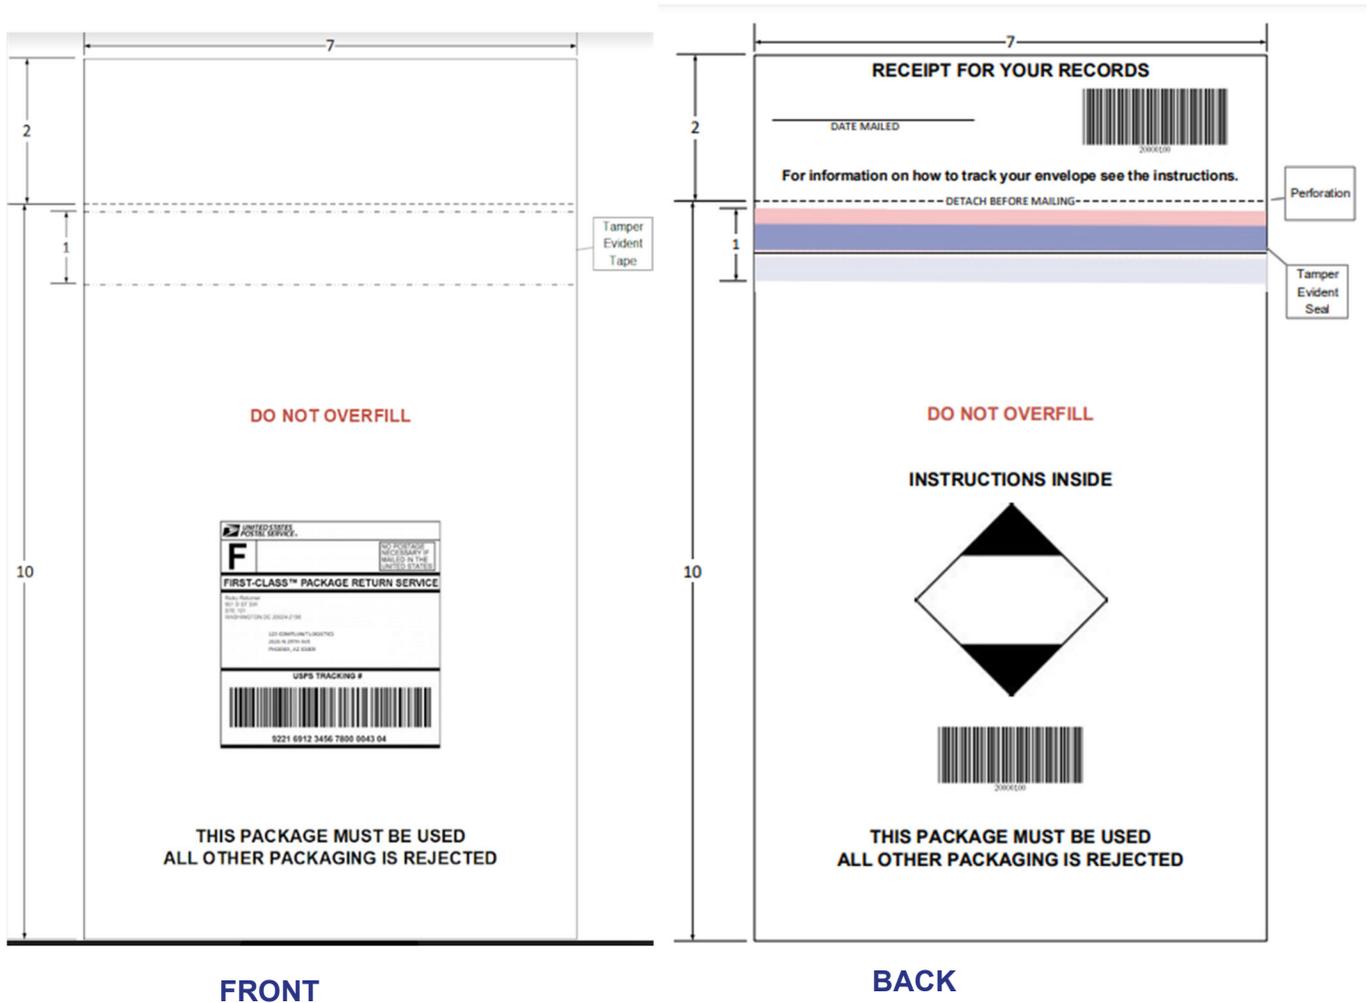

Figure 3: Sample Inhaler Mail-back Envelope

Sample Pre-filled Injector Mail-back Package

Covered Entities will also be able to request three (3) Pre-filled Injector Mail-back Packages at a time via the Program Website or Program Toll-free Phone Number. Covered Entities will receive the Pre-filled Injector Mail-back Packages no later than 10 business days from date of request. Pre-filled Injector Mail-back Packages will meet all DOT requirements and will be fulfilled by Covanta. See below for specifications and sample.

Specifications	
Access	Petals
Dimensions (in.)	7.5 x 3.6 x 3.6 in.
Color	Red
Lid Type	Hinge Cap
Liquid Absorbing Pad	Product has liquid absorbing pad
Universal Biohaz Sym	Product has universal biohaz symbol
Volume (L)	1.4 qt

Figure 4: Sample Pre-filled Injector Mail-back Package

Mail-back Service Instructions

Mail-back instructions to Covered Entities for all types of Mailers are provided in Appendix F.

Mailer Tracking

All Mailers, whether they are distributed from a Mail-back Distribution Location or from the Program Website and Program Toll-free Phone Number, are shipped back to Covanta for destruction and will have a unique, serialized identification number. Mailers distributed directly to Covered Entities via the Program Website or Program Toll-free Phone Number requests will be tracked by Inmar when sent to Covered Entities and tracked through receipt at Covanta to final

destruction at the destruction facility. Please refer to the Service Provider contact list in Section II.I below.

This tracking process will allow Inmar to report the number of Mailers distributed and returned in the Annual Reporting provided to the Department as required. Please see the Section VI below for additional information retained for reporting purposes.

H. Collection Events

In accordance with RCW 69.48.060(3)(d), Inmar will hold periodic Collection Events to supplement service to any area of the state that is underserved by Collection Sites, as determined by the Department, and in consultation with the local health jurisdiction. Inmar, in consultation with the Department, local law enforcement, the local health jurisdiction, and the local community, will determine the frequency and location of these Collection Events, to be held at least twice a year, unless otherwise determined through consultation with the local community. Consultation and feedback are being solicited via a survey campaign to contacts in Population Centers that are underserved by Collection Sites. More information on the survey campaign was provided in Section II.G.

Inmar initiates this consultation via a targeted survey campaign sent to contacts in Population Centers that are underserved by Collection Sites. The survey asks respondents to provide written feedback to aid Inmar in determining optimal timing and locations for the Collection Events. Once a Collection Event is deemed necessary, Inmar will work directly with the local decision maker to plan the Collection Event. These consultations regarding Collection Events will continue until a Collection Site or Mail-back Distribution Location is established in all Population Centers that are underserved, thus rendering the requirement for the Collections Events unnecessary.

Collection Events will be arranged in advance with local Law Enforcement Agencies (LEAs) and will be held in compliance with DEA regulations and protocols and applicable state laws. Inmar's agreement with LEAs requires, but is not limited to, the following:

- Maintaining compliance with all regulations stated above, including the maintenance of any records of removal, storage, or destruction of the controlled substances collected in a manner that is consistent with that agency's recordkeeping requirements for illicit controlled substances evidence as well as diversion of these substances.
- Ensuring at least one LEA personnel is present at each Collection Event
- Maintaining control and custody of the Covered Drugs from the time the substances are collected from the Covered Entity until secure transfer, storage, or destruction of the Covered Drugs has occurred
- Reporting any diversion (theft or unexplained loss), safety and/or security issues.

Below is a description for planning, hosting, staffing, and promoting Collection Events.

Location Planning

Locations of Collection Events will be determined based on the Population Centers that are most in need while taking into consideration their access to Kiosk sites and Mail-back Distribution Locations. Once the area of need is identified and upon approval, Inmar will explore locations where it is feasible to host a Collection Event. Most often this will be at a LEA or a satellite LEA location nearest the target area. However, Inmar has relationships with many other organizations that may be interested in hosting a Collection Event. We may determine these locations to be even more convenient for Covered Entities if they are places that the population is already visiting on a regular basis or can accommodate unique situations such as drive-through collection during peak flu and virus seasons. Additionally, Inmar will consider the willingness or availability for LEAs to provide oversight at the selected location. Inmar will ensure any selected locations meet all applicable laws and regulations.

Event Staffing and Oversight

In compliance with DEA 1317.65(a-b), local LEAs will oversee the Collection Events and Inmar will ensure that at least one LEA personnel is present at each Collection Event. LEAs will be responsible for maintaining any records of removal, storage, or destruction of the Covered Drugs collected in a manner that is consistent with that agency's recordkeeping requirements for illicit controlled substances evidence. In addition, any Covered Drugs collected at Collection Events will be stored and transferred for destruction in a manner that prevents the diversion of these substances.

Inmar will provide adequate staffing and resources to assist LEAs with logistics, coordination and/or other needs during the event. Inmar does not anticipate any disagreement with LEAs regarding staffing and resources. This information is covered in Inmar's contract with LEAs for collection events. However, should this scenario occur, Inmar will work with the LEA to provide whatever support is requested as long as it is in accordance with the DEA rules. Inmar will notify the Department in the unlikely event of any disagreement that may occur with LEAs. It will be Inmar's responsibility to coordinate with the location and LEAs to ensure compliance with all applicable laws and regulations. Inmar will work with the designated LEA to ensure that all material collected is placed in compliant Kiosks and any material that does not meet legal requirements is rejected.

All administrative and operational costs associated with periodic Collection Events, including LEA staff time and costs associated with shipping collected drugs will be paid by Inmar pursuant to RCW 69.48.090(1).

Execution Procedures

As required by DEA 1317.65, Law Enforcement Officers employed and authorized by the LEA will maintain control and custody of the Covered Drugs from the time the substances are collected from the Covered Entity until secure transfer, storage, or destruction of the Covered Drugs has occurred.

Inmar will ensure that only Covered Entities and persons entitled to dispose of a Covered Entity's decedent property in lawful possession of a controlled substance in Schedule II-V may transfer these substances to law enforcement during the Collection Event. No other person will handle the controlled substances at any time.

At the conclusion of Collection Events, Inmar will work with LEAs to ensure that the collected materials are properly weighed, packaged, and shipped to Inmar's designated destruction partner (see Section II.I below) in compliance with all applicable laws and in coordination with local solid waste management officials. As is standard practice for Kiosk returns under this Plan, Containers will be tracked via their unique identifiers from shipment location to the designated destruction facility.

Inmar will ensure LEAs keep a record of the following information after the transfer of controlled substances as a result of any Collection Events:

- Unique identification number of the sealed Inner Liner transferred
- Size of the sealed Inner Liner transferred (e.g., 35-gallon)
- Name, address, and registration number of the Reverse Distributor to whom the controlled substances were transferred.

Collection Event Promotion

Inmar will work with the local LEA or other designated location on any advertisement, promotion, set-up and tear down of the Event and community engagement in person. Inmar will provide all promotion materials for the Collection Event, including local advertising, social media, and press releases to local news outlets. All materials and advertising, including signage at the Collection Event, will be targeted only to Covered Entities and include information on what Covered Drugs are accepted. Collection Events will be advertised on the agreed upon single Program Website and information about Collection Events can be obtained by calling the Program Toll-free Phone Number.

I. Disposal of Covered Drugs

Kiosk Liners

As described in Section II.D, Inmar staff will conduct all technician-assisted returns from Kiosks. Authorized Collectors may also choose to manage the returns process on their own. In both of these return options, Packaged Containers are properly sealed, securely stored, and pick-up is arranged from the Collection Site in a manner consistent with the DEA Rule. The Packaged Container will include a pre-addressed and pre-paid shipping label. In accordance with RCW 69.48.080, the FedEx representative will take possession of the Packaged Container and deliver it to 123 Compliant Logistics, LLC in Phoenix, AZ for witnessed transportation to witnessed incineration.

123 Compliant Logistics, LLC operates in full compliance with DEA § 1317.75(c), which prohibits handling substances after they have been deposited into a Kiosk.

All Packaged Containers shipped directly to 123 Compliant Logistics, LLC in Phoenix, AZ will be transported using their contracted, licensed hazardous waste transporter, TransChem Environmental to the appropriate disposal facility to be incinerated quickly, securely, efficiently, and in accordance with all DEA requirements. 123 Compliant Logistics, LLC will be responsible for all DEA Form 41 recordkeeping requirements.

Mail-Back Envelopes and Packages

All Mailers will be received at Covanta in Indianapolis, IN and will be incinerated on-site.

Compliance with Laws

123 Compliant Logistics, LLC, TransChem Environmental, Covanta and FedEx will comply with all local, state, and federal laws and regulations surrounding the transportation and disposal of Covered Drugs.

Service Providers

The following is a list of Service Providers who will be providing transportation and disposal to fulfill the requirements of this Plan.

Company Name	Contact Information	Registration Information	Service Provided
123 Compliant Logistics, LLC 2626 N 29th Avenue Phoenix, AZ 85009	Rory Buske 602-612-4140	DEA Reverse Distributor-Collector: R90571264	Reverse Distributor - Packaged Containers from Authorized Collectors using either returns process option
Indianapolis Resource Recovery Facility in Indiana, operating as Covanta Indianapolis, Inc. 2329 S. Harding Street Indianapolis, IN 46221	Alex Davila 317-478-0670	DEA Reverse Distributor-Collector RC0620496 EPA ID No: IND984882365	Reverse Distributor & Municipal Waste Combustor – All Covered Drugs(Mail-back Packages & Packaged Containers from Authorized Collectors)
Clean Harbors Aragonite 11600 N Aptus Road Aragonite, UT 94029	Michael Marlow 435-884-8100	EPA ID: UTD981552177	Hazardous Waste Incinerator-All Covered Drugs
Clean Harbors El Dorado, LLC 309 American Circle El Dorado, AR 71730	Dan Roblee 870-863-7173	EPA ID: ARD069748192	Hazardous Waste Incinerator-All Covered Drugs
Veolia ES Technical Solutions, LLC 7665 Highway 73 Port Arthur, TX 77640	David Michaelis 281-216-9618	EPA ID: TXD000838896	Hazardous Waste Incinerator-All Covered Drugs
TransChem Environmental 542 East 27 th Street Tucson, AZ 85713	Don Huey 602-513-6528	DOT Registration: 052119550060B Hazardous Materials Safety Permit: US-1341480-AZ-HMSP	Hazardous Waste Transporter – All Covered Drugs
FedEx	Eric Stillson 800-469-9993		Common Carrier – Packaged Containers
USPS	Jackie Purcell 919-501-9394		Common Carrier – All Mailers and Containers

Containers and Inner Liners will have a serialized identification number to enable tracking at all stages of the return process illustrated below.

Figure 5: Returns Process Tracking

Tracking is well-documented as evidenced by the serialization tracking forms referenced below. This form must be completed and witnessed by two Authorized Employees, which assures compliance and safety across the Program, and internally by both the Program Operator and the Authorized Collector.

DRUG DISPOSAL SERIALIZATION TRACKING SHEET INNER LINER TRACKING FORM

Serialization Tracking Sheet should be validated by 2 authorized individuals - See (21 CFR §1317.80, 21 CFR §1317.35, 21 CFR §1317.75)

Name of Collection Site		Address of Collection Site				Collection Site DEA #(if applicable):			
Size of Liner		Address of Reverse Distributor/Disposal Site				Reverse Distributor/Disposal Site DEA #			
1 SERIAL NUMBER (unique)	2 Date Liner Acquired (1 Signature)	3 Date Liner Installed (2 Names & Signatures)		4 Date Removed (2 Names & Signatures)		5 Date Transferred to Storage (2 Names & Signatures)		6 Date Shipped (2 Names & Signatures)	
Ex: 32587	4/26/19	4/26/19		5/26/19		5/26/19		5/27/19	
	John Jones	John Jones	John Jones	John Jones	John Jones	John Jones	John Jones	John Jones	John Jones
	Sally Smith	Sally Smith	Sally Smith	Sally Smith	Sally Smith	Sally Smith	Sally Smith	Sally Smith	Sally Smith

Figure 6: Inmar Serialization Tracking Form

The purpose of this form is to document the use of the serialized Inner Liner throughout the collection process and to help the Authorized Collector meet DEA and Board of Pharmacy recordkeeping requirements. Inmar will require each Authorized Collector to understand and comply with all federal, state, and local regulatory requirements pertaining to Covered Drugs applicable at the Collection Site,

including but not limited to applicable rules from the Washington State Pharmacy Quality Assurance Commission. Inmar requires signed contracts stating the requirements with which Authorized Collectors must comply and giving Inmar the right to audit for compliance at any time. More information about the specific policies and procedures included in Inmar's contracts with Authorized Collectors are described below in Section III.A

The serial numbers, date acquired, and signature of Authorized Employee must be completed upon receipt of the Container and Inner Liner. As illustrated above, the date installed is to be completed by two Authorized Employees with their names and signatures. The date the Container and Inner Liner are removed from the Kiosks is also to be noted with names and signatures. Finally, the date the Packaged Container and Inner Liner are shipped is noted with authorized names and signatures.

Authorized Collectors must maintain a copy of the completed form, a copy of the FedEx tracking information, and other records as applicable, on file at the Authorized Collector's registered location for at least two years pursuant to 21 CFR 1304.04.

Authorized Collectors are provided detailed instructions on how to manage a Kiosk, including but not limited to: installation (if applicable), safety and security, recognizing capacity, replacing Inner Liners (if applicable), storage of Packaged Containers and the rules and regulations pertaining to these items and the operation of a Kiosk in general. Sample training material is provided in Appendix G but does not represent final state-specific material. Training materials will be customized upon approval to include, but not limited to, the following changes:

- Removal of LifeInCheck branding
- Inmar's purchasing and installing Kiosks as the default option
- References to Washington and Federal law where applicable
- Clarification of where Authorized Collectors are to ship Packaged Containers
- Inclusion of requirements for every type of potential Authorized Collector and Collection Site
- Single Program Website and Program Toll-free Phone Number that has been coordinated and agreed upon with other approved Program Operators
- Removal of references to other Inmar programs/offers and placing of client logos on Kiosk
- Updating Inner Liner storage requirements to reflect 21 CFR 1317.60(b)
- Removal of content pertaining to weight limits.

Recycling and Separation of Covered Drugs from Packaging

DEA §1317.75(c) prohibits handling substances after they have been deposited into a Kiosk. For this reason, Inmar is unable to separate and recycle drug packaging. However, Inmar will execute educational programs, as outlined in Section IV, to encourage Covered Entities to separate Covered Drugs from their packaging and recycle the packaging prior to disposal.

Even though regulations prevent us from recycling drug packaging, Inmar still has a vested interest in reducing waste and improving our environment. We will continue to look for opportunities to expand our eco-friendly efforts in the state.

III. Compliance with Applicable Laws

Required by RCW 69.48.060(2)(d), Inmar will comply with applicable provisions of chapters 70A.205 and 70A.300 RCW, including rules adopted pursuant to those chapters that establish collection and transportation standards, and federal laws and regulations governing the handling of Covered Drugs, including DEA regulations. Additionally, Inmar will ensure that Service Providers and Authorized Collectors also comply with the aforementioned applicable laws and regulations as detailed below:

Federal

1. DEA, The Controlled Substance Act (CSA) - 21 USC Chapter 13 §§ 801 - 971
 - Responsible Parties - Authorized Collectors, Collection Sites, and Service Providers
2. DEA, 21 CFR Section 1317
 - Responsible Parties - Authorized Collectors, Collection Sites, and Service Providers
3. US Department of Transportation (DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA) - 49 CFR Subtitle B Chapter 1 §§ 100 - 185
 - Responsible Parties - Authorized Collectors, Collection Sites, and Service Providers

State

1. State of Washington Drug Take-back Program - RCW Chapter 69.48 Sections 69.48.010 through 69.48.200 and the WAC Sections 246.480.010 through 246.480.990
 - Responsible Parties - Inmar Rx Solutions on behalf of the Covered Manufacturers we represent
2. Washington State Pharmacy Quality Assurance Commission - WAC Chapter 246.480.010 through 246.480.990
 - Responsible Parties - Authorized Collectors, and Collection Sites
3. State of Washington Department of Ecology Hazardous Waste & Toxics Reduction Program - Chapter 70A.300 RCW and WAC 173-303
 - Responsible Parties - Inmar Rx Solutions on behalf of the Covered Manufacturers we represent, Authorized Collectors, Collection Sites and Service Providers
4. State of Washington Department of Ecology Solid Waste Management Program - RCW Chapter 70A.205 and WAC 173-350
 - Responsible Parties - Inmar Rx Solutions on behalf of the Covered Manufacturers we represent, Authorized Collectors, Collection Sites and Service Providers

A. Policies and Procedures

In accordance with RCW 69.48.050(2)(f), Inmar has established policies and procedures to be followed by persons handling Covered Drugs collected under the Program to ensure safety, security, and compliance with regulations adopted by the DEA, the Drug Take-back Laws, as well as 70A.205 and 70A.300 RCW, including rules adopted pursuant to those chapters that establish collection and transportation standards.

Inmar requires that Authorized Collectors, Collection Sites, Mail-back Distribution Locations and Service Providers involved in collection services, transportation, or disposal comply with The Drug Take-back Program Laws, The Controlled Substances Act, 21 USC §§ 801-971 and 21 CFR § 1317;

United States Department of Transportation Hazardous Materials Regulation, 49 CFR § 100-185; Board of Pharmacy, and all applicable state and federal laws.

Inmar requires a signed agreement with Authorized Collectors and Service Providers ensuring their commitment to compliant operation of the Kiosk and shipping of contents in compliance with the DEA regulations. A refusal to sign the agreement or comply with the DEA regulations would be a reason why an Authorized Collector could be excluded from the Program.

Inmar's agreement with Authorized Collectors generally includes:

- Service Overview
- Term
- Client obligations
 - Compliance with all applicable federal, state and local regulatory requirements, including but not limited to, DEA, DOT, and Environmental Protection Agency (EPA) regulations
 - Maintaining all applicable governmental permits and licenses
 - Inmar has the right to inspect site and records upon request to ensure compliance
 - Provide Covered Entities access to the Kiosk during business hours, unless it is locked due to any safety, security, maintenance or any other reason
 - Inmar must be promptly notified of any unserviced Kiosk or safety or security concerns.
 - Safety and security procedures
 - Training and qualified personnel
 - Description of supplies provided and replenishment
 - Shipping and Tracking
- Cancellation procedures
- Confidentiality
- Limitations
- Indemnification
- Signatures.

Inmar's agreement with Service Providers who handle Covered Drugs generally includes:

- Scope of work
- Delivery schedule
- Delivery procedures
- Delivery vehicles and identification
- Term
- Fees
- Descriptions of acceptable and unacceptable waste
- Quality assurance/quality control
- Billing and payments
- Insurance
- Compliance with government regulations
- suspension and termination of service
- Right to audit.

Obligations of Mail-back Distribution Locations under agreement with Inmar include, but are not limited to:

- Maintain compliance with all regulations stated above including required documentation
- Provide access to Covered Entities during normal business hours
- Display signage and instructions regarding proper use of all Envelopes and Packages
- Provide to Covered Entities information regarding safe disposal of Covered Drugs
- Do not charge Covered Entities for the Envelopes or Packages
- Display the Mail-back Starter Kit for easy access for Covered Entities
- Promptly reorder supplies as necessary
- Notify Inmar immediately of any service issue or desire to no longer serve as a Mail-back Distribution Location
- Inmar must be promptly notified of any safety or security concerns.
- Do not limit Covered Entities on the amount of Envelopes or Packages they take
- Never to accept Envelopes or Packages from Covered Entities for any reason
- Do not collect any Covered Entity personal information
- Do not modify any part of the Mail-back Starter Kit
- Inmar has the right to inspect site and records upon request to ensure compliance.

Collection Event agreements require law enforcement to:

- Maintain compliance with all regulations stated above, including the maintenance of any records of removal, storage, or destruction of the controlled substances collected in a manner that is consistent with that agency's recordkeeping requirements for illicit controlled substances evidence as well as diversion of these substances
- Ensure at least one LEA personnel is present at each Collection Event
- Maintain control and custody of the Covered Drugs from the time the substances are collected from the Covered Entity until secure transfer, storage, or destruction of the Covered Drugs has occurred
- Report any diversion (theft or unexplained loss), safety and/or security issues.

B. Patient Privacy

Inmar provides significant training to our participating Authorized Collectors and strictly follows the DEA Rule for the proper handling of the Kiosks and Inner Liners. This begins with the training of the Authorized Collector in the compliant operation of the Kiosk and proper preparation, removal and packaging of the Container. It also involves the training of staff that may come into contact with the Packaged Containers to ensure proper handling. Inmar strictly complies with state and federal statutes and regulations, including but not limited to the DEA regulations cited below.

Inner Liners are opaque and contents will not be visible when sealed. According to the DEA - As provided in §§ 1317.60(c) and 1317.70(f), Inner Liners shall be sealed immediately upon removal from the Kiosk; sealed Inner Liners and Standard Mail-back Envelopes shall not be opened, x-rayed, analyzed, or otherwise penetrated. Accordingly, their contents shall not be sorted or inventoried subsequent to being placed into Kiosks or Mailers. To clarify this, § 1317.75(c) was modified to add the prohibition against individually handling substances after they have been deposited into Kiosks.

Inmar, contracted Service Providers and Authorized Collectors will comply with all regulations regarding the protection of patient privacy and will be HIPAA and Protected Healthcare Information (PHI) compliant. Any and all patient information on drug packaging will be promptly destroyed in the unlikely event of exposure.

Inmar will also execute educational programs, as outlined in Section IV, to educate Covered Entities on the importance of redacting individually identifiable information and safeguarding their private patient information prior to depositing Covered Drugs in Kiosks or Mailers.

IV. Promotion

Inmar will execute a comprehensive and measurable promotion, education and public outreach strategy to drive awareness of the Program and maximize participation pursuant to RCW 69.48.070. In addition to preventative education, Inmar's strategy is designed to ensure that where and how to return Covered Drugs is widely understood by Covered Entities, pharmacists, Retail Pharmacies, health care facilities and providers, veterinarians and veterinary hospitals.

Pursuant to RCW 69.48.070(1)(a-e) the individual components of Inmar's promotion strategy are detailed below. Across all tactics, key messages will include, but not be limited to, the following:

- Promote the safe storage of legend drugs and non-legend drugs by residents before secure disposal through a Drug Take-back Program
- Discourage residents from disposing of Covered Drugs in solid waste collection, sewer, or septic systems
- Promote the use of the Drug Take-back Program so that where and how to return Covered Drugs is widely understood by residents, pharmacists, Retail Pharmacies, health care facilities and providers, veterinarians, and veterinary hospitals
- Establish a Program Toll-free Phone Number and Program Website publicizing collection options and Collection Sites and discouraging improper disposal practices for Covered Drugs, such as flushing them or placing them in the garbage
- Discourage the disposal of Covered Drugs in solid waste collection, sewer, or septic systems; and describe how to return Covered Drugs to the Drug Take-back Program
- Importance of redacting individually identifiable information and safeguarding private patient information prior to depositing Covered Drugs in Kiosks or Mailers.

Inmar will coordinate to ensure that Covered Entities clearly understand the logistics, safety, and educational components of the Program. Inmar will coordinate educational outreach with other Program Operators so that all state residents can easily identify, understand, and access the collection services provided by any Drug Take-back Program. This coordination will include the fair and equitable division of resources.

A. Tools for Promotion

Printed Materials

In accordance with RCW 69.48.070(1)(e-f), Inmar will make available on the Program Website and distribute promotional printed materials to Retail Pharmacies, health care facilities, and other interested parties so that they can provide these materials to Covered Entities. Distribution methods include providing material at the time of Kiosk installation, with the Mail-back Starter Kit or by request on the Program Website or by calling the Program Toll-free Phone Number. To further expand outreach, Inmar will send an introduction letter via email or through the mail to Retail Pharmacies, health care facilities, and veterinary hospitals. This letter will introduce Inmar to the Retail Pharmacies, health care facilities, and veterinary hospitals of Washington on how they can request more such materials. Inmar will work with organizations such as WSPQAC, Washington State Department of Health, and/or WSVMA to secure mailing information.

The media communication methods of promotion described in this section will encourage any interested party, including but not limited to, Retail Pharmacies, healthcare facilities and veterinary clinics, to request these materials via the Program Website or Program Toll-free Phone Number. The process for requesting materials is the same for all entities whether or not they are considered Authorized Collectors.

These materials will:

- Provide instruction on how to safely store Covered Drugs at home
- Inform of the risks of disposing of Covered Drugs in inappropriate waste streams (e.g., solid waste collection, sewer, or septic systems) and discourage improper disposal such as flushing or placing them in the garbage
- Outline how to participate in the Drug Take-back Program for safe disposal of Covered Drugs
- Inform Covered Entities about Collection Site locations, hours of operation, and Mail-back Services.

All materials will leverage explanatory graphics to aid in comprehension, will be easily understandable by interested parties with varying levels of English proficiency, and can be translated into other languages at the Department's request.

Inmar will provide a creative advertising template for print publications. To drive public relation impression, Inmar will develop press release templates and perform outreach to local media.

Kiosk Signage

Inmar will work with Authorized Collectors at the time of agreement negotiation to develop a readily recognizable and consistent design for Kiosks to be used at Collection Sites and to develop clear, standardized instructions to Covered Entities on how to use those Kiosks. Each Kiosk is equipped with clear graphical instructions for proper use in the form of magnets and stickers that are placed on the Kiosk at the time of implementation. Please see Appendix F for a sample image of the Kiosk and disposal instructions.

Inmar will also work with other Program Operators to coordinate on signage and the standardized instructions listed on those Kiosks. Inmar will align with other Program Operators on signage and messaging to create consistent information.

Outreach Demographics

Inmar has a system in place that allows us to efficiently deploy local media using traditional tactics for general awareness and programmatic media to sustain a presence throughout the year. Below are details that have been gathered to inform the outreach process. Inmar will reach all demographics including the elderly and underserved.

The below population data was gathered from the U.S. Census Bureau (<https://www.census.gov/quickfacts/fact/table/WA/POP010220>).

Washington

- Population 7,705,281
 - Ages 0-17 21.8%
 - Ages 18-64 62.3%
 - Ages over 65 15.9%

- Households 2,848,396
 - White alone 67.5%
 - Asian 9.6%
 - Hispanic or Latino 13%
 - Black or African American 4.4%
 - American Indian or Native Alaskan 1.9%

- Median HHI \$73,775

Target Demographics:

- General public
- At risk populations including the elderly and homeless population
- Minority, low-income, rural and other historically underserved communities
- Pharmacies
- Retailer of Covered Drugs
- Health care providers and patients
- Skilled nursing and long-term care facilities
- Veterinary providers and animal lovers
- Public health facilities

Media Communication Methods

Inmar will use the below outreach tactics to educate covered entities, retail pharmacies, health care facilities, and veterinary hospitals on where and how to return covered drugs throughout the communities of Washington.

Inmar will reach out to Covered Entities, Retail Pharmacies, health care facilities, and veterinary hospitals through direct mail in a campaign deployed twice a year around the National Consumer

Drug Take-Back (NCDTB) days. The campaign will focus on promoting the Washington Safe Medication Return Program. The majority of the direct mail will go to underserved and rural areas and expand outwards to the larger cities. The semiannual direct mail campaign will occur for the first two years with adjustments to the campaign being made in year three.

Programmatic advertising refers to the data and technology-driven process by which buyers and sellers of digital advertising space purchase or sell that inventory in real time. The programmatic campaigns will run quarterly each year. The programmatic campaign will occur for the first two years with adjustments to the campaign being made in year three.

Inmar will provide Influencer Marketing services. The Social Media Influencer campaigns will also occur quarterly throughout the year. Adjustments to campaigns will be made in year three.

Beyond the above, Inmar will also post about the Program twice monthly on our social media channels and promote the posts with amplified media when deemed necessary.

1. Press Release

- Sent at Plan Approval
- Local Media Outlets/Partners
- National PR Wire

2. Direct Mail

- PSA Announcement Postcard sent to Covered Entities (5x7 Postcard) twice a year leading up to NCDTB day

3. Print Ads

- Run ads in major newspapers quarterly

4. Programmatic Media

- Provide targeted display and/or video ads on browser sites on internet capable devices (smart phones, computers, tablets, etc.). Additionally, geo-targeting can be used to focus the ads to specific areas within proximity to a kiosk if needed to increase awareness in underserved areas or in areas that need additional outreach.
- Inmar will run ads across a prequalified list of over 200K domains
- Inmar will run targeted ads twice a year for the 6 weeks leading up the NCDTB days (last Saturday in April and October each year)
- Metrics - Impressions - These metrics are reported directly from the individual websites that the ads are placed on and are reported on a per campaign bases (once per quarter)

Definitions:

- Impressions - Potential views/interactions of your content or media.

5. Influencer Marketing

- Inmar will run several social media influencer campaigns. Campaigns will include one campaign every quarter for the first two years with evaluation for effectiveness starting in year three
- Metrics - Impressions, Content Views, Engagements. These metrics are reported directly from the social platforms themselves and are reported on a per campaign bases (once per quarter)

Definitions:

- Impressions - Potential views/interactions of your content or media.

- Content Views - Actual views of the campaign content on Collective Bias blogger sites since campaign launch.
- Engagements - All social actions (likes, shares, comments) taken on campaign content.

Program Website

Pursuant to RCW 69.48.070(2), within 180 days of Plan approval, Inmar will provide a single, neutrally branded, mobile-optimized website, in coordination with other approved Program Operators, that will publicize collection options and educate all Covered Entities, including individuals with limited English proficiency, on proper disposal practices. Inmar will use enhanced search engine optimization to ensure easy location and access.

Specifically, the Program Website will:

- Allow Covered Entities, LEAs, health jurisdictions and community members to contact Inmar to provide feedback on the Program.
- Allow Covered Entities to find the nearest Collection Site or Mail-back Distribution Location via an interactive map. The list of locations will be updated quarterly to ensure accuracy. The location list will be inclusive of all Kiosks and Mail-back Distribution Locations operated by Department-approved Program Operators.
- Allow Covered Entities to request pre-paid Mailers.
- Clearly indicate what substances are and are not accepted. Graphics of unacceptable substances are provided for additional clarity.
- Include educational and outreach materials for the safe storage and disposal of Covered Drugs.
- Feature links to Drug Take-back social media pages for more useful content.

Potential Authorized Collectors interested in participating in the Program will be able to request more information through the Website. In addition, participating Authorized Collectors will have access to resources for compliant Kiosk management (including installation, tracking, and shipping) and will be able to request on-site Kiosk maintenance and support. Similarly, Mail-back Distribution Locations will be able to request educational and promotional materials, additional supplies to prevent a break in service, request bulk orders, obtain support and report issues via the Program Website.

In compliance with WAC 246-480-070, Inmar will update the list of Authorized Collectors, Collection Sites, Mail-back Distribution Locations and locations for Collection Events at least quarterly on the Program Website.

Program Toll-free Phone Number

Inmar will coordinate with other approved Program Operators to establish a single toll-free phone number as required by RCW 69.48.070(2) within 180 days of Plan approval. Coordinating with other approved Program Operators, Inmar will operate a toll-free call center that interested parties can call to learn more about the Program and drug disposal best practices. Covered Entities will also be able to request information about the nearest Collection Site or Mail-back Distribution Location, request that a pre-paid Mailer be sent to them or acquire information about other collection processes. The call center is operated with live operators and will be staffed with a third-party service to assist with live translation in requested languages. All operators are trained to assist and answer questions

related to the Program operation including but not limited to Authorized Collector Kiosk support and service requests.

Callers with medical emergencies will be directed to call 911. Patients with medication-related questions will be directed to contact their health care provider(s).

Authorized Collectors will also be able to call the Program Toll-free Phone Number to request on-site Kiosk maintenance and support.

Coordination with Other Approved Programs

Inmar will coordinate its promotional activities with any other approved Program Operators. This coordination will begin upon Plan approval with the goal of establishing a single system of promotion within 180 days. However, the timeline of when this single system of promotion can be fully implemented will depend on the cooperation and availability of the other approved Program Operators. Coordination efforts will include providing a single Program Website and single Program Toll-free Phone Number to access information about collection services for all approved Plans. Inmar will work with the existing Program Operator to provide the Department with a mutually agreed upon document that outlines the principles of coordination and specifies the required elements of the single system of promotion on the following elements:

1. Jointly agree on Program Website name with approval by the Department
2. Jointly agree on Program Toll-free Phone Number
3. Jointly agree to fund the Program Website and Program Toll-free Phone Number fairly
4. Provide a joint document to the agency detailing the Plan
5. Meet immediately to discuss any confusion by Covered Entities and take action to address.

The approved Program Operators will design and seek approval for a state-wide program logo that will be readily recognizable for use on Kiosks, educational materials, the website and other Covered Entity facing materials.

Public Awareness and Outreach Reporting

Pursuant to RCW 69.48.070(1)(h), Inmar will report on its promotion, outreach, and public education activities in its annual report required by RCW 69.48.100.

V. Goals

	180 Days after Plan Approval	Short-term (12 Months after Plan Approval)	Long-term (Ongoing)
Collection	<p>Establish approximately 194 Collection Sites within Population Centers where Authorized Collectors have been confirmed and outside Population Centers where potential Authorized Collectors are willing to participate in the Program.</p> <p>Establish approximately 124 Mail-back Distribution Locations in Population Centers underserved by Collection Sites and where consultation with the Department and local health jurisdictions has been achieved.</p> <p>Continue outreach to local health jurisdictions and engage in additional consultations about placement of Mail-back Distribution Locations and Collection Events.</p> <p>Mail-back services available through Program Website and Program Toll-free Phone Number.</p> <p>Inmar sets a collection goal (for Collection Sites) of 20 pounds per month per Collection Site for a total of 3,880 pounds of Covered Drugs collected from 194 Kiosks monthly and 46,560 pounds in the first 180 days after Plan approval.</p>	<p>Establish an additional 21 Kiosks at Collection Sites in populations currently underserved by Kiosks for a total of 215 Collection Sites in the state.</p> <p>Continue providing service through Mail-back Distribution Locations and collection events in populations underserved by Collection Sites in coordination with the Department and local health jurisdictions.</p> <p>Inmar sets a collection goal (for Collection Sites) of 20 pounds per month per Collection Site for a total of 4,300 pounds of Covered Drugs collected from 215 Kiosks monthly and 51,600 pounds in the first year after Plan approval.</p> <p>Inmar estimates approximately 342 pounds of Covered Drugs to be collected by Mailers in the first 12 months of Plan operation and 125 pounds per collection event.</p>	<p>Increase collection weight by 10% each year.</p> <p>(i.e. Year 2 collection estimates of 22 pounds of Covered Drugs per Collection Site, 5.5 ounces per Mailer and 137.5 pounds per collection event.)</p>
Education & Promotion	<p>Coordinate with other approved Program Operators and establish a single system of promotion including Program Website, Program Toll-free Phone Number and customization of Kiosk signage as agreed upon by the</p>	<p>Continue public awareness and outreach campaign as described in Section IV of Plan with a goal of reaching 50% of Covered Entities in Washington by 12 months after Plan approval.</p>	<p>Continue public awareness and outreach campaign as described in Section IV of Plan with a sustained reach of 50% of Washington residents.</p>

	<p>Program Operators and the Department.</p> <p>Begin public awareness and outreach campaign as described in Section IV of Plan with a goal of reaching 25% of Covered Entities in Washington by 6 months after Plan approval.</p>		
--	--	--	--

VI. Annual Reporting

In accordance with RCW 69.48.100, Inmar will submit, by July 1st, 2022 and each July 1st thereafter, in a format prescribed by the Department, an Annual Report describing implementation of the Drug Take-back Program during the previous calendar year that includes:

- A list of Covered Manufacturers participating in the Drug Take-back Program
- The amount, by weight, of Covered Drugs collected, including the amount by weight from each Collection Method used
- The following details regarding the Program's Collection System: A list of Collection Sites with addresses; the number of Mailers provided; locations where Mailers were provided, if applicable; dates and locations of Collection Events held, if applicable; and the transporters and disposal facility or facilities used
- Whether any safety or security problems occurred during collection, transportation, or disposal of Covered Drugs, and if so, completed and anticipated changes to policies, procedures, or tracking mechanisms to address the problem and improve safety and security
- A description of the public education, outreach, and evaluation activities implemented
- A description of how collected packaging was recycled to the extent feasible
- A summary of the Program's goals for collection amounts and public awareness, the degree of success in meeting those goals, and if any goals have not been met, what effort will be made to achieve those goals the following year
- The Program's annual expenditures, itemized by Program category.

Inmar will, within thirty days after each annual period of operation, submit an annual collection amount report to the Department that provides the total amount, by weight, of Covered Drugs collected from each Collection Site during the prior year. Inmar understands that the Department will make reports submitted available to the public through the internet.

VII. Program Costs and Fees

Year 1

Administrative Costs	\$644,900.00
Collection and Disposal Cost	\$2,122,104.00
Communication Costs	\$411,000.00
Total Program Costs	\$3,178,004.00

Category 1: Administrative costs. A total for all administrative costs includes, but is not limited to:

- (i) Contracted and employed personnel overhead costs;
- (ii) Legal fees;
- (iii) Local and state business licensing fees;
- (iv) Local, state, and federal taxes;
- (v) Property costs, including rentals;
- (vi) Utilities, phone, and internet; and
- (vii) General equipment and supplies.

Category 2: Collection and disposal costs. A total for all collection and disposal costs includes, but is not limited to:

- (i) Collection, transportation, and disposal of drugs;
- (ii) Purchase, maintenance, and replacement of collection receptacles;
- (iii) Compensation of Authorized Collectors, if separate from personnel costs and
- (iv) Production, distribution, and postage of Mailers.

Category 3: Communication costs. A total for all communication costs includes, but is not limited to:

- (i) Advertising;
- (ii) Marketing;
- (iii) Website creation and maintenance; and
- (iv) Operation of a Toll-free Phone Number.

Assumptions

This budget estimate provided by Inmar is an estimate of the total expenditure to implement the Program by Inmar across the entire state of Washington. This estimate is based upon Inmar's experience and national footprint in servicing the pharmaceutical industry and applying the Washington regulations to this effort. As such, the actual performance results may differ from those projected in this Program Budget. No guarantee is implied as to the accuracy of this estimate.

Inmar will be responsible for all costs incurred in the Program and will be performing all the work in-house with the exception of transportation and disposal, which will be the only services Inmar will subcontract. Inmar has long-standing agreements for these services, which Inmar will leverage for performance of this Program.

- Program oversight to ensure seamless transition, implementation and operations to include:
 - Recruitment and executing agreements with Authorized Collectors
 - Recruitment and executing agreements with Covered Manufacturers
 - Relationship management and support for grandfathered local Drug Take-back Programs
 - Regulatory oversight for compliance to applicable regulations

- Providing and installing Kiosks for each Collection Site except where Authorized Collectors have chosen to install the Kiosk on their own in which case Inmar will provide on-site inspection and audit of installation within 30 days to ensure the Kiosk is installed properly and is ready to receive Covered Drugs.
- Maintain and replace Kiosks when necessary
- On-site support or pick-up service as needed
- Auto-replenishment of supplies to include:
 - Pre-address, pre-paid serialized Container
 - Serialized Inner Liners to protect against puncture and a liquid barrier
 - Easy-to-use zip ties to seal Inner Liner compliantly
 - Absorbent pad for placement in the bottom of the Inner Liner bag
- Mailers and associated shipping
- Collection Event logistics and supplies
- Transportation of collected drugs to Reverse Distributor and disposal site
- Disposal of Covered Drugs in accordance with all applicable regulations (i.e. DEA)
- Reporting
- Program promotion, education, and outreach
 - Call center
 - Website

VIII. Implementation Plan and Schedule

At Plan Approval	60 Days After Approval	90 Days After Approval	180 Days After Approval
Place order with Kiosk vendor for Collection Sites under contract at time of Plan submission. Customization of Kiosk signage (if needed). Ship promotional material for Authorized Collectors. Ship Mailers to Mail-back Distribution Locations. Promotional material for Mail-back Distribution Locations will be shipped with Mail-back Starter Kits at this time. Begin state specific Program Website configuration.	Complete installation of Kiosks at a minimum of half of the Collection Sites under contract at time of Plan submission. Continue solicitation of Potential Authorized Collectors. All Kiosks that are confirmed and under contract after Plan submission will be installed within 90 days of contract signature per Section II.B of this Plan.	Complete installation of all Kiosks and begin collection of Covered Drugs from all Collection Sites under contract at time of Plan Submission. Continue solicitation of potential Authorized Collectors. Initiate outreach campaign as described in Section IV of this Plan. Implement any changes resulting from collaboration discussions with other Program Operators.	Program fully operational <ul style="list-style-type: none"> ● All Kiosks are installed and collection has begun. ● Program Website and Program Toll-free Phone Number are operational. ● Covered Entities can request Mailers from Program Website or Program Toll-free Phone Number. ● Promotional material is in place and outreach has begun according to established schedules. ● Approved Program Operators have implemented a plan for collaboration.

<p>Update promotion & education materials for state specific needs.</p> <p>Begin collaboration with other approved Program Operators as needed.</p>	<p>Initiate Mail-back services at all confirmed Mail-back Distribution Locations.</p> <p>Covered Entities will be able to request Mailers through the Program Website.</p> <p>Program Toll-free Phone Number operational.</p>		<ul style="list-style-type: none"> Promotional material available for all interested parties including Retail Pharmacies, health care facilities and veterinary clinics through Program Website and Program Toll-free Phone Number.
---	---	--	--

IX. Changes to an Approved Program

In accordance with RCW 69.48.050(5)(a-c), Inmar will follow the required notification process for proposed changes to the approved Program. Inmar will notify the Department in writing at least 15 days prior to a substantial change to the Program. We understand and agree that those substantial changes include Covered Manufacturers, Collection Methods, service convenience goals, policies and procedures for handling Covered Drugs, education and promotion methods and selection of disposal facilities.

Inmar will notify the Department at least seven days before implementing changes to the Program that do not substantially alter Program operations such as changes to Collection Site locations, methods for scheduling and locating periodic Collection Events, and methods for distributing pre-paid, pre-addressed Mailers. Inmar will not notify the Department of de minimis items such as minor revisions to branding, marketing materials and other dynamic information updated on the Program Website such as the Collection Site location finder.

Inmar will notify the Department of any changes to the official point of contact no later than 15 days following the change. We further agree to notify the Department of any changes in ownership or contact information for participating Covered Manufacturers no later than 90 days after such change.

X. Grandfathered Drug Take-back Programs

In accordance with RCW 69.48.160, Inmar understands that for a period of twelve months after a Drug Take-back Program approved under RCW 69.48.050 begins operating, a county may enforce a grandfathered ordinance. Inmar acknowledges that as of November 21, 2021 all grandfathered counties will be incorporated into the statewide program and be operated by the current Program Operator. Inmar will meet Convenience Standards in these counties as well as other counties in the state.

XI. Proprietary Information

During the execution of the Program, Inmar anticipates that financial, commercial, and proprietary information will be accessed by both Inmar and the state and, in such circumstances, Inmar, in accordance with RCW 42.56.270, will properly mark such information.

Appendix B: List of Contracted Authorized Collectors and Collection Sites

These terms are used to define statuses of our current relationships or potential relationships with Authorized Collector locations. These terms are designed to ease understanding and are defined as follows:

- **Confirmed/Under Contract:** This Site has confirmed its interest in participating in our Program and has signed a contract.
- **In-Discussion:** This Site or overall retail client is in discussions with us on participating but hasn't confirmed commitment yet.
- **Notified:** We have communicated in some way (letter, newsletter, email blast, etc.) to this Site or retail location about their opportunity to participate in this Program.

Appendix E: Notification Letter for Potential Authorized Collectors & Mail-back Distribution Locations

 INMAR.COM

February 3, 2021

Dear Sir or Madam,

You are being offered an opportunity to participate in the State of Oregon Drug Take-Back Program.

Each day, thousands of Americans inadvertently or unknowingly dispose of unwanted drugs in a manner which is unsafe for the human population, adds unnecessary amounts of pollutants to the drinking water, and creates undue hazards for our community. Inmar Intelligence stands ready to provide solutions to these harmful issues – and we need your help.

Pursuant to ORS 459A.215, we are reaching out to invite you to participate in our drug Take-Back program by offering a drug Take-Back kiosk to be located in your facility and regularly serviced at no charge. Your participation will assist you in being part of the much-needed solution to the challenge of unwanted drugs being held in homes risking misuse or abuse or being improperly disposed of and negatively impacting our environment.

Over 200 Americans die every day from a drug overdose and 70% of teens who misused drugs in the past year say they accessed those drugs from a relative, friend or the home medicine cabinet. You can be a hero in your community by offering the reminder and opportunity for proper disposal of those unneeded and unwanted drugs.

If you are interested in becoming an authorized collector with a drug collection kiosk in your location, please reach out to us and let us know. The cost of this program is completely underwritten by drug manufacturers resulting in no financial burden to you. Additionally, for those locations where a drug kiosk may not be optimal, we also offer a tabletop mail-back envelope display allowing your patrons a postage-paid envelope to take home and mail in unwanted drugs again at no cost to you or your patients.

You can become part of the solution to a national problem. To learn more, simply email us at NationalCDTB@inmar.com and put "Oregon State Program" in the subject line.

We hope that you are interested in partnering with Inmar Intelligence to bring safe medicine disposal options to the residents of the State of Oregon. We would love to hear from you soon!

Environmentally yours,

Nick Massaro
 Manager, Consumer Drug Take-Back Solutions
 Inmar Intelligence

Appendix F: Sample Promotional Material

All educational and promotional material provided here are samples and do not represent the final version to be used in Washington. Upon Plan approval, Inmar will coordinate with other Plan Operators and customize promotional material (i.e. signage, website, etc.) to a single system that includes, but is not limited to, reference to Washington rules, a single Program Website and Program Toll-free Phone Number. Promotional material that identifies what is accepted and not accepted will be updated after Plan approval to clearly state that the following are accepted:

- Both non-prescription and prescription medication
- Pet medications
- Inhalers

Sample Kiosk Prototype and Signage

**MAIL-BACK SERVICES ARE AVAILABLE IN YOUR AREA FOR
PRE-FILLED INJECTORS. FOR MORE INFORMATION, PLEASE CALL
OR VISIT OUR WEBSITE: [SAFEMEDICINEDROP.COM](https://safemedicinedrop.com) | 888-371-0717**

Front Door Sticker that will be added to the Kiosk to instruct Covered Entities on how to return Pre-filled Injectors. Program Website and Program Toll-free Phone Number will be updated once a single system of promotion is established with existing approved Program Operators.

WHY IS SAFE DRUG
DISPOSAL IMPORTANT
FOR PUBLIC HEALTH?

Proper disposal of unused
drugs saves lives and
protects the environment.

- Unused or expired prescription medications can lead to accidental poisoning, overdose, and abuse.
- Unused prescription drugs thrown in the trash can be retrieved and abused or illegally sold.
- Unused drugs that are flushed contaminate the water supply.

This material has been provided for the purpose of compliance with legislation and does not necessarily reflect the views of Inmar Intelligence or the Producers participating in the Inmar Intelligence (Source: U.S. Food and Drug Administration) Product Stewardship Plan

About Us

[Home](#) > [About Us](#)

Safe Medicine Drop Consumer Drug Take-Back Program

The opioid epidemic is impacting communities and families across the US – from rural farm towns to highly populated urban areas and across every demographic.

Inmar Intelligence is working to help educate Americans on the dangers of leaving prescription drugs unattended in the home, specifically opioids and benzodiazepines. Disposing of your medication properly makes your community a healthier and safer place.

- **Why** – Unused and expired drugs in the house can be dangerous
- **What** – Dispose them safely and for free at a place convenient to you
- **Who** – SafeMedicineDrop.com – Inmar's consumer take back program

Inmar Intelligence

Inmar Intelligence is a data and tech-enabled services company. We create insights and turn them into actions — to help brands, retailers and healthcare providers do more, save more, connect more and earn more in the face of changing markets and consumer behaviors.

To protect the environment, unwanted medicines should never be flushed down the toilet, put down the sink, or thrown in the trash. Proper disposal of medication helps to reduce the risk of environmental contamination as well as reducing the chance of abuse.

When destroying medication, please make every attempt to protect your Patient Health Information (PHI) and remove any personally identifiable information on medication labels or product packaging before disposing.

For further information about safe medication storage and destruction practices, please see the U.S. Food & Drug Administration information page, Poison Control Center information page and the DEA information page.

Appendix G: Sample Training Material

Authorized Collectors receive training materials that provide detailed instructions on how to manage a Kiosk, including but not limited to, installation (if applicable), safety and security, recognizing capacity, replacing Inner Liners (if applicable), storage of Packaged Containers, the rules and regulations pertaining to these items, and the operation of a Kiosk in general. Sample training material is provided but does not represent final state-specific material. Training materials will be customized upon approval to include, but not limited to, the following changes:

- Removal of LifeInCheck branding
- Inmar's purchasing and installing Kiosks as the default option
- References to Washington and Federal law where applicable
- Clarification of where Authorized Collectors are to ship Packaged Containers
- Inclusion of requirements for every type of potential Authorized Collector and Collection Site
- Single Program Website and Program Toll-free Phone Number which has been coordinated and agreed upon with other approved Program Operators
- Removal of references to other Inmar programs/offers and placing of client logos on Kiosk
- Updating Inner Liner storage requirements to reflect 21 CFR 1317.60(b)
- Removal of content pertaining to weight limits.
