Purpose: WAC 246-341-0342, Agency licensure and certification-Off-site locations. The Department of Health (department) is continuing emergency rule amendments to WAC 246-341-0342 to define a mobile unit for Behavioral Health Agencies in Washington and allow Opioid Treatment Programs (OTPs) to add a mobile unit as an extension of their existing license. This will align existing rule with the federal changes published in Title 21 of the Code of Federal Regulations, Parts 1300, 1301, and 1304 (21 C.F.R.). On July 28, 2021, these federal rules were revised to allow OTPs to operate mobile units under their existing federal Drug Enforcement Administration (DEA) license. Although current Behavioral Health Agency (BHA) licensing and certification rules reference 21 C.F.R., these rules went into effect on July 1, 2021, prior to the federal change, and need to be updated to ensure that OTPs in Washington are complying with the current version of the federal rule. The amendments to WAC 246-341-0342 define what a mobile unit is, require OTPs to notify the department in writing prior to operating a mobile unit, and outline requirements for OTPs that operate a mobile narcotic treatment program. These requirements include submitting a copy of the DEA approval for the unit and complying with 21 CFR Parts 1300, 1301, and 1304. This emergency rule continues amendments originally filed December 15, 2021 under WSR 22-01-147. The department is considering this amendment for permanent rulemaking. A preproposal statement of inquiry (CR-101) filed as WSR 21-14-010.

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This emergency rule updates department rules to align with the recently updated federal rules in 21 C.F.R., which allow OTPs to add and operate a mobile unit under their existing DEA license. Without this change, the rules would direct OTPs to comply with an outdated version of federal regulations that did not include the ability to operate a mobile OTP component. Furthermore, this continues to be a public health issue as a result of the ongoing opioid crisis in Washington state, which has been exacerbated by the Coronavirus disease 2019 (COVID-19) pandemic. This amendment will allow the department to continue approving mobile units without delay, increasing access to treatment for individuals who suffer from opioid use disorder, while maintaining regulatory oversight to ensure client and public safety.
