

AM sessions:

Nancy Bernard, MPH, REHS, manages the WSDOH Indoor Air Quality and School Environmental Health and Safety Programs, providing technical assistance, resources, and training for local health jurisdiction and K-12 school staff. Areas addressed include IAQ, wildfire smoke, asthma triggers, integrated pest management, noise control, lighting, communicable and zoonotic diseases, cleaning, disinfection, playgrounds, lab, art, and shop safety, hazardous materials, and school design. She has an MPH in Environmental Health Sciences from Tulane University, a BS in Environmental Health and a BA in Health Education from the University of Washington and served on the Lake Washington School District Board of Directors from 1997-2017.

Marcia Goldoft has an MD, an MPH in Environmental Health, and an MS in Epidemiology. She completed EIS training through the CDC while stationed with the New Jersey Department of Health. She joined the Washington State Department of Health in 1992, where she currently serves as a Medical Epidemiologist in the Office of Communicable Disease Epidemiology.

Dr. Liz Dykstra is the Public Health Entomologist for the Washington State Department of Health. She provides leadership and subject matter expertise on vector-borne diseases and arthropods of public health importance for the state. Dykstra is also an adjunct associate professor in the Department of Entomology at Washington State University and an affiliate faculty member with the School of Public Health, University of Washington. Earlier in her career, she served as a Peace Corps Volunteer in Senegal, West Africa and as an active-duty entomologist in the U.S. Navy. She continues to serve in the U.S. Navy Reserves.

Becky Doe, MS, CIH, CIC is a Certified Industrial Hygienist and Infection Preventionist with over 30 years of technical and management experience. She is an expert in the areas of industrial hygiene, infection control, hazardous waste management, and toxicology. In her current role at DOH she provides infection prevention and industrial hygiene consultation in both healthcare and non-healthcare settings. Specific areas of focus include ventilation, disinfection, infection prevention practices, and *Legionella* outbreak investigations.

PM session:

Elizabeth Jakob has an MS in chemistry and is a Certified School Risk Manager (CSRM) with decades of experience in risk management, hazardous materials/chemicals management, indoor air quality (IAQ), regulatory compliance, best practices, consulting and training. She has been with the Puget Sound Workers' Compensation Trust since 2002, serving 34 school districts, focusing on employee environmental health and safety.

Elizabeth is a member of the American Indoor Air Quality Association and the WA State WASBO and WAMOA. She has been collaborating with the WA State Department of Health for years and serves in advisory capacity with some of the local health jurisdictions' school health and safety programs.

Sara Hatfield: Sara Hatfield is the Director of Career and Technical Education in South Kitsap School District. Before moving into her role as CTE director she was a Secondary Agriculture Teacher. She received her Bachelor of Science and teaching credentials from Washington State University, a Master in Educational Leadership with Administrative and Principal Credentials from City University, and her CTE Director credentials through Central Washington University. She supports over 145-course offerings in sixteen different pathways district-wide in 7-12th grade. Her work focuses on the labor needs of the region and prepares students with real-world, technical job skills for life beyond high school.
