

Provider Card - Hepatitis B

- Give this card to your medical provider.
- Talk to your doctor about getting tested and vaccinated for hepatitis B.

Hepatitis B is a serious disease that can lead to liver damage, liver cancer, and even death. The first step to health is knowing your hepatitis B status.

Dear medical provider,

I want to be screened for hepatitis B. If the tests show that I am at risk for hepatitis B infection, I would like to begin the vaccination series.

I am asking because I understand that screening for hepatitis B is recommended by the CDC for people born in areas where hepatitis B is more common or whose parents were born in those areas, such as Africa, Asia, Eastern Europe, and the Pacific Islands.

Kadi ya Mtoaji - Homa ya Manjano ya B

- Mpe mhudumu wako wa afya kadi hii.
- Ongea na daktari wako kuhusu kupimwa na kupokea chanjo ya homa ya manjano B.

Homa ya manjano B ni ugonjwa mkali unaoweza kusababisha uharibifu wa ini, saratani ya ini, na hata kifo. Hatua ya kwanza ya kuwa na afya nzuri ni kujua hali yako ya homa ya manjano B.

Ili kuomba hati hii katika muundo mwingine, piga simu kwa 1-800-525-0127. Kwa watu walio na ulemavu au matatizo ya kusikia, tafadhali piga simu kwa 711 (Washington Relay) au tuma barua pepe civil.rights@doh.wa.gov.

Mpendwa mhudumu wa afya,

Nataka kupimwa homa ya manjano B. Vipimo vikionyesha kuwa nipo katika hatari ya maambukizo ya homa ya manjano B, ningependa kuanza misururu ya chanjo.

Nauliza kwa sababu nafahamu kuwa kipimo cha homa ya manjano B kinapendekezwa na Centers for Disease Control and Prevention (CDC, Kituo cha Uzuiaji na Udhhibiti wa Ugonjwa) kwa watu waliozaliwa katika maeneo ambapo homa ya manjano B ni ya kawaida zaidi au ambao wazazi wao walizaliwa katika maeneo hayo, kama vile Afrika, Asia, Ulaya Mashariki, na Visiwa vya Pasifiki.
