Agency: Department of Health

Subject of possible rule making: Chapter 246-825 WAC Genetic Counselors. The Department of Health (department) is considering adopting the health equity continuing education (CE) model rules, WAC 246-12-800 through 246-12-830, for genetic counselors to comply with RCW 43.70.613. Additional CE hours and course topics related to health equity will also be considered.

Statutes authorizing the agency to adopt rules on this subject: RCW 18.290.020, RCW 43.70.613, RCW 43.70.040, RCW 18.130.040

Reasons why rules on this subject may be needed and what they might accomplish: By January 1, 2024, RCW 43.70.613(1) requires each health profession credentialed under RCW 18.130.040 with a CE requirement to adopt rules requiring completion of health equity CE training at least once every four years. This includes the genetic counselor profession.

RCW 43.70.613(3)(b) also directed the department to create model rules establishing minimum standards for health equity CE programs. The department filed proposed rules for health equity CE minimum standards on August 23, 2022, under WSR 22-17-141. Any rules developed for genetic counselors must meet or exceed the minimum standards in the model rules found at WAC 246-12-800 through 246-12-830.

The goal of health equity CE training is to equip health care workers with the skills to recognize and reduce health inequities in their daily work. The content of the health equity trainings include instruction on skills to address structural factors, such as bias, racism, and poverty, which manifest as health inequities.

Identify other federal and state agencies that regulate this subject and the process coordinating the rule with these agencies: None.

Process for developing new rule (check all that apply):

- Negotiated rule making
- Pilot rule making
- Agency study
- Other (describe) Collaborative Rule Making
