Agency: Department of Health

Subject of possible rule making: Title 246 WAC. The Department of Health is considering creating a new chapter of rules to implement Engrossed Second Substitute House Bill 1477 (chapter 302, Laws of 2021). The rules would establish standards for designation of crisis call centers as crisis hubs within the 988 national suicide prevention and mental health crisis hotline system.

Statutes authorizing the agency to adopt rules on this subject: Engrossed Second Substitute House Bill (E2SHB) 1477 (chapter 302, Laws of 2021)

Reasons why rules on this subject may be needed and what they might accomplish: The Federal Communications Commission promulgated rules under 47 CFR Â§ 52.200 designating "988" as the three-digit code "for a national suicide prevention and mental health crisis hotline system." In 2021, the Washington State Legislature passed E2SHB 1477 with the intent to establish crisis call center hubs and expand the crisis response system. The bill requires the Department of Health (department) to adopt rules "to establish standards for designation of crisis call centers as crisis call center hubs."

Identify other federal and state agencies that regulate this subject and the process coordinating the rule with these agencies: E2SHB 1477 requires the Health Care Authority and the department to work collaboratively. The department has the responsibility for establishing and designating the crisis call center hubs. The Health Care Authority is responsible for developing and implementing the crisis response system and services to support the work of the crisis call center hubs. The two agencies will be working closely together to develop rules and processes

Process for developing new rule (check all that apply):

- Negotiated rule making
- Pilot rule making
- Agency study
- Other (describe) Collaborative rule making.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting:
