

WTN Youth Science Contest – Community Engagement Track

Purpose: Understand what public health data is available and use it to solve problems.

Required Criteria:

- Uses WTN data in project
- Bibliography in APA format
- Citations in APA format
- Reflection: A separate document or section of your project that provides a discussion of the process of your project, including:
 - A brief description summarizing your process
 - Barriers and challenges you experienced over the course of the project.
 - Influences on your work and thinking (i.e., people, media, readings, etc.).
 - Support you received throughout the project.
 - A lesson you learned that can be used in future lived-experiences

Student(s) Names: _____

Project Title: _____

Project Content		
Approaching Expectation (1)	Meets Expectation (2)	Exceeds Expectation (3)
	<p>Problem identification: Defines a problem you are trying to solve using WTN data.</p> <ul style="list-style-type: none"> • Selects a health issue that can be identified, discussed, or supported with WTN data • Identifies why this issue is should be improved 	
	<p>Recommendation: Identifies a possible solution/strategy to improve health or health equity for the identified problem.</p> <ul style="list-style-type: none"> • Solution is relevant to the problem • Solution is feasible • Explores possible other solutions before making a recommendation for one that is demonstrated to be best 	
	<p>Content: Covers topic in-depth with details and examples. Demonstrates subject knowledge.</p>	

	<p>Quality of information: Information clearly relates to the main topic.</p> <ul style="list-style-type: none"> • Includes supporting details and/or examples. 	
Impact		
	<p>Significance: Student clearly defines why topic has a health impact or social significance. Claims are based on the data/evidence and the reasoning they provide.</p>	
	<p>Impact: Discusses the impact of implementing the recommended solution, with supporting data where possible.</p>	
	<p>Equity: Provides a discussion of the equity impact of their project and demonstrates an understanding of the equity issues surrounding their project.</p>	
Presentation		
	<p>Format: Format of the project presentation suits the information presented.</p> <ul style="list-style-type: none"> • Information is easy to understand • Amount of information is appropriate for the medium • Uses data visualizations 	
	<p>Organization: Content is well organized using headings, bulleted lists, or clear sections of video presentation to group related material.</p> <ul style="list-style-type: none"> • Accurate APA Citation • Accurate, complete bibliography • Headings and sections that are coherent 	
	<p>Diagrams & Illustrations: Diagrams and illustrations are accurate and add to the audience's understanding of the topic.</p>	

	<ul style="list-style-type: none">• Data visualizations are labeled• Data visualizations are designed to not distort information• Graphics are relevant to the proposal
