

An illustration of several hands of different skin tones and wearing various patterned sleeves (including stripes, plaid, and polka dots) holding a central light gray circle. The hands are arranged in a circle, with their fingers pointing towards the center.

# **WASHINGTON SYNDEMIC PLANNING GROUP**

Community-led  
Caucuses

# WSPG Caucuses: What and Why?

Developing community-centered conversations  
by community, for community.

---

## WSPG Caucus Development- Course of Action

### COMMUNITY FOCUSED CAUCUS SESSIONS

**HIV Long-Term Survivors (pre-1996) Caucus**

**Transgender/ Gender Expansive**

**Nothing for Us  
Without Us  
is about Us**

**People who use or have used drugs**

**People impacted by mental health diagnosis  
or cognitive disabilities**

The Washington Syndemic Planning group is inviting persons with lived experiences to participate in community focused conversations. We want to hear what is important to you. Receive \$50 for each session-(virtual 1 hour). Participation is open to those 18 years of age (or older) and living or receiving services in Washington

# Transgender/ Gender Expansive:

A caucus for all along the gender spectrum to share experiences accessing prevention and care services related to HIV, STIs, and hepatitis C and to provide recommendations for how these services could be more responsive to the needs and interests of their community.

HIV Long-  
Term  
Survivors  
(pre-1996)  
Caucus:

We invite those of all ethnicities who acquired HIV prior to HAART (1996) to join to share experiences accessing prevention and care services related to HIV, STIs, and hepatitis C and to provide recommendations for how these services could be more responsive to the needs and interests of their community.

# People who use or have used drugs:

A space for people with current and/or past experiences with drugs to share experiences accessing prevention and care services related to HIV, STIs, and hepatitis C and to provide recommendations for how these services could be more responsive to the needs and interests of their community.

People  
impacted by  
mental health  
diagnosis or  
cognitive  
disabilities:

For people living with mental health diagnosis to share experiences accessing prevention and care services related to HIV, STIs, and hepatitis C and to provide recommendations for how these services could be more responsive to the needs of their community.
