Lead Service Line Loans

● Eligible Applicants:

- Group A community systems.
- Group A nonprofit noncommunity systems.
- Tribal systems not receiving SRF tribal set asides.

● Ineligible Applicants:

- Group B systems.
- Group A noncommunity, for-profit systems.
- Federal and state-owned systems.

Lead Service Line Inventory Loans

● Eligible Inventory Projects:

- Development of the service line inventory due October 16, 2024.
 - Include wages for staffing dedicated to inventory development.
 - Intern to complete records reviews.
 - Consultant
 - Customer interviews, meter box inspections, potholing (requires cultural/historical review)
- If you need a planning document, must be included in the scope of work.

● Ineligible Projects:

- Any other non-inventory work
- Service line replacement

Lead Service Line Replacement Loans

● Eligible Replacement Projects:

- Replacement of entire lead or galvanized-needing-replacement service lines – from water main to building
- Partial replacements if public side replaced in the past 5 years

● Ineligible Projects:

- Main replacements
- Non-lead or non-galvanized service line replacement
- Meter replacements, unless meter predates 1986 and has lead components

Take Aways

- Lead Service Line funding is proportional with 49 percent allocated for disadvantaged communities.
- Funding for inventories and lead service line replacements
- Contact your regional planner about your planning document.
