

Childhood Vaccine Program

Eligibility for Publicly Funded Vaccines: A Guide for Providers

The Childhood Vaccine Program is a universal vaccine purchase program financed by a combination of federal and state dollars. All children less than 19 years of age are eligible to receive vaccine through the program. To ensure the appropriate source of funding is used for purchasing vaccines, providers are required to screen and document each patient’s eligibility status at every immunization visit. This document provides guidance on choosing the correct patient eligibility status, the related Immunization Information System (IIS) coding, and general billing guidelines for children and adults receiving publicly supplied vaccine.

Eligibility Status and Codes for Children

Patient Eligibility Status	Eligible for Public Vaccine	IIS Eligibility Code & Description	IIS Funding Code & Description	Dosage-Based Assessment?	General Billing Guidelines

Instructions for Accessing ProviderOne to Identify Eligibility Status of Apple Health Children

Coverage for Medicaid and CHIP enrolled children in Washington State falls under the umbrella of “Washington Apple Health for Kids”. Subgroups are not easily distinguished by name and have the same insurance card. Providers must log into ProviderOne to identify the correct eligibility category.

1. Log into ProviderOne and select the **Benefit Inquiry** link under the client section of the Provider Portal.

2. Enter eligibility inquiry for the patient using any of the possible search criteria.

To submit an Eligibility Inquiry on a specific client, complete one of the following criteria sets and click 'Submit'.

- ProviderOne Client ID(Client Identification Code) or
- Last Name, First Name AND Date of Birth or
- Last Name, First Name AND SSN or
- SSN AND Date of Birth
- ProviderOne Client ID(Client Identification Code), Last Name, First Name AND Date of Birth or
- ProviderOne Client ID(Client Identification Code), Last Name AND Date of Birth or
- ProviderOne Client ID(Client Identification Code) AND Last Name

3. Click Submit. Note: The inquiry start date will default to today’s date. Change this date if it is not the date of service.
4. ProviderOne displays the Client Benefit Level page. If your search was successful, the client’s benefit information is displayed.
5. Below the search criteria and patient demographic information, the page will display eligibility information.

Insurance Type Code	Recipient Aid Category (RAC)	Benefit Service Package	Eligibility Start Date	Eligibility End Date	ACES Coverage Group	ACES Case Number	Retro Eligibility	Delayed Certification
MC: Medicaid	1203	CNP	01/01/2015	12/31/2999	N11			

6. Identify insurance type by their Recipient Aid Category (RAC) code and ACES Coverage Group code. See table below for CHIP/CHP RAC and ACES codes.

RAC Code	ACES Coverage Group Code	Description
1206, 1207	N13	Child is less than 19 years old, and is in Children’s Health Insurance Program (CHIP)
1211, 1212, 1213	N31, N33	Child is less than 19 years old, and is in Washington State Child Health Insurance Program (<u>CHP</u>)

The Washington State Adult Vaccine Program provides vaccine to participating provider locations using federal Section 317 funding. Adult 19 and older may be eligible to receive vaccine through the program dependent of their insurance status. To ensure vaccine is administered only to eligible adults, providers are required to screen and document each patient’s eligibility status at every immunization visit. This document provides guidance on who is eligible for program vaccine, choosing the correct patient eligibility status, the related Immunization Information System (IIS) coding, and general billing guidelines.
