

VAX IN A MINUTE

September 18, 2023

Get ready for fall with immunizations!

Remind staff, residents, family members, and guardians to stay up to date with vaccinations. Vaccine benefits far outweigh the risks.

Last flu season saw historically high rates of activity and hospitalizations. Additionally, new COVID-19 variants are now spreading through communities. This makes it urgent for you, your residents, and loved ones to get vaccinated.

An updated season 2023-24 COVID-19 vaccine is now available that restores and enhances protection against current variants. CDC encourages everyone to stay up to date on their vaccines—especially those with chronic medical conditions and those who are pregnant.

Plan for 2023-2024 COVID-19 and flu vaccines now!

To get COVID-19 vaccine linkages, and other vaccine training supports or resources, take this 2-minute provider survey: <https://LTC Vaccine Assistance Request>
