

VAX IN A MINUTE

September 29, 2023

Unsure which updated COVID-19 vaccine is right for you?

The CDC has shared updated information on the use of COVID-19 vaccines for the 2023-2024 fall and winter season.

Most adults who are unvaccinated or previously received any number of Moderna or Pfizer COVID-19 vaccine doses are recommended to receive 1 dose of an updated (2023–2024 Formula) COVID-19 vaccine from either manufacturer.

Individuals who previously received 1 or more doses of Novavax COVID-19 Vaccine or Janssen COVID-19 Vaccine, including those who also received any Moderna or Pfizer vaccine dose(s), are recommended to receive 1 dose of an updated (2023–2024 Formula) COVID-19 vaccine from either manufacturer.

Get vaccinated now to ensure updated protection from new variants circulating in your community.

To get COVID-19 vaccine linkages, and other vaccine training supports or resources, take this 2-minute provider survey: <https://LTC Vaccine Assistance Request>
