

## Breast and Cervical Cancer Screening

### Providing breast and cervical cancer screening and diagnostic services to eligible people in Washington

#### We serve people who:

- Don't have health insurance or have a high deductible.
- Have low income.
- Meet the age guidelines.

#### Services include:

- Breast cancer screenings (breast exams and mammograms).
- Cervical cancer screenings (Pap and HPV tests).
- Follow-up tests as needed, based on screening results.
- Assistance with navigating resources for treatment if needed.

### Cancer screening saves lives

- As you get older, you are at higher risk of getting cancer.
- If cancer is found early, it is often easier to treat and treatment is more successful.
- The best way to find cancer early is through routine screening. There are often no warning signs.

### Learn about your screening options

If you aren't eligible for Washington Apple Health and don't have insurance, you may still be eligible for free cancer screenings.
