

## SecureAccess Washington Registration

This document outlines the steps for creating or updating a SecureAccess Washington account.

All PrepMod users will need a SecureAccess Washington (SAW) account to access PrepMod as a service. If you currently are not a PrepMod user or part of a participating organization, visit the [PrepMod Landing Page](#) and [Use Case Scenarios](#) to determine if PrepMod is a good tool for your organization.

**IMPORTANT NOTE:** The email and First & Last names for the SecureAccess Washington (SAW) account, need to be an exact match to those used for the PrepMod Account. If they do not match, the user will not be able to access PrepMod.

To navigate to any of the topics below, select the question of interest.

### How Do I Create a SAW Account?

SecureAccess Washington (SAW) is a secure gateway that allows individuals to access multiple online state agency services. All PrepMod users will need to login through SAW to access the PrepMod.

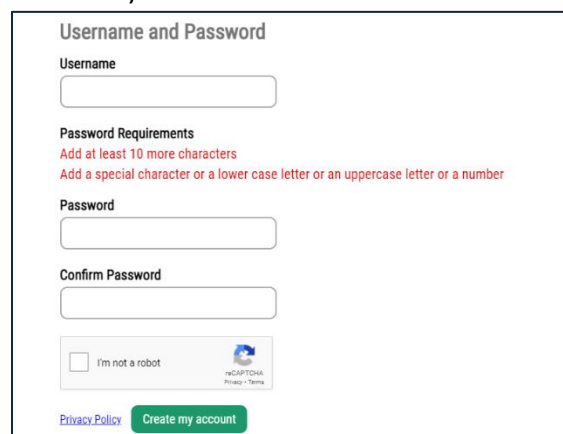

1. Go to <https://secureaccess.wa.gov>

2. Click the **SIGN UP** Button.

3. Enter the requested fields on the Sign-Up page:

- First Name (exact match to PrepMod Account)
- Last Name (exact match to PrepMod Account)
- Primary email (exact match to PrepMod Account)
- Optional: 2<sup>nd</sup> email and Phone
- Create a Username
- Password Requirements
  - at least 10 characters
  - lower and upper case letters
  - number
  - special character.
- Press the “Create my account” button.

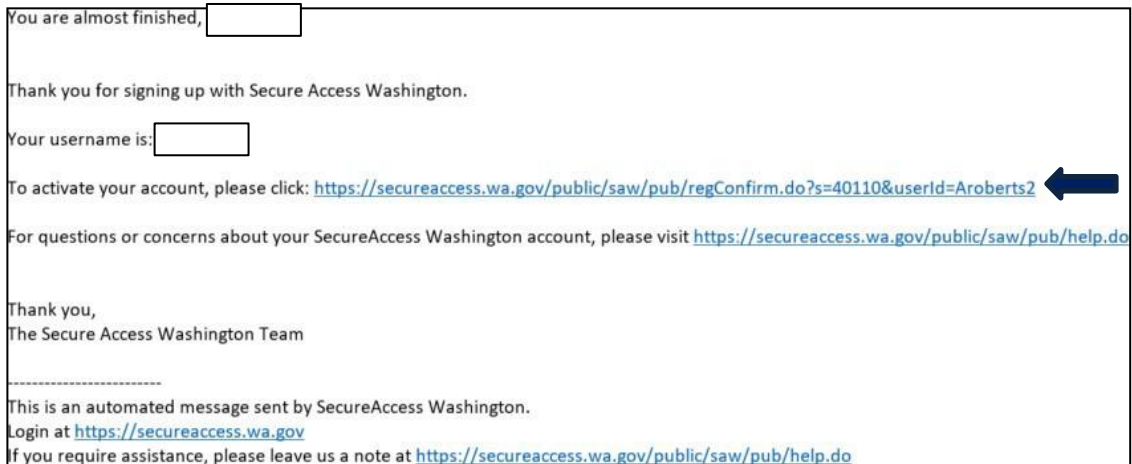

## SecureAccess Washington Registration

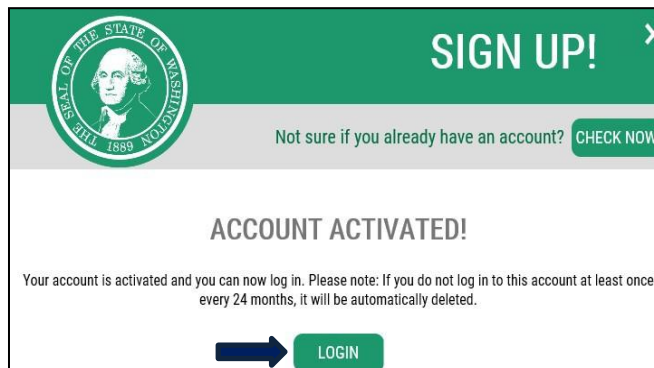

A message will display letting you know to check your email for account activation.

4. Check your email for a welcome message from **secureaccess@cts.wa.gov**. This email will include a **link** to activate your SAW account.

Once you click the activation link provided in the email, you will receive an account activated message and a prompt to **login**.

5. Log in to SecureAccess Washington with the Username and Password you created when registering for a new account.
