Annual Expenditures

I. Executive Summary

MED-Project WA, LLC (“MED-Project”) operates a Product Stewardship Plan for Covered Drugs from Households in the State of Washington, dated May 24, 2023, and approved by the Washington State Department of Health (the “Department”) on June 1, 2023 (“Approved Plan”). MED-Project is submitting this 2023 State of Washington Annual Report (“Report”) for the period between January 1, 2023, and December 31, 2023 (the “Reporting Period”) as described in Approved Plan Section X: Reporting. Between January 1, 2023, and May 31, 2023, MED-Project operated under the Plan dated May 18, 2020, approved by the Department on May 25, 2020 (the “Prior Approved Plan”). Although some discussions in this Report could refer to both plans, for simplicity, MED-Project generally refers to the “Approved Plan” only. All capitalized terms used but not otherwise defined herein shall have their respective meaning set forth in the Approved Plan.

MED-Project has served the residents of the State since the implementation of its first take-back programs in King and Snohomish counties in 2017. MED-Project was the only approved Program Operator when the Drug Take-Back Program legislation was initially passed and at the inception of the State Drug Take-Back Program in 2020. The Covered Manufacturers that participated in the MED-Project Approved Program met the Covered Manufacturer compliance obligations under RCW 69.48, See RCW 69.48.020 through 69.48.200. These same compliant Covered Manufacturers exclusively and fully funded all aspects of the Program including paying an initial fee of \$700,000 to the State of Washington Department of Health. MED-Project continues to administer an approved Product Stewardship Plan for Covered Drugs from Households (“Approved Plan”) in the State of Washington. MED-Project has collected over 875,000 pounds of Covered Drugs in the State through a wide network of over 650 service locations that includes conveniently located Collection Sites and Mail-Back Distribution Locations. MED-Project’s comprehensive outreach and education program has generated over 321 million impressions to State residents. The Drug Take-Back Law was modified in 2021 to allow other Program Operators to apply for program approval and one additional Program Operator was approved in 2022. According to the 2023 Final Annual Collection Reports, MED-Project Authorized Collectors attributed for 75% of all Authorized Collectors that collected weight in the State of Washington and attributed for over 85% of Covered Drugs collected from all Authorized Collectors that collected Covered Drugs in 2023. Further, MED-Project Collection Receptacles that collected weight in 2023, collected 89% more weight per Collection Receptacle on average than any other program operator Collection Receptacle.

A. Notifications in the Reporting Period

MED-Project submitted a number of updates during the Reporting Period. The updates included:

- Twelve monthly reports of Covered Manufacturers participating in the Program for reporting periods in 2022 and 2023.
- Twelve monthly reports of the Authorized Collectors participating in the Program for reporting periods in 2022 and 2023.
- A Preliminary Annual Collections Report submitted on January 30, 2023, of the amount of Covered Drugs collected by the Program during the 2022 reporting period.
- A Final Annual Collections Report submitted on March 1, 2023, updating the amount of Covered Drugs collected by the Program during the 2022 reporting period.
- An update to the Approved Plan, submitted on March 20, 2023, and revised on May 24, 2023. On June 1, 2023, the Department approved the update to the Approved Plan.
- An Additional Information Request Report submitted on July 1, 2023. This report responded to an email from Samantha Zeller, Safe Medication Return Compliance Manager of the Office of Health Professions for the Washington State Department of Health, to Dr. Victoria Travis, National Program Director MED-Project, dated November 22, 2021, requesting MED-Project provide information for use by the Joint Legislative Audit Review Committee.
- A Change Request, proposing to allow for single liner replenishment for low volume authorized collectors. On November 1, 2023, the Department approved the request.

B. 2023 Operations Overview

MED-Project supported 599 Collection Sites in the State during the Reporting Period. In addition, MED-Project supported 134 Mail-Back Distribution Locations and Retail Pharmacy locations during the Reporting Period.

MED-Project distributed outreach and educational materials to select Collection Sites and Mail-Back Distribution Locations during the Reporting Period. All public promotional material included in this Report are representative examples from the Reporting Period.

As outlined in the Approved Plan, the goal of the Program is to provide Covered Entities with convenient, safe, and accessible methods to dispose of Covered Drugs. During the Reporting Period, MED-Project broadcasted a public service announcement (“PSA”) encouraging safe disposal of Covered Drugs and the use of mail-back services.

MED-Project continues to communicate with select Collection Sites to distribute outreach materials, review procedures as needed, and improve the overall Program design. MED-Project updated the list of accepted and not accepted items in mail-back inserts, the MED-Project website, and Collection Receptacle signage during the Reporting Period. MED-Project also communicates with new sites upon activation and with sites that request additional information.

The following sections of the Report respond to specific reporting requirements in the Approved Plan and WAC 246-480 Regulations (“Regulations”). Each section of the Report restates the corresponding Approved Plan section. All figures are rounded to the nearest tenth place.

II. Participating Producers

Approved Plan Section X: “A list of Covered Manufacturers participating in the Program.”

Regulation Section 246-480-080(2)(a): “A list of covered manufacturers participating with the program operator.”

See Appendix A; Participating Covered Manufacturers.

III. Collection Method and Weight

A. Collection Weights

Approved Plan Section X: “The amount, by weight, of Covered Drugs collected, including the amount by weight from each collection method used.”

Regulation Section 246-480-080(2)(b): “The amount, by weight, of covered drugs collected, including the amount by weight from each collection method used.”

MED-Project reports the collection amounts for the Reporting Period across the State for each of the collection methods as follows:

- MED-Project collected 176,693.8 pounds from Collection Receptacles.
- MED-Project collected 3,015.3 pounds through the return of 4,835 Mail-Back Packages.
- MED-Project collected a total of 179,709.1 pounds through all collection methods.

B. Collection Sites

Approved Plan Section X: “A list of Collection Sites with addresses.”

Regulation Section 246-480-080(2)(c): “The list of collection sites with addresses must:

(i) Indicate collection sites added since previous annual report was submitted to the department;

(ii) Also be provided as a map; and

(iii) Identify any retail pharmacy, hospital or clinic with an on-site pharmacy, or law enforcement agency that offered to participate and was not included as an authorized collector within 90 days of the program operator receiving offer.

(A) If potential authorized collector was included later, describe reason for delay.

(B) If potential authorized collector was not included, describe reason for exclusion.”

For a list of Collection Sites with addresses, see Appendix B; Table 2, Collection Site Locations.

For a map of all Collection Sites that participated in the Program during the Reporting Period, see Figure 1, Map of Active Collection Sites During the Reporting Period during the Reporting Period, below.

During the Reporting Period, one site expressed interest in joining the Program and was not included as an Authorized Collector within 90 days of MED-Project receiving the offer, because the site voluntarily withdrew their interest. See Appendix C, Table 3; Site Not Included as Authorized Collector.

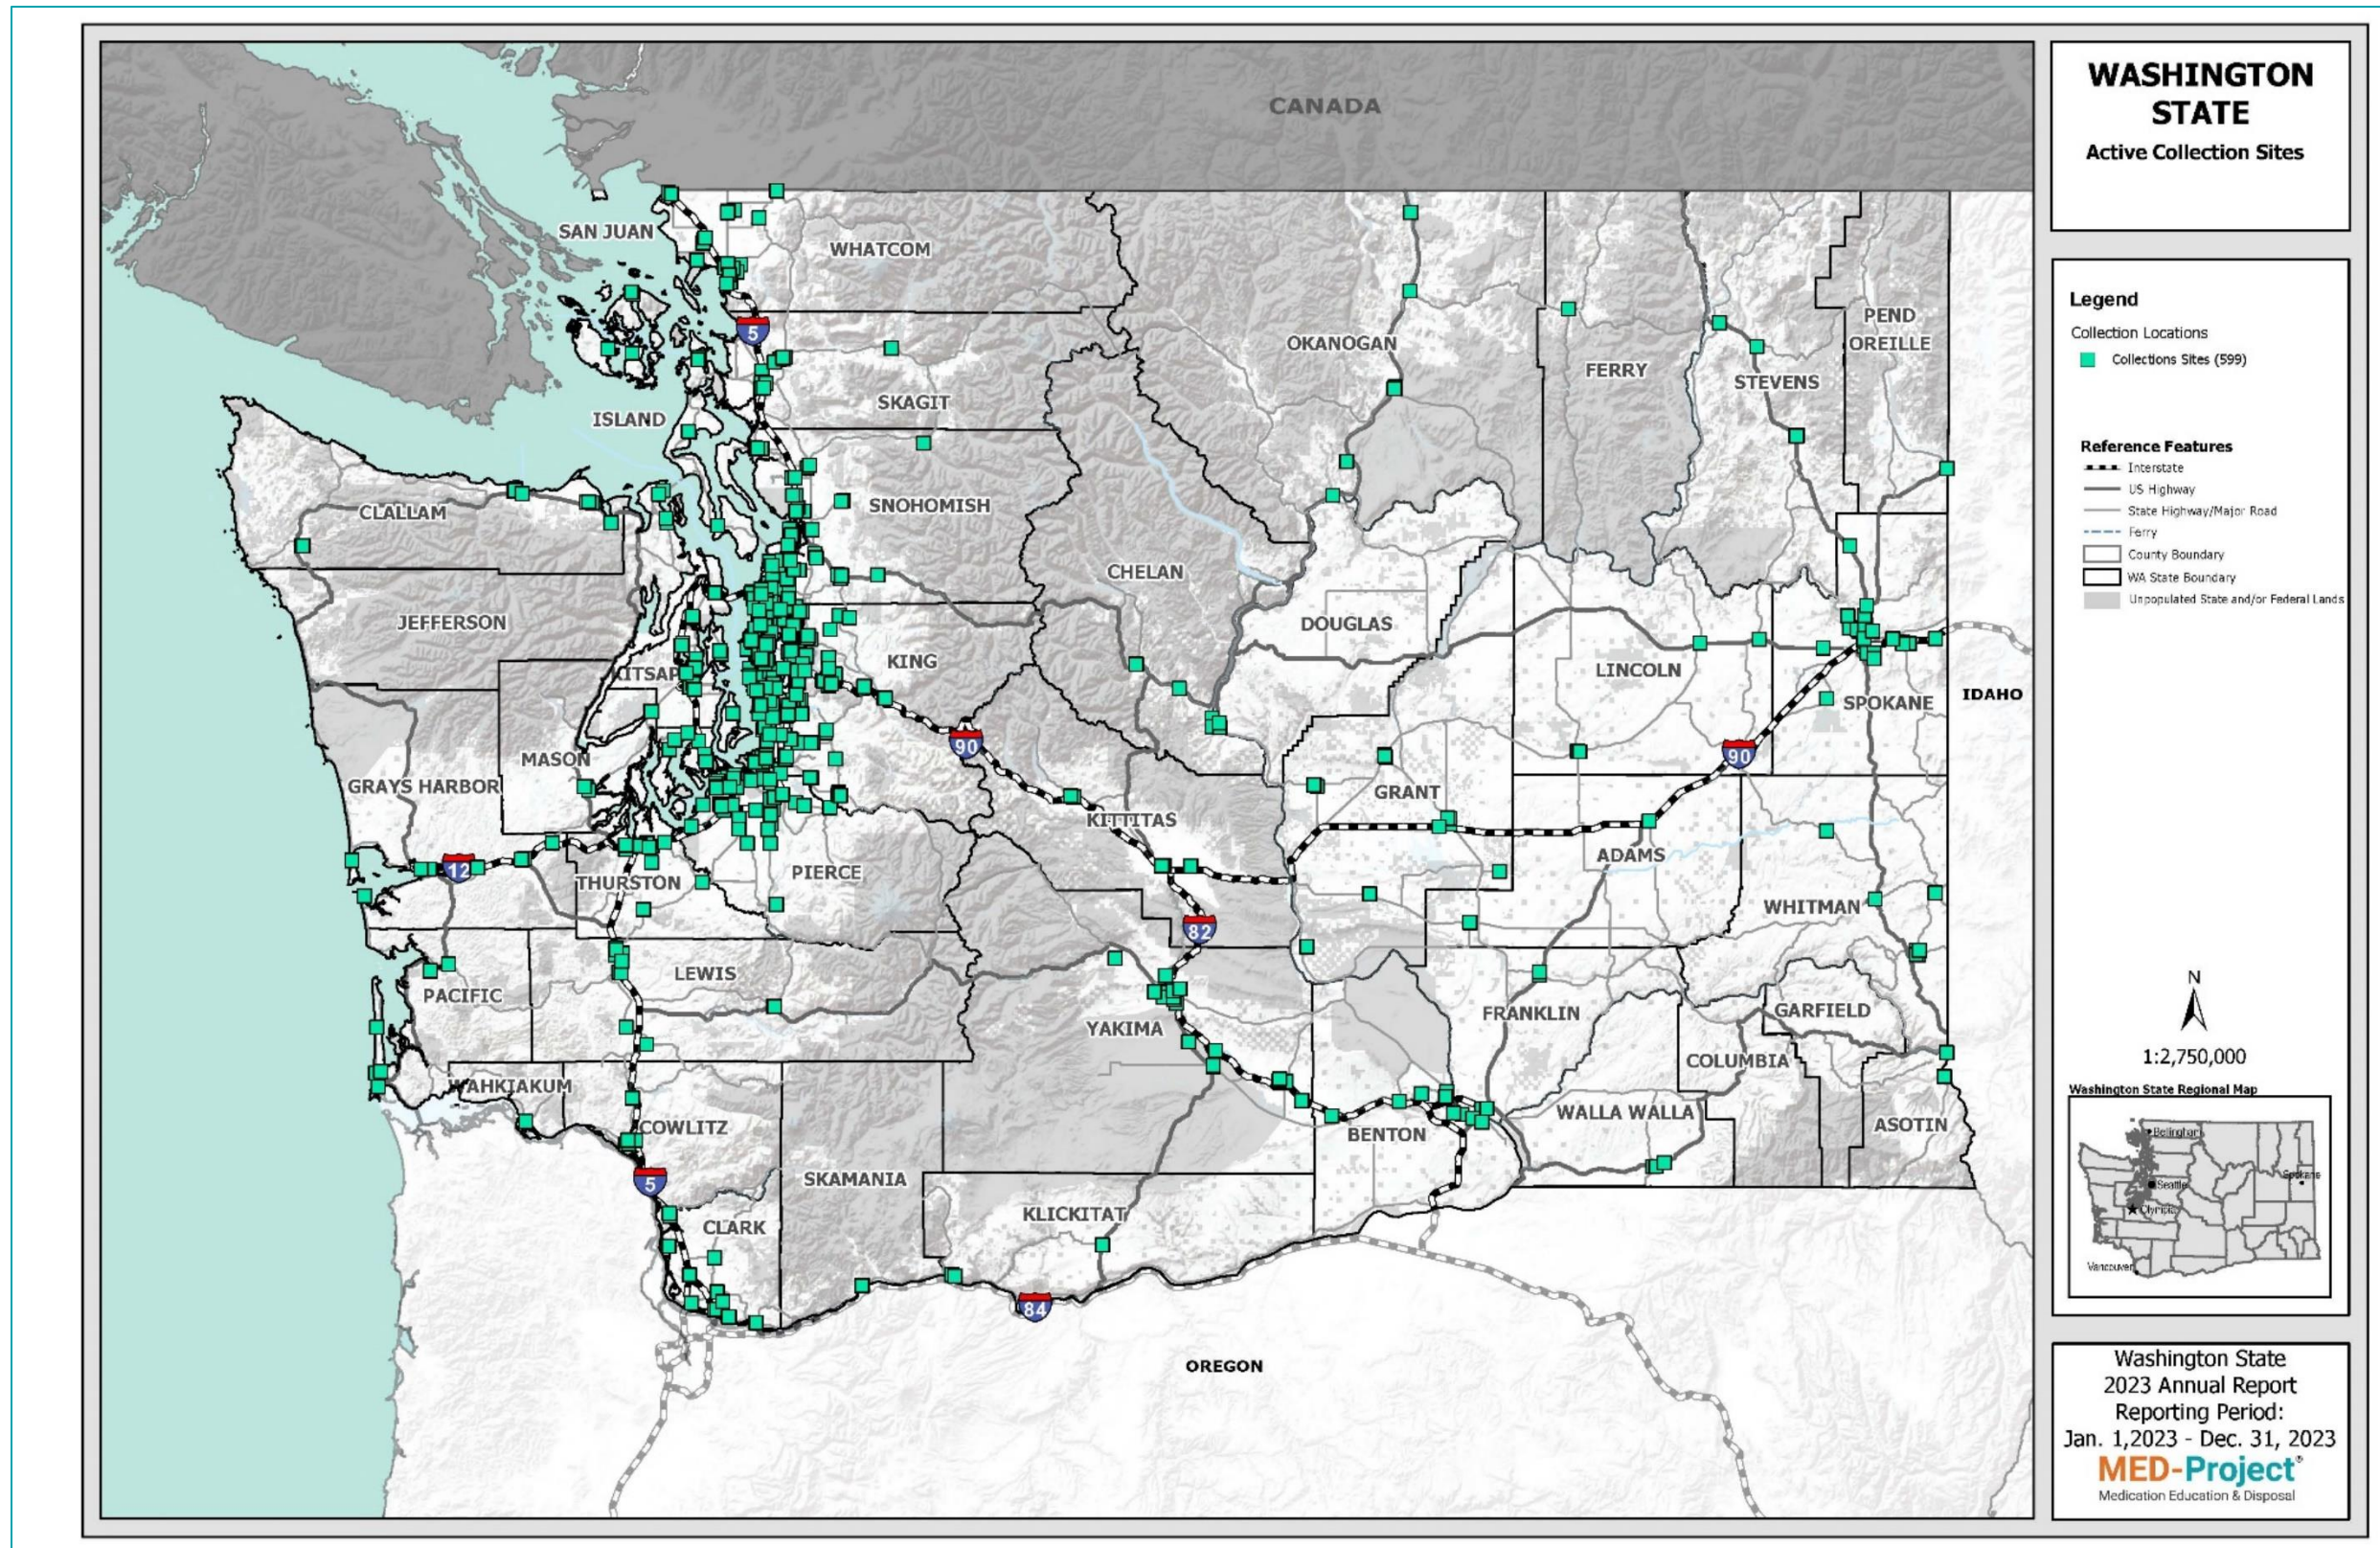

Figure 1: Map of Active Collection Sites During the Reporting Period

This page is intentionally left blank.

C. Prompt Collection, Maintenance and Kiosk Inner Liner Requests

Approved Plan Section X: “A description of any Collection Site requests for Rapid Response that were not provided to the Collection Site.”

Regulation Section 246-480-080(2)(d): “A description of prompt collection, maintenance, and kiosk inner liner supply requests.

(i) Describe whether agreements with collection sites include requirement for collection site to report need for prompt collection, maintenance, or inner liner supplies.

(ii) Describe any instances where program operator identified issues related to collection receptacle (kiosk) not being available to accept covered drugs when collection site was open for business, including issues identified during program operator inspection of receptacles; number of requests for prompt collection, maintenance, or inner liner supplies; and average number of days between request and collection or response.

(iii) Describe any instances where requests for prompt collection, maintenance, or inner liner supplies were not provided by the program operator as described in their approved plan. The description shall include the reason prompt collection, maintenance, or inner liner supplies were not provided and the number of days between request and collection or response.”

MED-Project was notified of 75 instances where Collection Receptacles were not available for collection during the Reporting Period with an average of 4.5 business days between collection and response. Note the 75 instances do not include any event reported in accordance with Regulation Section 246-480-080(2)(j). There were 56 instances where Collection Receptacles were not available due to prompt collection for an average of 4.4 business days between request and collection. There were three instances where Collection Receptacles were not available due to maintenance for an average of 3.3 business days between request and collection. There were 16 instances where Collection Receptacles were not available due to inner liner supplies for an average of 5.1 business days between request and collection. For a list of all instances where Collection Receptacles were not available for collection, see Appendix D, Table 4.

As described in the Executive Summary of this Report, MED-Project operated under the Prior Approved Plan and the Approved Plan, during the Reporting Period. Between January 1, 2023, and May 31, 2023, MED-Project responded to all requests for rapid response from Collection Sites. Between June 1, 2023, and December 31, 2023, MED-Project responded to all requests for prompt collection from Collection Sites.

As the Regulations were adopted after the end of the Reporting Period, MED-Project did not incorporate requirements for Collection Sites to report need for prompt collection, maintenance, or inner liner supplies into agreements during the Reporting Period. MED-Project began implementing these changes to agreements after the end of the Reporting Period.

D. Mail-Back Services

Approved Plan Section X: *“The number of Mail-Back Packages provided.”*

Regulation Section 246-480-080(2)(e): *“The number of mailers provided as reported by zip code and must include the number of mailers provided for each of the following categories:*

(i) Directly to individuals as the result of requests made through website or toll-free telephone number;

(ii) Directly to households without anyone requesting them;

(iii) To retail pharmacies that are not mail-back distribution locations;

(iv) To other businesses or organizations that are not mail-back distribution locations; and

(v) To mail-back distribution locations.”

- MED-Project distributed 4,214 Standard Mail-Back Packages, 598 Inhaler Mail-Back Packages, and 2,194 Injector Mail-Back Packages through the MED-Project website and call center during the Reporting Period.
- MED-Project did not distribute any Mail-Back Packages directly to households without anyone requesting them during the Reporting Period.
- MED-Project distributed 2,841 additional Mail-Back Packages to Mail-Back Distribution Locations and 1,060 additional Mail-Back Packages to Retail Pharmacy locations.
- MED-Project distributed 7,006 Mail-Back Packages to Covered Entities through the MED-Project website and call center.
- MED-Project distributed 60 Mail-Back Packages to other businesses or organizations that are not considered Mail-Back Distribution Locations.

For the number of Mail-Back Packages provided by ZIP Code, see Appendix E, Table 5: Mail-Back Packages Distributed, by ZIP Code.

E. Mail-Back Distribution Locations and Retail Pharmacy Locations

Approved Plan Section X: *“Locations where Mail-Back Packages were provided, if applicable.”*

Regulation Section 246-480-080(2)(f): *“The locations where mailers were provided and must include a list of:*

(i) Zip codes where individuals requested mailers from the single website, single toll-free telephone number, program operator specific website, or program operator specific telephone number;

(ii) Zip codes where households were sent mailers directly without requesting them. This list must indicate the percentage of households per zip codes that were sent mailers;

(iii) Nonresidential locations that are not mail-back distribution locations with addresses; and

(iv) Mail-back distribution locations with addresses.”

See Appendix E: Table 5, Mail-Back Packages Distributed, by ZIP Code.

MED-Project did not distribute Mail-Back Packages directly to individuals who did not request Mail-Back Packages during the Reporting Period. MED-Project provided Mail-Back Packages to two non-residential locations that were not a Mail-Back Distribution Location during the Reporting Period. See Appendix F; Table 6, Non-Mail-Back Distribution Locations Provided with Mail-Back Packages.

See Appendix F, Table 7: Mail-Back Distribution Locations and Retail Pharmacy Locations.

F. Collection Events

Approved Plan Section X: *“Dates and locations of Collection Events held, if applicable.”*

Regulation Section 246-480-080(2)(g): *“Dates and locations of collection events held.”*

There were no Collection Events held during the Reporting Period.

G. Collection Outside of Population Centers

Regulation Section 246-480-080(2)(h): “A description of collection sites, mail-back distribution locations, take-back events, and other methods for accessing safe medication return in areas outside of population centers.

(i) List all law enforcement, retail pharmacies, and hospitals or clinics with on-site pharmacies on islands and outside population centers and indicate whether they are authorized collectors.

(ii) For each law enforcement facility, retail pharmacy, and hospital or clinic with on-site pharmacy that is not an authorized collector, describe the reason they are not participating. Include recruitment efforts and the result of those efforts.”

For a list of all law enforcement, retail pharmacies, and hospitals/clinics with on-site pharmacies outside of population centers see Appendix G, Table 8: Sites Outside of Population Centers.

As the Regulations were adopted after the end of the Reporting Period, MED-Project did not conduct additional outreach to non-participating sites outside of population centers during the Reporting Period. MED-Project began recruiting efforts to these sites after the end of the Reporting Period. For a list of all law enforcement, retail pharmacies, and hospitals/clinics with on-site pharmacies outside of population centers, see Appendix G, Table 8: Sites Outside of Population Centers.

IV. Transporters and Disposal Facilities

Approved Plan Section X: “The transporters and disposal facility or facilities used.”

Regulation Section 246-480-080(2)(i): “Transporters and disposal facilities used.”

A. Transporter Information

See Appendix H; Table 10: Transporters.

B. Disposal Facility Information

See Appendix I; Table 11: Disposal Facilities.

V. Safety and Security Report

Approved Plan Section X: *“Whether any safety or security problems occurred during collection, transportation, or disposal of Covered Drugs, and, if so, completed and anticipated changes to policies, procedures, or tracking mechanisms to address the problem and improve safety and security.”*

Regulation Section 246-480-080(2)(j): *“Safety or security problems including, but not limited to, all instances where collection, transportation, or disposal did not follow processes described in the approved plan, including processes for prompt collection and maintenance. Safety and security problems described must include any instances where a secure collection receptacle (kiosk) is opened for a reason other than packaging the inner liner for shipping, installing a new inner liner, or maintenance on a kiosk that does not contain an inner liner. The description of whether safety or security problems occurred during collection, transportation, or disposal of covered drugs must include:*

- (i) Whether the problem occurred during collection, transportation, or disposal;*
- (ii) Whether the problem met criteria for reporting to law enforcement, Washington state pharmacy quality assurance commission, United States Drug Enforcement Administration, or other entity and whether the operator can confirm that the reporting happened;*
- (iii) If covered drugs were lost during transportation, whether transporter has policies for safely managing undeliverable packages that might include drugs;*
- (iv) If transporter delivered covered drugs to the wrong address, description of attempts to retrieve covered drugs and whether those attempts were successful;*
- (v) Program operator actions to ensure problem was reported, if required; appropriate investigation occurred; and risk of similar problem occurring in the future was minimized; and*

(vi) Changes to policies, procedures, or tracking mechanisms to address the problem and improve safety and security.”

There were no safety or security events during collection, transportation, or disposal of Covered Drugs during the Reporting Period, except for those described in Appendix J.

VI. Public Education, Outreach, and Evaluation Activities Implemented

Approved Plan Section X: *“A description of the public education, outreach, and evaluation activities implemented. MED-Project will provide all promotional and education materials developed for the Program with each annual report.”*

Regulation Section 246-480-080(2)(k): *“A description of public education, outreach, and evaluation activities implemented and shall include the following. "Promotional material" shall have the same definition as in WAC 246-480-070(4):*

(iv) Copies of all public promotional material, including signage and changes to websites and telephone number scripts, developed since last annual report;

(v) Description of how education and outreach efforts were implemented including:

(A) Date, type, and description of all social media and email promotion activity;

(B) Date, frequency, reach, and description of outreach for radio, television, print, and digital media platforms;

(C) List of brochures and posters available from single website and program operator specific website, number of times each was viewed, and number of times each was downloaded;

(D) Name, address, facility type, and date of email or hard copy distribution of brochures and posters to nonresidential entities; and

(E) Total number of views and number of unique visitors for each page of single website and program operator specific website.”

A. Public Education Activities

MED-Project provided disposal instructions to Covered Entities for Collection Receptacles and mail-back services offered through the Approved Plan. In addition, MED-Project maintained the MED-Project website and call center to provide information pertaining to MED-Project disposal options and outreach materials. During the Reporting Period, MED-Project conducted a website refresh initiative which was designed to provide an enhanced user experience and improve overall usability, accessibility, and navigation. The refresh included the implementation of dynamic translation capabilities and new accessibility and mobility features. These changes made the MED-Project website easier to navigate and understand, allowing Residents more efficient access to disposal options for Covered Drugs.

The MED-Project website and call center were available in English and the Specified Languages as outlined in the Approved Plan: Spanish, Chinese, Vietnamese, Russian, and Tagalog. MED-Project's website, including the public promotional educational materials (brochures), can be translated into more than 100 languages via a translation tool. Printed posters and program brochures were available in English and Spanish.

During the Reporting Period, MED-Project updated the color scheme and imagery on the posters, brochures, and other public promotional materials used to promote the Program. The updated public promotional materials included clear, accessible images to reinforce the messaging.

MED-Project included copies of all public promotional materials previously developed and used by the Program in respective Annual Reports. Appendix K of this Annual Report contains public promotional materials that were updated during the Reporting Period. The following MED-Project public promotional materials were available for viewing on the MED-Project website during the Reporting Period:

- The brochure was viewed and downloaded 305 times during the Reporting Period.
- The medication mail-back insert was viewed and downloaded 355 times during the Reporting Period.
- The inhaler mail-back insert was viewed and downloaded 170 times during the Reporting Period.
- The injector mail-back insert was viewed and downloaded 584 times during the Reporting Period.

The brochure and inserts were available online as a web page and could be translated into more than 100 languages. See Appendix L for poster and brochure distribution information.

The MED-Project website lists all Collection Sites and Mail-Back Distribution Locations. See Appendix M for MED-Project website page statistics and Appendix N for

screenshots of MED-Project website pages. The single coordinated website had 108,257 total visits to the site from 47,853 unique visitors during the Reporting Period.

B. Outreach Activities

MED-Project conducted the following outreach activities during the Reporting Period: provided broadcast television, radio, print, digital, and social media advertising campaigns; sent out an email blast; distributed public promotional materials; and posted information to the MED-Project website. MED-Project's media outreach campaign utilized multiple platforms, including print ads in a newspaper, audio segments on multiple online radio stations, and digital display ads on social media, websites, and mobile applications. Quarterly email blasts, outlining the MED-Project services offered to Washington residents, were sent to Community Based Organizations, Law Enforcement Agencies (LEAs), Local Health Jurisdictions, Health Care Providers, and businesses. Additionally, the campaign featured a PSA that aired on broadcast television and was promoted on social media. The reach percentage, frequency, and target rating points for each media campaign are provided in the Media Outreach Summary in Appendix O. For social media and email blast activity, see Appendix P.

C. Language Services

Regulation Section 246-480-080(2)(k): *(i) List of languages that printed or downloadable public promotional material are available in, with description of any printed or downloadable promotional material not available in these languages.*

List or description of languages used in any television, radio, social media, or other nonprint promotional material;

(ii) List or description of languages available on the single website and program operator specific website; the single toll-free telephone number and program operator specific telephone number; and call centers associated with the single toll-free telephone number and program operator specific telephone number. This list or description must include the name of language service providers where applicable;

(iii) Description of how these languages or language services meet the language needs of people in Washington;

For a list of languages available on the MED-Project website, MED-Project call center, single coordinated website, and single coordinated phone number see Appendix Q:

- MED-Project website: Table 16. The language provider for the MED-Project website during the Reporting Period was GTranslate.
- MED-Project call center: Table 17. The language provider for the MED-Project call center during the Reporting Period was AnswerNet.
- Single coordinated website: Table 18. The language provider for the single coordinated website during the Reporting Period was GTranslate.
- Single coordinated phone number: Table 19. The language provider for the single coordinated phone number during the Reporting Period was AnswerNet.

The MED-Project website offers translations in over 100 languages, including all of the languages specified by the Washington Secretary of State’s voting materials language requirements. See Table 16; Languages on the MED-Project Website for additional information.

MED-Project public promotion media campaigns were available in English, and all public promotional materials on the website were available in the languages available on the MED-Project website. During the Reporting Period, MED-Project’s brochure, Frequently Asked Questions, medication mail-back package insert, injector mail-back package insert, and inhaler mail-back package insert were available on the MED-Project website. Printed brochures and posters were available in English and Spanish.

D. Evaluation Activities

Regulation Section 246-480-080(2)(k): *“(vi) Description of evaluation activities shall include:*

(A) Evaluation of comments, questions, and concerns received from the public including evaluation of feedback themes and actions program operator has implemented or planned in response to feedback; and

(B) Evaluation of public education and outreach efforts, including evaluation of education and outreach implementation described in (g)(v) of this subsection.

There were three media campaigns conducted during the Reporting Period that achieved reach results of 68%, 19%, and 2%, respectively.

MED-Project tracks visits to the website that MED-Project maintains to promote the use of the Program and provide relevant information. As a measure of evaluation, MED-Project used the number of visits to the website as an indication of a resident’s potential to participate in the Program. MED-Project also evaluated the number of website page views for the Find a Location and Mail-Back Services pages. During the Reporting Period, MED-Project had 39,877 total visits to the website, including 19,003 visits to the Find a Location Page and 9,673 visits to the Mail-Back Services page.

In addition to the MED-Project specific website, MED-Project coordinated with the other Program Operator in developing a neutrally-branded single coordinated website (www.medtakebackwashington.org) which launched on December 29, 2022. The single coordinated website had 108,257 total visits to the site from 47,853 unique visitors during the Reporting Period.

MED-Project reached out to 40 local health jurisdiction contacts on November 3, 2023, to provide information about the supplemental services available in population centers where Collection Sites are not established. This communication was also used to determine if local health jurisdiction preferences for supplemental services available in their communities have changed since the initial consultation was conducted in 2020. MED-Project received 15 responses during and after the Reporting Period. 100% of the respondents supported a public facility, such as a town hall or library, that offers Mail-Back Packages to residents on an ongoing basis, year-round. Additionally, 93% of the respondents supported an outreach campaign to raise awareness with residents about how to request Mail-Back Packages, targeted at households in incorporated cities and towns in the State. The responses MED-Project received were consistent with the supplemental services MED-Project currently provides.

During the Reporting Period, MED-Project maintained a community feedback questionnaire on the community feedback page of the website and collected feedback via email at washington@medproject.org

MED-Project received three completed community feedback questionnaires from residents during the Reporting Period. Of the three respondents, two found Program services were easy to locate, and two expressed a preference for dropping off unwanted medicine in a kiosk at a pharmacy or Law Enforcement Agency (LEA). However, none of the respondents had utilized the program.

Additionally, MED-Project received two feedback emails from residents, which were addressed by MED-Project call center staff. Both emails were in response to residents' inability to drop off medication due to full or locked kiosks. Follow-up actions were taken in both instances to resolve the issues.

Due to the limited responses from the community feedback questionnaire and the low number of emails, MED-Project did not implement any changes to the Program during the Reporting Period.

VII. Packaging Recycling

Approved Plan Section X: “A description of how collected packaging was recycled to the extent feasible.”

Regulation Section 246-480-080(2)(I): “A description of how collected packaging was recycled to the extent feasible.”

As described in the Approved Plan, while drug packaging is expected to constitute a significant amount of the waste incinerated under the Approved Plan, MED-Project has concluded that separation of inner and/or outer packaging from Covered Drugs or recycling packaging would raise three significant concerns:

1. Separating and recycling drug packaging could result in the disclosure of confidential patient information appearing on prescription drug packaging.
2. Separating and recycling drug packaging could increase the potential of releases and leakage of Covered Drugs.
3. Separating and recycling drug packaging could increase diversion risks by adding additional steps to the collection process and because drug packaging is used in drug counterfeiting and would be a diversion target itself.

For these reasons, the Approved Plan does not provide for the separation and recycling of packaging from Covered Drugs.

VIII. Program Goals

Approved Plan Section X: *“A summary of the Program's goals for collection amounts and public awareness, the degree of success in meeting those goals, and, if any goals have not been met, what effort will be made to achieve those goals the following year.”*

Regulation Section 246-480-080(2)(m): *“A summary of the program's goals for collection amounts and public awareness shall include:*

- (i) Description of goals for the reporting year;*
- (ii) Description of goals for the following year, including identification of any unmet goals carried forward; and*
- (iii) Description of how program operator calculates or quantifies progress toward goals, including any percentages included in goals.”*

Regulation Section 246-480-080(2)(n): *“A summary of degree of success in meeting goals shall include description of why goals were not met and what effort program operator will make to achieve those goals the following year.”*

A. Collection Amount Goals

Per the Approved Plan, MED-Project estimated the typical full-year collection to be 300 pounds per Collection Site. MED-Project collected 176,693.8 pounds of Covered Drugs from 599 Collection Sites during the Reporting Period. MED-Project collected on average approximately 300 pounds of Unwanted Medicine from 599 Collection Sites during the Reporting Period to meet the 2023 collection goal. MED-Project collected a total of 179,709.1 pounds through all collection methods during the Reporting Period. This performance demonstrates MED-Project's high degree of success in meeting this goal. Additionally, MED-Project submitted an updated plan on July 1, 2024, that includes proposed updated collection goals that would be applied for the 2024 reporting period. The updated plan is currently awaiting approval from the DOH.

B. Public Awareness Goals

During the Reporting Period, MED-Project sustained continued outreach throughout the State designed to be viewed by 50% of State residents over the age of 18. MED-Project met that public awareness goal using the following media channels:

- Broadcast television
- Radio broadcast
- Print media
- Digital media
- Social media

There were three media campaigns conducted during the Reporting Period that achieved reach results of 68%, 19%, and 2%, respectively. For additional information about media campaigns, please see Appendix O, Media Outreach Summary.

Additionally, MED-Project submitted an updated plan on July 1, 2024, that includes proposed updated public awareness goals that would be applied for the 2024 reporting period. The updated plan currently is awaiting approval from the DOH.

IX. Program Expenditures

Approved Plan Section X: "The Program's annual expenditures itemized by the following categories, consistent with WAC 246-480-040(5) and WAC 246-480-080(2):

Administrative costs.

Collection and disposal costs.

Communications costs."

Regulation Section 246-480-080(2)(o): *“The program's annual expenditures, itemized by program category shall be organized using the criteria described in WAC 246-480-040(5).”*

See Appendix R; Table 20, Annual Expenditures

Appendix A

Safety and Security Report

Event 1

Date: February 9, 2023

Location: Issaquah County, Washington

Description: An Authorized Collector located in Issaquah County, Washington reported that the Collection Receptacle hopper was not locked after the pharmacy closed for the day. The Authorized Collector reported that the Collection Receptacle was subsequently filled during the time the retail operation was open for business and while the pharmacy was closed. The pharmacy manager contacted the MED-Project Help Desk requesting service for the filled Collection Receptacle.

Corrective Actions Taken: MED-Project completed the service of the Collection Receptacle and sent a bulletin with education on Drug Enforcement Agency requirements regarding Collection Receptacle management including when Collection Receptacles are to be available to the public.

Event 2

Date: April 3, 2023

Location: King County, Washington

Description: A Covered Drugs box and liner originating from King County, Washington, became damaged in transit with the Carrier, causing the liner to become separated from the box. A Carrier employee opened the liner to determine the contents per Carrier internal procedures and used information from the contents of the liner to contact a MED-Project Collection Site. The Collection Site provided to the Carrier employee the telephone number of the MED-Project Help Desk. The Carrier Security Supervisor contacted the MED-Project Help Desk to request shipping instructions for the liner. MED-Project directed its reverse distributor vendor (the "Vendor") contact the Carrier Security Supervisor and to provide shipping instructions for the liner. The Vendor subsequently confirmed receipt and destruction of the liner.

Corrective Actions Taken: The Vendor arranged to have its telephone number printed on the inner liners to facilitate direct communication between the Carrier and the Vendor if an inner liner becomes separated from the box or the label on the box gets damaged during transit.

Event 3

Date: July 28, 2023

Location: Pierce County, Washington

Description: On July 28, 2023, MED-Project became aware of an event which occurred during the collection of Covered Drugs. An On- Demand Collection Service Collection Site requested maintenance for a broken top lock on the Collection Receptacle. The maintenance Vendor noted that there were Covered Drugs accumulated in the Collection Receptacle without a box and liner and proceeded to repair the lock without removal of its contents. MED-Project instructed the site to lock the Collection Receptacle and place it out of service pending Rapid Response service. MED-Project then learned that the Collection Site pharmacist had removed the contents of the Collection Receptacle for processing according to the Collection Site's commercial waste procedures.

Corrective Actions Taken: MED-Project conducted a re-training for the Collection Site employees which covered aspects of managing the Collection Receptacle, including key security, proper documentation, and a reminder that MED-Project's Help Desk is available to assist 24 hours a day, 365 days a year.

Event 4

Date: September 19, 2023

Location: Pierce County, Washington

Description: A Collection Site in Pierce County, Washington ("Site One") contacted the MED-Project Help Desk to request Carrier pick-up of a Covered Drug box and liner (the "Box and Liner"). While fulfilling the request, MED-Project identified that the unique inner liner number associated with the Box and Liner was associated with another Collection Site within the same pharmacy chain ("Site Two") which had previously ceased operations. Through investigation, MED-Project determined that the Box and Liner was used at Site Two to collect Covered Drugs, removed from the Collection Receptacle, and sealed. However, rather than requesting Carrier pick up of the Box and Liner, Site Two transferred the Box and Liner to Site One, along with other supplies and inventory which were transferred from Site Two to Site One when Site Two ceased operations. The Box and Liner remained sealed and securely stored at all times pending Carrier pick-up at Site One.

Corrective Action Taken: The Box and Liner was picked up by the Carrier, delivered to the Reverse Distributor Vendor and destroyed.

Event 5

Dates: October 5, 2023 and December 8, 2023

Location: Pierce and Snohomish Counties, Washington

Description: MED-Project was notified by its reverse distributor vendor (the “Vendor”) of two shipping discrepancies for Covered Drugs boxes and liners (the “Boxes and Liners”) which were declared by the Carrier to be lost in transit during the reporting period. MED-Project understands that there have been rare exceptions in which the Carrier cannot deliver a package to its destination or return it to the shipper for reasons including, but not limited to, the loss of shipping information, such as a damaged shipping label. The Vendor has reported that the Carrier has policies and procedures for managing such packages, including destruction at a permitted medical waste incinerator.

Corrective Actions Taken: MED-Project requested the Vendor provide a detailed report of its investigation and findings including any information on the whereabouts of the Boxes and Liners. In addition, MED-Project requested from the Vendor: (1) any other outcomes from investigations into the apparent shipping discrepancies; (2) any reports Vendor makes regarding these apparent discrepancies to law enforcement or government agencies; (3) a description of any law enforcement or government agency involvement with these apparent discrepancies; (4) an explanation of any legal proceedings involving these apparent discrepancies, and (5) any changes in policy or procedures that Vendor has or is planning to make as a result of the apparent discrepancies. MED-Project is not aware of any changes made to Vendor policies, procedures, or tracking mechanisms.

MED-Project notified the Collection Sites (the “Sites”) on November 27, 2023 and January 15, 2024 respectively, and encouraged the Sites to evaluate any potential reporting obligations they may have to law enforcement, to the Washington State Pharmacy Quality Assurance Commission, and to the United States Drug Enforcement Administration. MED-Project also requested that the Sites provide MED-Project any Collection Receptacle inner liner step log, shipment receipts, and any other documentation regarding the Boxes and Liners.

MED-Project reported these shipping discrepancies to the Department on November 27, 2023, and January 15, 2024, respectively. MED-Project subsequently learned that the Box and Liner referenced in the November 27, 2023, notice to the Department was delivered to the reverse distributor Vendor on October 11, 2023. MED-Project provided an update to the Department on January 15, 2024.

MED-Project Public Promotional Materials Developed During the Reporting Period¹

Figure 2: MED-Project Brochure Front (English)

¹The MED-Project website was updated during the Reporting Period. Screenshots of the MED-Project website are provided in Appendix N; MED-Project Website Page Examples.

What should you do with your expired or unwanted medication?

Medicine helps treat disease, manage chronic conditions, and improve health and well-being for millions of Americans. Adhering to your medication routine means taking your medicine as directed by your healthcare provider or as indicated on the label or packaging—the right dose, at the right time, in the right way. Then, store it securely, and dispose of it safely, to prevent accidental ingestion or misuse by others, including children and pets.

MED-Project programs and services make it safe, free, and convenient for you to dispose of medication.

Use as Directed

Use medication as directed. If there are specific instructions on the label, package, or package insert, please follow those instructions. If you have any questions, ask your health care providers.

Store Securely

Follow storage instructions as provided on medicine labels and the information accompanying the medicine. Keep medications in a secure location, safely away from people or pets.

Dispose Safely

Check your medicine cabinet and remove all expired and unwanted medication. If you do not know if a drug is still safe, check with your pharmacist. Count medication to keep track of amounts. Drop off or mail back expired or unwanted medications for safe disposal.

Disposal of Household Medication

MED-Project provides safe, free, and convenient disposal options for household medications in your community.

Drop Box

Conveniently located drop boxes are available in your area. To find a drop box near you, visit the Find a Location section of medtakebackwashington.org.

Mail-Back

Mail-back packages are available in your area. All mail-back packages are pre-addressed with postage pre-paid. To order a Mail-back package, visit the Mail-Back section of medtakebackwashington.org.

MED-Project may have mail-back package distribution or informational sites in your area.

To find out more about the disposal options in your area, visit medtakebackwashington.org.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medication.

¿Qué se debe hacer con un medicamento caducado o no deseado?

Los medicamentos ayudan a tratar enfermedades, controlar afecciones crónicas y mejorar la salud y el bienestar de millones de estadounidenses. Cumplir con su rutina de medicamentos significa tomar su medicamento según las indicaciones de su proveedor de atención médica o según lo indicado en la etiqueta o el envase: la dosis correcta, en el momento correcto, de la manera correcta. Luego, guárdelo protegido y elimínelo de manera segura para evitar la ingestión accidental o el mal uso por parte de otras personas, incluidos niños y mascotas.

Los programas y servicios de MED-Project hacen que la eliminación de medicamentos sea segura, gratuita y conveniente para usted.

Ingerir según lo indicado

Ingiera el medicamento según las indicaciones. Si hay instrucciones específicas para la eliminación en la etiqueta, el envase o el prospecto, siga esas instrucciones. Si tiene alguna pregunta, consulte a sus proveedores de atención médica.

Almacenamiento protegido

Siga las instrucciones de almacenamiento provistas en las etiquetas de los medicamentos y en la información que los acompaña. Mantenga los medicamentos en un lugar protegido, lejos de personas o mascotas.

Eliminación segura

Revise su botiquín y elimine todos los medicamentos caducados y no deseados. Si no sabe si un medicamento sigue siendo seguro, consulte con su farmacéutico. Cunte los medicamentos para realizar un seguimiento de las cantidades. Deje o devuelva por correo los medicamentos caducados o no deseados para su eliminación segura.

Eliminación de medicamentos domésticos

MED-Project ofrece opciones seguras, gratuitas y convenientes para eliminar medicamentos domésticos en su comunidad.

Buzón

Buzones bien ubicados disponibles en su área. Para encontrar un buzón cercano, visite la sección Buscar una ubicación de medtakebackwashington.org.

Devolución por correo

Los paquetes de devolución por correo están disponibles en su área. Todos los paquetes de devolución por correo tienen la dirección y el franqueo prepagos. Para solicitar un paquete de devolución por correo, visite la sección Devolución por correo de medtakebackwashington.org.

MED-Project puede tener distribución de paquetes de devolución por correo o sitios informativos en su área.

Para obtener más información sobre las opciones de eliminación cercanas, visite medtakebackwashington.org.

Para proteger su privacidad, se les recuerda a los pacientes que eliminen toda la información de identificación personal de las etiquetas o los envases de los medicamentos antes de desechar los medicamentos no deseados.

What Can I Dispose Of?

Below are general guidelines for the products that will and will not be accepted in drop boxes.

Medicine

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicine.

Residents may also go to selected locations to request a Mail-Back Package for expired or unwanted medicine.

Accepted
Medications in any dosage form, except for those listed below, in their original container or sealed bag are accepted.

Not Accepted

- Herbal remedies
- Vitamins
- Supplements
- Cosmetics
- Other personal care products
- Batteries
- Mercury-containing thermometers
- Sharps
- Illicit drugs
- Pet pesticide products

If transferring medications to a sealed bag, please be sure to recycle remaining packaging.

Do not place medicine in the trash or recycling, and never flush them down the toilet.

Learn

Outreach and Education

Part of MED-Project's mission is to reach out to the local community and educate residents about the proper disposal of unwanted household medication.

Medicine helps treat disease, manage chronic conditions, and improve health and well-being for millions of Americans.

Take medication as directed by your health care provider and as indicated on the label or packaging, then store it securely, and dispose of it safely, to prevent accidental ingestion or misuse by others, including children and pets.

MED-Project's disposal services for your unwanted household medication are safe, free, and convenient.

For additional information on the program, MED-Project has developed an educational toolkit which includes the materials below.

Medicine Usage

Follow safe disposal instructions if found on the label, package, or package insert.

Adhering to your medication routine means taking your medicine as directed or as prescribed – the right dose, at the right time, in the right way.

Never dispose of medication down the sink or toilet unless directed.

If you have questions about any medication or your health, please contact your healthcare provider.

Safe Storage Information

It is important to take medication as prescribed by your health care provider and as indicated on the label or packaging.

Always be sure to store medicine securely to prevent accidental ingestion or misuse by others, especially children. If you have expired or unwanted household medication, proper storage and disposal are easy.

To protect your family, pets, and community, follow these instructions for secure storage and safe disposal.

Use as Directed

Use medication as directed. If there are any specific instructions on the label, package, or package insert, please follow those. If you have any questions, ask your healthcare providers.

Store Securely

Follow storage instructions as provided on medicine labels and on the information accompanying medicine. Keep medication in a secure location safely away from people or pets that might come in contact with them.

Dispose Safely

Check your medicine cabinet and remove all expired and unwanted medication. If you do not know if a drug is still safe, check with your pharmacist. Count medication to keep track of amounts. Drop off or mail back expired or unwanted medications for safe disposal.

Please separate and remove any items and medication that are not accepted before disposing.

Do not place medicine in the trash or recycling and never flush them down the sink or toilet.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicine.

Take-Back Events

Local take-back events offer residents a safe, free, and convenient way to dispose of expired or unwanted household medication. The local authorities and MED-Project may also sponsor local drug take-back events in your area.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicine.

Brochure – Medicine Program

Outreach and Education

Part of MED-Project's mission is to reach out to the local community and educate residents about the proper disposal of unwanted household medication.

Are You Done With Those?

Safe and Free Medication Disposal. We Make it Easy for You!

What should you do with your expired or unwanted medication?

Medicine helps treat disease, manage chronic conditions, and improve health and well-being for millions of Americans. Adhering to your medication routine means taking your medicine as directed by your healthcare provider or as indicated on the label or packaging—the right dose, at the right time, in the right way. Then, store it securely, and dispose of it safely, to prevent accidental ingestion or misuse by others, including children and pets.

MED-Project programs and services make it safe, free, and convenient for you to dispose of medication.

Use as Directed

Use medication as directed. If there are specific instructions on the label, package, or package insert, please follow those instructions. If you have any questions, ask your health care providers.

Store Securely

Follow storage instructions as provided on medicine labels and the information accompanying the medicine. Keep medications in a secure location, safely away from people or pets.

Dispose Safely

Check your medicine cabinet and remove all expired and unwanted medication. If you do not know if a drug is still safe, check with your pharmacist. Count medication to keep track of amounts. Drop off or mail back expired or unwanted medications for safe disposal.

Disposal of Household Medication

MED-Project provides safe, free, and convenient disposal options for household medications in your community.

Drop Box

Conveniently located drop boxes are available in your area. To find a drop box near you, visit the Find a Location section of med-project.org or medtakebackwashington.org.

Mail-Back

Mail-back packages are available in your area. All mail-back packages are pre-addressed with postage pre-paid. To order a Mail-back package, visit the Mail-Back section of med-project.org or medtakebackwashington.org.

MED-Project may have mail-back package distribution or informational sites in your area.

To find out more about the disposal options in your area, visit med-project.org or medtakebackwashington.org.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medication.

What items can I dispose of in a drop box?

Please separate and remove any items and medication that are not accepted before disposing.

Accepted: Medications in any dosage form, except for those identified as Not Accepted below, in their original container or sealed bag.

If transferring medications to a sealed bag, please be sure to recycle remaining packaging.

NOT Accepted: Herbal remedies, vitamins, cosmetics, batteries, mercury-containing thermometers, sharps, and illicit drugs.

To learn more about items that are not accepted in your area, visit med-project.org or medtakebackwashington.org.

For more information about the MED-Project Program, visit med-project.org or call 1 (844) MED-PROJECT or 1 (844) 633-7765 (TTY: 711) or visit medtakebackwashington.org or call 1-844-4-TAKE-BACK (TTY: 711).
