NSF Certified, PFAS-Reducing Water Filter Brands (Point-of-Use Type)

[NSF](#) is an independent organization that sets standards for the performance of water filters and other products. NSF and a few other organizations perform lab testing of the filters to verify they meet the criteria to be certified. For additional information about ensuring your filter is certified to NSF standards and other PFAS home water treatment topics, see [Home Water Treatment for PFAS 331-699 \(PDF\)](#). **PFAS Certification Standard: "PFOS+PFOA"** means that an initial concentration of 1,500 ppt of PFAS +PFOA is reduced to 70 ppt or less. The **"Total PFAS"** standard means that initial concentration of 2,160 ppt of a mixture of PFOS, PFOA, and a number of other PFAS compounds is reduced to 20 ppt or less. It's important to note that the current certification standards for PFAS filters do not yet indicate that a filter will remove PFAS down to the levels EPA has now set for a drinking water standard. EPA is working with standard-setting bodies to update their filter certifications to match EPA's new requirements. In the meantime, remember that reducing levels of PFAS in your water is an effective way to limit your exposure.

Filters listed below are not endorsed by DOH. This is not intended to be a list of every filter approved to NSF standards for PFAS removal. We updated this information in June 2025. Check the manufacturer website for the most current information. Do-it-yourself installation instructions are included with all units, but some people may want a plumber's help.

Company	PFAS Filter Model	Filter Type	Filter Cost	Filter Lifespan (Replacement Schedule)	Water Flow Rate	Replacement Filter Cost	Additional Considerations	PFAS Certification Standard
Culligan	US-EZ-4	Under Sink 	\$98	500 gallons or 6 months	1/2 gallon per minute	\$41 (model # RC-EZ-4)	2 Year Warranty	PFOS+PFOA
Multipure Aquaperform	MP880	Under Sink 	\$785	600 gallons or 6 months	1 gallon per minute	\$150	1 year warranty	PFOS+PFOA
Aquasana Claryum 2-Stage	AQ-5200	2-Stage Filter Under Sink 	\$249	500 gallons or 6 months	1/2 gallon per minute	\$70	1 year warranty	PFOS+PFOA

Company	PFAS Filter Model	Filter Type	Filter Cost	Filter Lifespan (Replacement Schedule)	Water Flow Rate	Replacement Filter	Additional Considerations	PFAS Certification Standard
Aquasana Aquasana Clean Water Machine Powered Counter-top Water Filter	AQ-CWM2-B	Counter-Top Unit 	\$319	300 gallons or 6 months	1/2 gallon per minute	\$60 (two pack)	1 year warranty (2-pack of filters provided with unit)	PFOS+PFOA
Aquasana 3-Stage Fast Flow Rate Under Sink Water Filter Aquasana	AQ-5300+.55	3 Stage Filter, under sink with dedicated faucet 	\$450	800 gallons or 6 months	3/4 gallon per minute	\$88 (set of three)	1 year warranty	PFOS+PFOA
Cyclopure Purefast™ Cyclopure	Purefast	Filter Cartridge for Brita Pitcher 	\$45	65 gallons per filter	1 pitcher load of water takes about 20 min to filter	\$40 per filter	Fits inside a Brita water filter, Brita pitcher is not included. Filters come with prepaid return shipping for used filters.	Total PFAS

Company	PFAS Filter Model	Filter Type	Filter Cost	Filter Lifespan (Replacement Schedule)	Water Flow Rate	Replacement Filter Cost	Additional Considerations	PFAS Certification Standard
Hydrowiv Hydrowiv Filters For Your Home Hydrowiv		Can be installed on Fridge/ Freezer or Under Sink connected to existing faucet. 	\$247 each	6 months	3/4 gallons per minute	\$91	Filters are optimized for water quality in your area	PFOS+PFOA
KineticoPRO KPMF HC610-PFAS Series, 10" PFOA/ PFOS reduction filter cartridge KineticoPRO	HC Series KPMF HC610 -PFAS	Under sink, connected to existing faucet 		2,000 gallons	2 3/4 gallons per minute		Contact the company directly for cost Water-Care@KineticoPRO.com	PFOS+PFOA
Pentair ChlorPlus Protect 10 System (pentair.com)		Under sink, connected to existing faucet 	\$150	1,000 gallons	1 gallon per minute	\$75	Filters all water from the tap	Total PFAS
Pentair FreshPoint Series 2-Stage Pentair			\$215	675 gallons	0.6 gallons per minute	\$92		Total PFAS

Reverse Osmosis Filter Options (Point-Of-Use Filters)

Below are some examples of RO filters on the market. Note that RO filters block PFAS from entering your tap water but send the blocked PFAS to your septic tank or sewer where PFAS can re-enter the environment. RO systems also waste water. On average, three to four gallons of water are sent down the drain for every one gallon of filtered water.

Company	PFAS Filter Model	Filter Type	Filter Cost	Filter Lifespan (Replacement Schedule)	Water Flow Rate	Replacement Filter Cost	Additional Considerations	PFAS Certification Standard
Aquasana Reverse Osmosis Under Sink Drinking Water Filter Aquasana	AQ-RO-3.55	Under sink unit	\$360	Filter lasts 365 gallons or 6 months, membrane lasts 1 year	25 gal/day	Filter: \$70 Membrane: \$60 Remineralizer: \$40	2 year warranty	PFOS+PFOA
EcoWater Reverse Osmosis System Yakima	ERO-385	Under sink unit	\$1,150 Installed	Filters last 6-12 months, membrane lasts 3-5 years	50 gal/day	Filter \$51 Membrane \$180		PFOS+PFOA
EcoWater Reverse Osmosis System Spokane	HERO-385	Under sink unit	\$1,950 Installed	Filters last 6-12 months, membrane lasts 3-5 years	50 gal/day	Filter \$139 Membrane \$200		PFOS+PFOA
Delta Clarifi Tankless Reverse Osmosis System	DWQ-1001012	Under sink unit	\$1,142	2 years	600 gal/day	\$174		Total PFAS
