

Coordinated Water System Plans of Washington State

Local governments administer the Coordination Act through permitting processes and Coordinated Water System Plans (CWSPs) under RCW 70.116. In areas where a local government has adopted a CWSP, applicants seeking to develop a new water system located within an existing water system's future service area must first request service from the existing system.

Coordinated Water System Plans			
Whatcom	1	Thurston	15
Eastsound	2	Yelm	16
San Juan	3	Rainier	17
