SALMON RECOVERY STRUCTURE

COAST SALMON PARTNERSHIP LOWER COLUMBIA FISH RECOVERY BOARD

RESTORATION = MULTIPLE BENEFITS

Natural shorelines and estuaries filter pollutants, support shellfish and shelter salmon

Reconnected floodplains reduce flood risks for communities

Clean and reliably available water is essential for drinking water, irrigation, swimming and boating

Healthy forests absorb carbon, offer refuge for wildlife, and provide economic opportunity for rural communities and recreation for outdoor enthusiasts

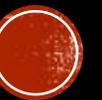

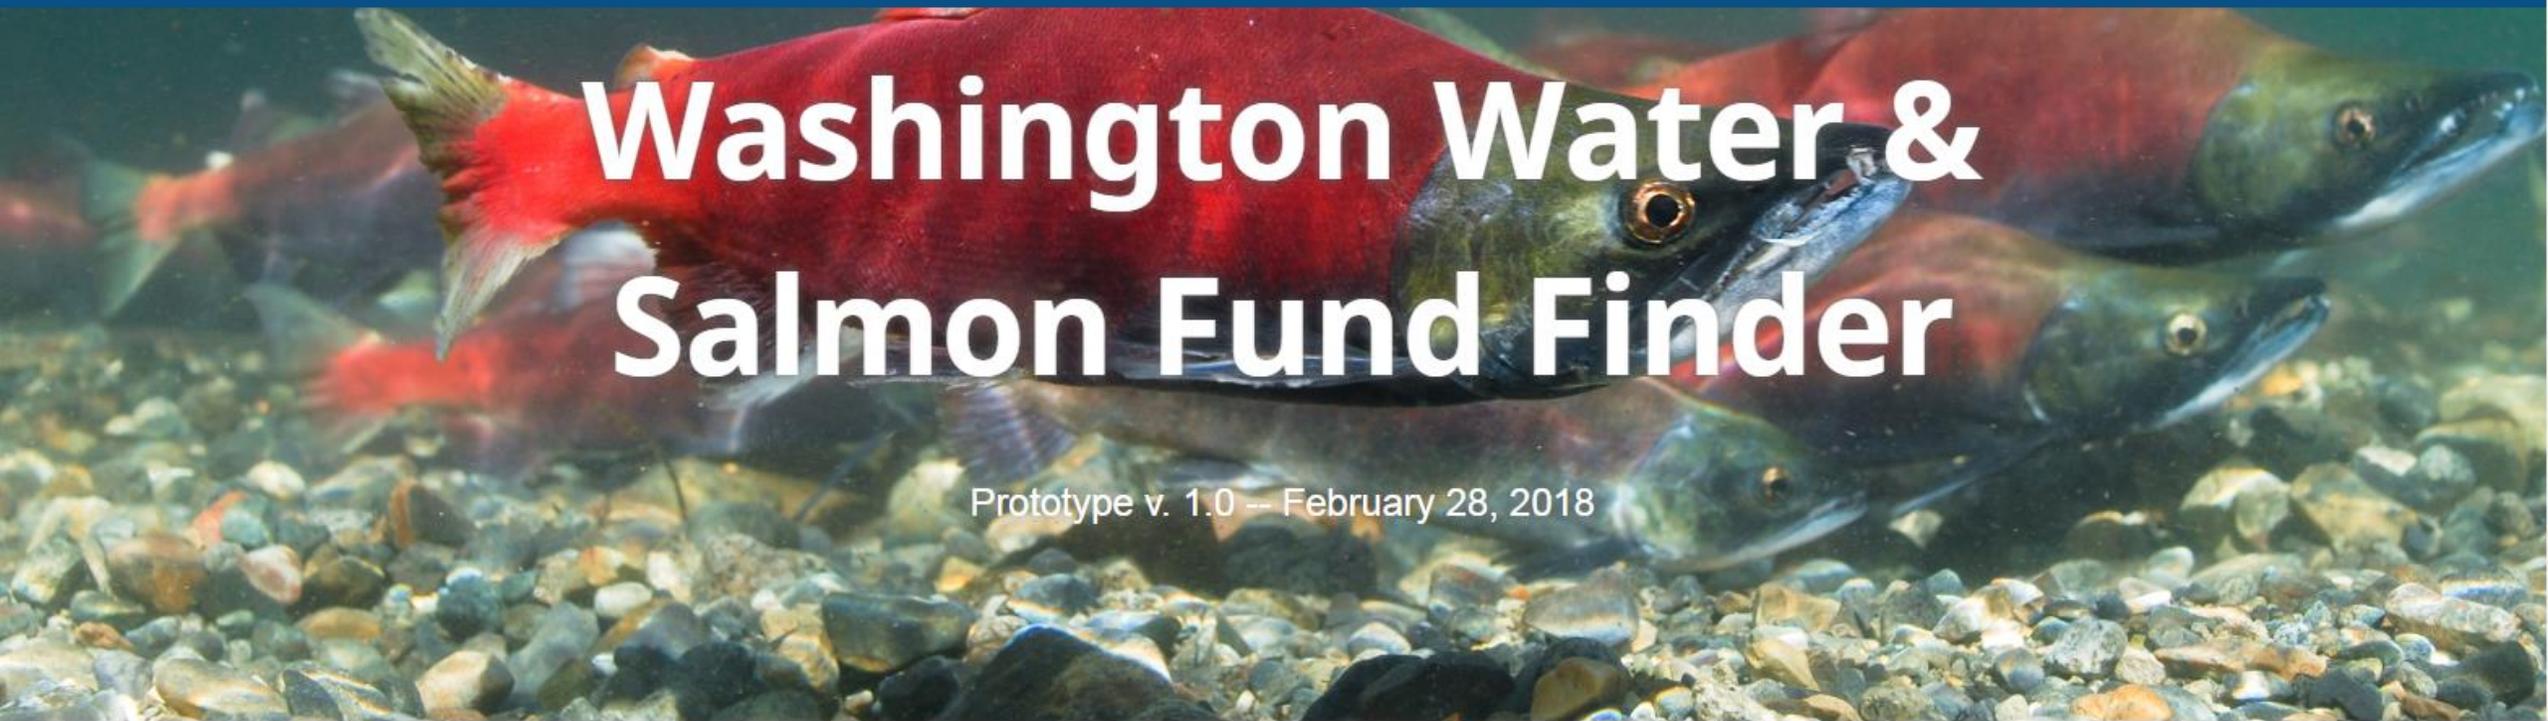

Free flowing rivers with intact floodplains provide complex natural habitat for fish, plants and animals

FUNDING OPPORTUNITIES

- [Washington Water & Salmon Fund Finder](#)
- NOAA Coastal Resilience Grants
- Salmon Recovery Funding Board Grants
- Brian Abbott Fish Barrier Removal Board Grants
- Washington Coast Restoration and Resiliency Initiative Grants
- Centennial Grants – Water Quality
- Clean Water State Revolving Loan Fund – Water Quality
- Coastal and Marine Habitat Restoration Grants
