

STATE OF WASHINGTON
SITE USE PERMIT FEE SCHEDULE
FOR THE COMMERCIAL LOW-LEVEL RADIOACTIVE WASTE
DISPOSAL SITE, RICHLAND, WASHINGTON

Renew a Permit

Generators, except nuclear utilities, who have previously held a site use permit for disposal of NARM, Exempt, or Low-Level radioactive wastes at the Richland site, must determine the **total volume** of waste disposed by their organization in the **most recent complete calendar year** in which the organization held a permit.

Using this volume figure, the Site Use Permit fee may be determined by referencing the table below.

- If you are a current permit holder, the Department of Health must receive your renewal application and payment by the cut-off dates below, or a \$1,000 reinstatement fee must be included with your application.
 - Brokers and Low-Level waste site use permits must be postmarked by the **last day of February**.
 - Exempt and NARM waste site use permits must be postmarked by the **last day of March**.

Generators applying for a permit for the first time must estimate the volume of waste which they plan to dispose of during the period of:

- March 1 through February 28 - Low-Level waste generators
- April 1 through March 31 - NARM and Exempt waste generators

Using this volume figure, the Site Use Permit fee may be determined by referencing the table below.
