

See It, Say It, Save a Stomach

Report Unsafe or Unlicensed Food

Your voice can stop the spread!

If you see food being sold in unsafe conditions, reporting it can protect your family and neighbors. Speaking up is one of the best ways to stop unsafe food practices in your community.

When to report:

- Food sold without a permit (at events, online, or in person).
- Food prepared in unsafe or dirty conditions.
- People getting sick after eating somewhere.

How to report:

- Use the Foodborne Illness Notification System (FINS) online (www.doh.wa.gov/foodillness).
- Or call your local health department (www.doh.wa.gov/localhealthfoodcontacts).

Play it Safe:

- Unsafe food spreads quickly. One report could protect dozens of people.
- See it, say it, save a stomach. Together, we can keep our communities safe.
