Department of Health
Certificate of Need Program
P.O. Box 47852
Olympia, WA 98504-7852

Dear Department of Health:

Pursuant to WAC 246-310-080 we send this letter of intent with explanations.

Spokane Surgery Center is owned and operated by Spokane Podiatry, PS. This is an existing ASC, in the Spokane County service area, operating under a Certificate of Need exemption (Determination of Reviewability DOR20-04 issued by the department October 4, 2019), but due to steady and continued growth in surgical volume from our podiatrists and pain management physician, we will be exceeding the threshold of 50% revenue and numbers of visits generated by surgery. Based on the instructions sent to the ASC by the Department on July 10, 2025 (Determination of Reviewability #25-07 – Department's Decision) we feel it best to apply for a Certificate of Need.

As the ASC is currently in operation, and as no new rooms or services will be added, there is no cost to the project.

The service area is Spokane County.

We look forward to working with the Department of Health as we prepare and submit our application for Certificate of Need.

With warm regards,

Darron Woolley, DPM, FACFAS
Managing Partner
Spokane Podiatry, PS
