

Transfer Record- Vp Requirements

Transfer Record/Transportation Document

All shellstock being sold from a harvester (HA) to a dealer (SS or SP) must have a record of sale. Depending on the type of shellstock and time of the year, requirements will vary. This document specifically addresses what documentation is required during Vibrio season when oysters are being sold from a HA to a SS or SP.

Oysters Shipped greater than 50F from May 1st through September 30th (Example #1)

The document must have the following information:

1. The date of harvest.
2. The time of harvest (time the first oyster was removed from the water or exposed to the air by the receding tide).
3. The air temperature at the time of harvest.
4. The water temperature at the depth of the oysters or an internal meat temperature of the product being harvested.
5. The risk category for the harvest area.
6. The total number of hours for time to cooling per the risk category.

Oysters Shipped less than 50F from May 1st through September 30th (Example #2)

If oysters are cooled before transfer the harvester must include the following:

1. The date of harvest.
2. The time of harvest (time the first oyster was removed from the water or exposed to the air by the receding tide).
3. The air temperature at the time of harvest.
4. The water temperature at the depth of the oysters or an internal meat temperature of the product being harvested.
5. The risk category for the harvest area.
6. The temperature the product was cooled to.
7. The time the temperature was taken.
