

Protect Your Child from Cancers Caused by HPV

Age 9 to 12 Years | Safe | Effective

Protects both boys and girls

Stronger protection at younger ages

Only 2 doses needed

HPV vaccine prevents most cases of:

Boys

- Mouth and throat cancer
- Penis cancer
- Anus cancer
- Genital warts

Girls

- Cervical cancer
- Mouth and throat cancer
- Anus, vagina, & vulva cancer
- Genital warts

VACCINATE AT 9-12

Give your child long-lasting protection from HPV cancers.

The HPV vaccine is part of the Washington State Childhood Vaccine Program. This program pays for the HPV vaccine for youth under 19 years of age.
