**Re: Collaborative- Office of Immunization Data Dashboard Tribal Listening Sessions**

Greetings Honorable Tribal Leaders, Partners, and Professionals:

In accordance with chapter [43.376 RCW](#), the [Washington State Centennial Accord of 1989](#), and [DOH Consultation and Collaboration Procedure](#), we invite collaboration on a detailed dashboard tool that the Washington State Department of Health (WA-DOH) Office of Immunization is developing.

This tool, containing routine childhood vaccine administration data, is for public health authorities to use internally when planning or evaluating public health programs and for conducting community assessments. The data is organized by administering facility, includes Tribal facilities, and shows facility names and addresses.

We would like to hear from Tribes and Tribal public health analytic staff about interest in using the tool, concerns about Tribal data use, input on draft user guidance and any other constructive feedback that advances vaccine equity. Please see these two opportunities to join us for Tribal listening sessions:
