Ryan White Part B Clinical Quality Management Plan Addendum

Addendum Number: CQM - 001
Effective Date: July 1, 2026
Related Clinical Quality Management Plan: DOH 150-196 June 2026
Department: HIV Community Services
Prepared By: Karlos Johnson/Clinical Quality Management Coordinator
Approved By: Abigail George/HIV Community Services Manager

1. Purpose

This addendum supplements the Ryan White Part B Clinical Quality Management Plan (DOH 150-196 June 2026). The purpose of this addendum is to document modifications to quality management activities, responsibilities, monitoring processes, and quality metrics.

2. Scope

This addendum applies to all Ryan White Part B subrecipients, contractors, vendors, and quality management staff involved in the oversight, monitoring, and execution of the plan identified above.

3. Background

The organization identified the need to revise quality management procedures due to:

- State Quality Management Improvement Plan
- External Quality Management Committee Members
- Clinical Quality Improvement Measurement
- National Goals

4. Addition - Ryan White Part B Clinical Quality Management Plan

State Quality Management Improvement Plan

Our current Quality Improvement (QI) project focuses on the development and implementation of AIDS Drug Assistance (ADAP) performance measures. This QI project will be led by our internal

Clinical Quality Management (CQM) Committee within HIV Community Services. We are currently in the Study phase of the Plan, Do, Study, and Act (PDSA) cycle, where we collect and monitor performance data. Once we have accumulated 1 year of ADAP performance measure data, we will move into the Act phase to analyze results, evaluate trends, identify opportunities for improvement, and determine next steps for ongoing quality enhancement.

5. Revision - Ryan White Part B Clinical Quality Management Plan

External Quality Management Committee Members

As of 2026, People of Color Against AIDS Network (POCAAN) is no longer a CQM External Committee Member but remains a community resource.

Clinical Quality Improvement Measurement

As of October 2025, 2 HAB Core Performance Measures have been archived and are no longer applicable for Health Resource and Services Administration (HRSA) HIV/AIDS Bureau (HAB) Performance Measures. The measures are:

- Gap in HIV Medical Visits measure
- Medical Visit Frequency

National Goals

As of October 2025, HIV Community Services will remove Retention In Care as a common indicator for performance measurement.

6. Approval
