At least 50 percent of the voting members are nursing staff who are nonsupervisory/nommangerial, currently providing direct patient care. >The selection of HSC nursing staff members is according to the collect	•			connection with the UCC as any		
COMMITTEE (HSC) STRUCTURE, STATEMENT OF PURPOSE, MEMBERSHIP Section 1 HSC Purpose Purpose This hospital staffing committee (HSC) is established by Skyline Hospital to convene direct care nursing staff and hospital administration to participate in a joint process regarding decisions about direct care nurse staffing practices to promote quality patient care, safety for patients and staff, and greater retention of nursing staff. The committee uses pertinent organizational and other data for consideration in developing the Hospital Staffing Plan and analyzing nurse staffing. Section 2 HSC Responsibilities Socion 2 HSC Responsibilities of the HSC are: 1. Develop and oversee the annual patient care unit and shift-based hospital staffing plan (HSP) for nursing staff, including registered nurses, licensed practical nurses, certified nursing assistants, and unlicensed assistive nursing personnel providing direct patient care based on the needs of patients. 2. Review and evaluate the effectiveness of the staffing plan semi-annually against patient needs and known evidence based staffing information, including identified factors considered in staffing plan development and nurse-sensitive quality indicators collected by the hospital. 3. Review, assess, and respond to staffing plan: Emergency Department, Acute Care, Surgery *The staffing plan includes acute care hospital areas (licensed under RCW 70.41) and state hospital administration. At the staffing plan includes acute care hospital of (4) direct care nursing staff and (4) from hospital administratio

	>The nursing staff co-chair is selected	ed under the direction of the collective	bargaining agreement(s) as guided by the	e selected HSC nursing staff members		

>The administrative co-chair is selected by the hospital administration (CNO).

>If an HSC co-chair or member is unable to fulfill the duties of their role, a new individual is selected using the process outlined above.

Other attendees

The following job classes will be represented on the HSC as nonvoting patient care staff members: Any direct patient care staff may attend as per guidelines.

(HSC co-chairs and HSC members determine attendance of others with consideration given to hospital policy, collective bargaining agreement, memoranda of understanding, etc.)

>Interested non-members who are unable to attend a meeting are encouraged to share their input with an HSC member who may represent their interests during the meeting.

> Committee co-chairs may limit HSC attendance to committee members for all or a portion of meetings as deemed appropriate by the co-chairs.

> Labor representative of WSNA as non-voting member

COMMITTEE (HSC) ROLES AND RESPONSIBILITIES

Section 4 HSC Roles and Responsibilities

Co-chairs (or designee)

HSC co-chairs serve for a period as determined by WSNA for direct care co-chair and Employer for hospital administration co-chair. Co-chairs duties include, but are not limited to:

• Schedule HSC meetings to optimize attendance. Ensure HSC member notification of accurate meeting date, time, and location.

- Provide new HSC member orientation and ongoing training to members.
- Track meeting attendance of members. Ensure adequate quorum for each meeting and address non-attendance (as specified by charter).
- Develop the agenda for each meeting with input from the HSC members.

• Maintain complete and accurate committee documentation, including but not limited to meeting minutes, complaint review log, annual staffing plan, staffing plan updates, and actions taken. Comply with meeting documentation retention consistent with hospital's policy.

• Facilitate review of factors to be considered in the development of the staffing plan. Ensure review of staff turnover rates (including new hire turnover rates during the first year of employment) quarterly, anonymized aggregate exit interview data on an annual basis, hospital plans regarding workforce development, and patient grievance submissions related to hospital staffing.

• Facilitate development and semi-annual review of the HSP. Present the annual staffing plan and any semi-annual adjustments to the CEO for review and approval. Ensure timely submission of the plan to the DOH following HSC and CEO approval.

• Facilitate respectful and productive discussions and moderate as needed.

• Organize review of staffing complaints and ensure adherence to the complaint management process (specified in the charter) to facilitate the best use of time during the HSC.

• Acknowledge receipt of staffing complaints by communicating with the staff member who submitted the complaint.

• Extend a written invitation to the employee and manager 14 days in advance of the meeting when the complaint (involving the employee) is scheduled to be discussed. Include notification that a labor representative may attend at the employee's request.

• Ensure closed-loop communication occurs following committee review of a staffing complaint via written response to the staff member who submitted the complaint including the outcome of the complaint after committee review.

• (Other duties as determined by the committee)

Hospital Staffing Committee Members

HSC committee member responsibilities include, but are not limited to:

• Complete new member orientation and participate in on-going education as recommended by committee co-chairs.

• Attend committee meetings consistently.

• Notify committee co-chairs if unable to attend a HSC as specified by charter.

•For direct care staff, notify direct supervisor if HSC meetings are scheduled during a scheduled shift as outlined in the charter so that coverage can be arranged.

• Participate actively in committee meetings, including reading required materials in advance of the meeting as assigned, coming prepared for meetings, and engaging in dialogue.

• Remain open-minded and solution-focused and earnestly engage in collaborative/cooperative problem-solving process.

Model solution-focused communication both in committee meetings and when discussing staffing concerns with peers.

• Serve as a committee ambassador to gather input from peers and share with the HSC to inform decisions and assist peers in understanding the process for developing staffing plans and reviewing complaints.

• Encourage peers to effectively communicate staffing concerns through the process established by the committee to best facilitate collaborative problemsolving.

• Communicate urgent staffing concerns that arise between meetings with unit-based leadership and committee co-chairs.

• (Other duties as determined by committee)

HSC MEETING MANAGEMENT

Section 5 HSC Meetings, Management, and Attendance

Meeting Schedules and Notification

The HSC meets monthly, on the last Friday of the month at 1000 unless otherwise notified, or more often if needed, to achieve objectives of the committee in compliance with RCW 70.41.420. Meeting dates and times are set by the committee co-chairs with input from committee members. Committee members will receive at least 30 day's notice of meeting via Skyline email.

>Meeting participation by HSC members is scheduled work time and compensated at the appropriate rate of pay. Members are relieved of all other work duties during meetings. Whenever possible, meetings are scheduled as part of members' normal full-time equivalent hours.

>It is understood that meeting schedules may require members to attend on their scheduled day off. In this case, staff may be given equivalent time off during another scheduled shift or are compensated at the appropriate rate of pay.

> Staffing relief is provided (when necessary) to ensure committee members are relieved of their duties to attend meetings. Members are responsible for notifying the HSC co-chairs if they are scheduled to work when a committee meeting is scheduled. Members should notify the Co-Chairs within 1 week if they are not able to attend. A Co-Chair member will assist with finding a replacement or rescheduling.

> HSC members will be provided with pre-determined meeting dates for the Calander year, and work with scheduler to ensure availability to attend HSC meetings.

>The HSC and co-chairs have agreed that remote / hybrid attendance for HSC meetings is acceptable.

Contingency Staffing Plan

>In the event of an unforeseeable emergent circumstance lasting for 15 days or more, the hospital incident command will provide a report to the hospital staffing committee co-chairs within 30 days including an assessment of the staffing needs arising from the unforeseeable emergent circumstance and the hospital's plan to address the identified staffing needs.

>Upon receipt of this report the hospital staffing committee will convene to develop a contingency staffing plan.

HSC Member Orientation

Newly selected staffing committee members receive basic orientation related to hospital quality improvement strategy, the organizational budgeting process and relevant reports, current applicable hospital staffing laws, committee structure and function, and member duties.

>Initial orientation is provided by committee co-chairs with ongoing education provided to all members as needed. Completion of new member orientation is a condition of committee membership. Each Co-Chair will be responsible for training their perspective new members.

> Committee co-chairs will review orientation materials annually and update as needed.

Quorum

Quorum is the minimum acceptable number of voting HSC members required to make the proceedings of the meeting valid. Establishing a quorum ensures sufficient representation at meetings before changes can be proposed or adopted.

>A Quorum will be defined for these purposes as a minimum of 60% of attendees with equal representation of both Administration and direct patient care staff.

> A quorum is established before the committee takes a vote on all voting matters, including staffing plan approval or revision.

> A quorum is preferred for review of staffing complaints, though co-chairs may elect to move forward with presence of fewer than 60 percent of voting members for purposes of timely processing of complaints.

> Attendance is taken at the beginning of each HSC meeting.

- Members unable to attend a meeting notify co-chairs via email prior to the meeting to allow for adjustments to maintain the quorum.

- HSC voting members are identified at the beginning of each meeting so that voting is undertaken with an equal number of direct care nursing staff and hospital administration members.

> If an HSC member is unable to attend, the Co-Chairs will attempt to replace the member with an approved substitute. The number of voting members is adjusted so that there is an equal number from direct care nursing staff and administration. In the case that a member cannot attend the perspective co-chair will attempt to find a replacement. If no replacement can be obtained the Co-Chair will decide if a quorum is obtainable.

Attendance and Participation

HSC members are expected to attend at least 75% of meetings held each year. Absences will be discussed with members, co-chairs, and management to see what obstacles are present and work to support the member in attending. Union representatives can replace members as needed and will work to ensure a quorum is present in all meetings.

>It is the expectation of the HSC that all members participate actively, including reading required materials in advance of the meeting as assigned and coming prepared to meetings.

>Up to one hour of preparation time per month will be compensated at the employees regular rate of pay.

Communication and Consensus

The HSC strives to resolve issues through collaboration.

Consensus is the primary decision-making model when a quorum is met and is used for approval of the annual staffing plan, changes to a staffing plan, classification of complaints, and other committee decisions. Should an issue need to be voted upon by the HSC, the action must be approved by a majority vote of a duly appointed HSC with an equal number of direct care nursing staff and administration present (not just the majority of the members present at a particular meeting). The following process will be utilized when a HSC vote is needed:

1. Interested individuals present information relevant to the topic.

2. An opportunity is provided for discussion, questions, and clarification.

3. Co-chairs indicate that the committee will vote on the matter, restating the proposal that will be voted on.

4. Members submit their vote via verbal vote.

Consensus is reached if there is a 50 percent plus one vote of a duly constituted HSC (with an equal number of voting representatives from direct patient care nursing staff and from administration).

Agenda

Meeting agendas are developed and agreed upon by the HSC co-chairs prior to each meeting and disseminated to HSC members (with meeting documentation) at least one week in advance of the upcoming HSC meeting. HSC members may request items to be added to the agenda either before or during the meeting. Non-member employees may request that a HSC member include an item on the agenda.

Items added to the agenda during a meeting will be addressed as time allows and moved to the next meeting agenda if there is inadequate time.

HSC standing agenda items are as follows:

1. Call to order/attendance.

2. Approval of documentation from previous meeting.

3. Agenda review (opportunity for additions).

4. Charter approval (annually or more often as needed).

5. Committee member education (annually and as needed).

6. Old business (review prior assignments, unresolved discussions, and agenda items rolled over from previous meeting).

- 7. Budget review (Quarterly)
- 8. Quality data report (quarterly)/HR report (Quarterly).
- 9. Proposed unit staffing plan changes (if any).
- 10. Hospital staffing plan review (including factors considered in development of the HSP semi-annually).
- 11. Progress reports (corrective action plans in progress).
- 12. Staffing complaint trend data.
- 13. New staffing complaint review & classification.
- 14. Assignments and agenda items for next meeting.

15. Adjournment.

Documentation and Retention

Committee co-chairs designate a scribe to take notes during each HSC meeting. Meeting documentation (approved by co-chairs with input from HSC members) is distributed to HSC members for review at least one week prior to the next HSC meeting.

Note: Public hospitals utilize hospital documentation policies that guide exclusion of information from meeting records that should not be subject to public disclosure, (Ex: confidential information or specific quality data.) Committee co-chairs review the HSC notes for this confidential information prior to committee approval.

Meeting documentation includes, (but is not limited to):

- HSC meeting attendance and identification of voting members present.
- Approval of previous meeting documentation.
- Summary of member education provided during the meeting.
- The outcome of any votes taken during the meeting.
- Topics discussed during the meeting with action items and member assignment(s).

• Review/disposition/action taken on staffing complaints reviewed during each HSC meeting with tracking on the complaint spreadsheet.

Written documents containing confidential information are not removed from the meeting or shared with individuals who are not members of the HSC. All committee documentation, including meeting documentation and staffing complaint tracking logs are retained for a minimum of three years and consistent with the hospitals' document retention policies.

HSC STAFFING PLAN DATA, DEVELOPMENT AND APPROVAL

Section 6 HSC Information/Data Review

The HSC is responsible for the development and oversight of the staffing plan for provision of daily nurse staffing needs for the identified areas. >The committee will review the effectiveness of each patient care unit nurse staffing plan semiannually. Department leaders should regularly report to the HSC all relevant information to be considered in the review and approval of the patient-care unit staffing plan.

Factors to be considered in the development of the staffing plan include, but are not limited to:

- Census, including total numbers of patients on the unit on each shift and activity such as patient discharges, admissions, and transfers.
- Patient acuity level, intensity of care needs, and the type of care to be delivered on each shift.
- Skill mix of staff and FTE mix of current staff, including full-time, part-time, per diem, travel/contract/local agency/float pool.
- Anticipated staff absences, (i.e., vacation, planned leave, sabbatical).
- Level of experience, specialty certification, and training of nursing and patient care staff providing care.
- The need for specialized or intensive equipment.
- Availability and ease of access of resources, equipment, and supplies.

• The architecture/geography of the patient-care unit, including but not limited to placement of patient rooms, treatment areas, nursing stations, medication preparation areas, and equipment.

•Staffing guidelines adopted or published by national nursing professional associations, specialty nursing organizations, and other health professional organizations.

•Availability of other personnel and patient-care staff supporting nursing services on the unit, (e.g., Respiratory Therapy, PT/OT, etc.).

• Measures to optimize available staff, (e.g., current/alternative staffing models of care, workflow optimization, etc.)

• Compliance with the terms of an applicable collective bargaining agreement, if any, and relevant state and federal laws and rules, including those regarding meal and rest breaks and use of overtime and on-call shifts.

• Semiannual review of the staffing plan against patient needs.

- Known evidence-based staffing information, including the quality indicators collected by the hospital.
- Review, assessment, and response to staffing variations or complaints presented to the committee.
- Hospital finances and resources as well as a defined budget cycle.

Section 7 HSC Information/Data Review

Data/Metrics	Frequency of Review	
Results from staff satisfaction and culture survey trends	(Not currently available)	
Staffing Plan Compliance reports	Monthly – in process	
Missed meal & rest break reports for nursing staff	Monthly – in process	
Overtime & mandatory on-call reports	Monthly	
Hospital and department specific budget reports:	Quarterly	
Consider including:		
Hospital operating margin		
Days of cash on hand		

Human Resources Report, including but not limited to:	Quarterly
•Turnover & vacancy rates by nursing staff job class & patient care unit	
Nursing staff new hire turnover rates during the first year of employment	Consider reviewing exit interview trends
 Aggregate anonymized exit interview trends* 	annually
Hiring trends and hospital workforce development plans	
Online Reviews	
*Individual exit interview responses are not shared with the HSC due to confidentiality.	
Hospital-wide and department-specific quality indicators, including but not limited to:	Quarterly
 Patient complaints related to staffing* 	
 Patient satisfaction survey responses* 	
• Key quality indicators as identified by the committee such as medication scanning, patient falls, patient	
complaints, medication errors and any HAI.	
*Patient comments about specific staff are not shared with the HSC. The quality director summarizes	
patient comments and presents them to the committee.	

Data Validation

<u>Staffing Plan Compliance Report</u>. The HSC co-chairs conduct a monthly review of the staffing plan compliance report. The standard form includes a checkbox for either HSC co-chair to indicate their belief that the validity of the report should be investigated by the WA DOH. (Begin no later than August 2025)

Section 8 HSC Staffing Plan Development, Review, and Approval

Upon review of *factors to be considered in development of a staffing plan* and quality metrics, the HSC develops and votes on a proposed staffing plan. The HSC voting members approve the proposed staffing plan when a majority (50 percent plus one) vote of the HSC is in favor of the plan. The committee-approved staffing plan proposal is provided to the hospital Chief Executive Officer (CEO) for review.

>Due annually by July 1st for the following year and any time a staffing plan adjustment is requested and approved by the committee

Upon receiving a staffing plan proposal from the HSC, the CEO or designee reviews the proposal and provides written feedback to the committee. The written feedback must include, but is not limited to the following:

- Elements of the proposed staffing plan the CEO requests to be changed.
- Elements that could cause concern regarding financial feasibility, temporary or permanent closure of units, or patient care risk.

• A status report on implementation of the staffing plan including nurse-sensitive quality indicators, patient surveys, recruitment/retention efforts, and success over past six months in filling open positions for employees covered by the staffing plan.

The committee reviews and considers any feedback from the CEO, revises the staffing plan if applicable, and approves the new draft staffing plan by majority vote (50 percent plus one) before submitting the revised staffing plan to the CEO for approval.

>If the revised staffing plan proposal is not accepted by the CEO and adopted upon second review, the CEO documents rationale for this decision. If the HSC is unable to agree on a staffing plan proposal by majority vote or the CEO does not accept and adopt the proposed staffing plan, the most recent of the following staffing plans remains in effect: a) the staffing plan in effect January 1, 2023, or b) the staffing plan last approved by a 50 percent plus one vote of a duly constituted HSC, approved by the CEO, and adopted by the hospital until a new proposal can be agreed upon.

The CEO's written report is retained with HSC documentation as outlined in Section 5 Documentation and Retention.

HSC COMPLAINT MANAGEMENT

Section 9 HSC Complaint Review

Staffing concerns are addressed using the following process:

Step 1: Timely Communication

Staffing concerns are addressed in real-time with the immediate supervisor using chain of command.

Step 2: Immediate Intervention

Staffing concerns are discussed with the charge RN, shift supervisor, nurse manager on duty, who is responsible for staffing assignments during the shift. The staff member and charge RN, shift supervisor, or nurse manager, work together to evaluate the immediate clinical situation, evaluate patient and staff conditions, and explore potential solutions. When a variance from the staffing plan is identified or clinical circumstances warrant additional staff to accommodate patient care needs, the shift lead or immediate supervisor determines the appropriate reasonable efforts to resolve the situation using available resources. If unable to resolve the immediate supervisor will follow the chain of command.

Reasonable Efforts: the employer exhausts and documents all of the following but is unable to obtain staffing coverage:

- Seeks individuals to work additional time from all available qualified staff who are working.
- Contacts qualified employees who have made themselves available to work additional time.
- Seeks the use of per diem staff.

• When practical, seeks personnel from a contracted temporary agency when such staffing is permitted by law or an applicable collective bargaining agreement, and when the employer regularly uses a contracted temporary agency.

When the shift lead has exhausted all available resources and determines that there is immediate risk to patient and/or staff safety, the shift lead contacts the next level supervisor as outlined in the hospital chain of command policy for assistance in resolving the concern.

If the concern cannot be resolved after escalating to senior leadership, or the shift lead or supervisor determines that no immediate risk to patient and/or staff safety exists, the immediate shift lead or supervisor documents the following to aid in ongoing review of the concern: • Precipitating circumstances – such as an unforeseen emergent circumstance as defined below, unusually high number of sick calls or unexpected influx of patients. • All efforts to obtain additional staff.

- Other measures taken to ensure patient and staff safety. And-
- •Rationale for shift-based staffing adjustments based on immediate circumstances.

If the staffing concern is a result of an <u>unforeseen emergent circumstance</u>, the immediate charge, supervisor, or manager documents those circumstances for HSC review. Unforeseen emergent circumstances are defined as:

- Any unforeseen declared national, state, or municipal emergency.
- When a hospital disaster plan is activated.
- Any unforeseen disaster or other catastrophic event that substantially affects or increases the need for health care services.

• When a hospital is diverting patients to another hospital or hospitals for treatment.

Step 3: Staffing Concern/ Assignment Despite Objection (ADO)

When a staff member has discussed their staffing concern with the shift lead/immediate supervisor and is not satisfied with the outcome or solution, the staff member initiates an ADO.

PHI is not included in the staffing concern report.

The purpose of reporting a staffing concern is to escalate unresolved concerns to the manager and HSC for review. Ideally, the reporting staff member completes the report prior to the end of the shift in which the concern occurred. The HSC aims to resolve complaints within 90 days of receipt by the co-chairs, or longer with majority approval of the HSC.

If a concern is resolved during the shift by activating the standard chain of command, a (ADO) may or may not be completed at the discretion of the staff member. Concerns resolved during the shift are classified as resolved and closed upon staffing committee review. A staffing concern report may be submitted to the committee if there is a recurring pattern, even if the immediate concern is resolved. Multiple reports submitted for the same occurrence will be reviewed for context and to ensure all information is considered but will be counted as a single occurrence for documentation purposes.

Step 4: Routing of Staffing Concerns

The shift lead/immediate supervisor, staffing committee co-chairs, and the department manager are notified immediately that a report has been initiated via: Reports of staffing concerns will be sent via email automatically through the ADO reporting process.

Delayed or incomplete reports that are missing pertinent information may delay the review process. Efforts to obtain necessary information include, but not be limited to:

- Contacting the staff member who submitted the report if known.
- Contacting the shift lead/immediate supervisor on the shift in which the concern occurred.
- Contacting other staff members working the shift in which the concern occurred.
- A report may be dismissed by the committee due to insufficient information to investigate the concern.

The HSC reviews all written reports submitted to the committee regardless of the format used to submit the report. The use of a reporting method other than the process outlined above may cause a delay in HSC co-chairs receiving the report. Committee co-chairs (or designees) log the date each report is received and will proceed with the standard review process.

Step 5: Department/Unit Level Review and Action Plan

Upon receiving a staffing concern, the department manager initiates a department level review.

•Within 7 days of receiving a concern, the Co-chair notifies the staff member in writing that their concern has been received and will be reviewed by the department manager and HSC. The department manager identifies trends and factors that contributed to staffing variances, facilitates problem solving at the department level, and implements and evaluates corrective interventions, as appropriate. The department manager evaluates the effectiveness of interventions with input from staff and makes a recommendation to the HSC regarding classification and future corrective actions.

Step 6: Presentation to the Hospital Staffing Committee

Prior to a concern being presented to HSC for review, the committee co-chairs (or designee) will notify the staff member who submitted the concern that their concern is scheduled for HSC review and arrange for the staff member and their labor representative (if requested) to attend the meeting if the staff member wishes to do so. If a staff member is unable to attend the scheduled meeting but still wants to present their concern to HSC directly, they may request that HSC postpone the review of their concern until the next scheduled meeting. If the postponement exceeds the 90-day review period, HSC members will vote on whether to review the concern or extend the review period to allow the staff member to present their concern. HSC co-chairs (or designees) will document any request to postpone a review and the committee decision on the complaint tracking log.

At Skyline Hospital the staff member and the supervisor / manager will individually create a SBAR to be presented to the HSC to represent their perspective of the situation to be discussed. The SBAR (s) will be presented to the co-chairs prior to the following meeting. The HSC will classify and develop any corrective action plans and further recommendations.

Presentations to the HSC use the SBAR format to facilitate clear communication.

Situation - Explain the staffing concern or variation.

Background - Explain contributing factors, and any identified root cause(s).

Action & Assessment – Corrective action taken at the department level and evaluation of effectiveness of attempted solutions.

<u>Recommendation</u> – Provide other potential solutions and the recommended classification of the complaint.

Step 7: HSC Complaint Classification

After receiving the department report, the HSC determines classification of each staffing concern and whether additional action is needed to resolve the concern. The following standard definitions are used to classify each concern:

DISMISSED (unsubstantiated data)

- Not enough information/detail was provided to investigate.
- The evidence presented to the hospital staffing committee does not support the staffing complaint.
- The hospital followed the hospital staffing plan.

DISMISSED WITH ACKNOWLEDGEMENT

HSC acknowledges that there was a variation from the staffing plan which could not be resolved due to the following circumstances:

• The hospital documented that it made reasonable efforts (RCW 70.41.410) to obtain staffing but was unable to do so. (See definition of reasonable efforts).

The incident causing the complaint occurred during an unforeseeable emergent circumstance (RCW 70.41.410).

• Other circumstances to be specified by HSC.

RESOLVED

- HSC agrees that the complaint has been resolved and designates a resolution level. Level 1 – Resolved by immediate supervisor during shift in which concern occurred.
- Level 2 Resolved at department/unit level with final review by HSC.
- Level 3 Resolved after HSC action.

IN PROGRESS (awaiting resolution)

- A potential solution or corrective action plan has been identified and initiated.
- Intermediate or contingent designation. May not be the final disposition of a complaint.
- HSC to follow up on the concern to evaluate the effectiveness of the corrective action plan and determine the final disposition of the concern.

ESCALATED (awaiting resolution)

- HSC needs additional assistance and/or resources from senior leadership to address the concern.
- Intermediate or contingent designation. May not be the final disposition of a complaint.
- HSC revisits this concern for further discussion until it can be resolved.

UNRESOLVED

•HSC agrees that the complaint is not resolved or is unable to reach consensus on resolution.

If a complaint is not classified as dismissed or resolved when presented to the HSC, the committee identifies potential solutions and develops an action plan. The committee makes every effort to resolve concerns within 90 days of HSC co-chairs receiving a concern. The HSC extends the review period longer than 90 days with approval from the majority (50 percent plus one) of the committee. Any decision to extend the review period will be recorded by the committee co-chairs on the complaint tracking log.

Step 8: Implementation or Escalation

During this step solution(s) identified by the HSC are implemented as agreed upon in Step 7. If a solution cannot be identified or the committee recognizes that additional resources are needed to implement the plan, the committee may invite other senior leaders or stakeholders to assist in addressing the concern. The committee may repeat Step 7 with additional senior leaders or stakeholders and return to Step 8 when a solution has been identified. Step 9: Evaluation

After a time agreed upon by HSC members, the HSC reviews and evaluates the effectiveness of the corrective action plan. The committee will reclassify the concern at this time and record the new classification in the complaint tracking log. If the concern is not adequately resolved, the committee may choose to repeat Steps 6 through 9 as many times as necessary to resolve the problem. If this process exceeds 90 days from the date the report was received, the committee will vote on whether to extend the review period.

Step 10: Documentation

Protected health information (PHI) is not included in HSC documentation.

The following information for each staffing concern report is logged on the Staffing Concern Tracker:

• Date the concern was received by the committee.

• Information from the immediate supervisor and/or department manager review including: >Precipitating circumstances including unforeseen emergent circumstances if applicable. >All efforts to obtain staff, including exhausting reasonable efforts as defined. >Other measures taken to ensure patient and staff safety.

- >Rationale for shift-based staffing adjustments based on immediate circumstances.
- Initial, contingent, and final disposition.
- Corrective action taken, if necessary.
- Date resolved (within 90 days of receipt or longer with majority approval).
- Attendance by employee involved in complaint and labor representative if requested by the employee.
- Closed-loop written communication to the complainant stating the outcome of the complaint.

Step 11: Closed-Loop Communication

The outcome of each complaint review will be communicated to the staff member who initiated the concern in writing via Skyline Email > Cochairs will ensure WSNA Nurse ADO responses will be CC'd to WSNA Nurse Representative.
