

Title	Year	Month	Description	Link
Essential Public Health Services	2020	October	Essential Public Health Services provide a framework for public health to protect and promote the health of all people in all communities. This presentation highlights the 2020 updates to the Essential Public Health Services; the successes and challenges learned from the COVID-19 response; and the connection to Foundational Public Health Services. Slides are posted at: https://bit.ly/2HRx90t	https://youtu.be/GLQfE5t_feo
Healthy Approaches to Food Insecurity & Nutrition	2020	February	Lack of access to nutritious foods remains a barrier to the overall health and well-being of many people living in rural areas. This presentation highlights the statewide fruit and vegetable prescription program and food insecurity interventions that connect the clinical, community, and food systems. Slides are posted at: https://bit.ly/2vJjsed	https://youtu.be/sPI2WcChpQQ
HPV-Free Washington	2019	December	Learn how we are transforming medical and oral health care practices across the state by increasing HPV vaccination as a means of cancer prevention. This presentation highlights how the WA CARES About Cancer Partnership utilized cross-cutting connections to launch a campaign in Snohomish County that successfully united medical and oral health practitioners in the effort to increase HPV vaccination rates among children. Slides are posted at: https://bit.ly/2QJkwFv	https://youtu.be/ekff5zH7B6o
Dementia	2019	August	Guest speakers from the Dementia Action Collaborative will discuss the impacts of dementia on individuals, families, and communities. Presenters will also highlight opportunities for action and showcase statewide resources. Slides are posted at: https://bit.ly/2FjltiI	https://youtu.be/cnKEgj-UWog
Life Course Approach	2019	June	Members of the Community Health Leadership Committee (CHLC) will talk about the Life Course Approach including: <ul style="list-style-type: none"> • What is it? • Practical examples of how to apply it to chronic disease and mental health issues. • How can partners throughout the health system use the Life Course Approach? Slides are posted at: https://bit.ly/2ZKaFCa	https://youtu.be/B8WaAjyyqWE

Trauma Informed Work	2019	April	Trauma is a widespread, harmful and costly public health issue and the need to address trauma is increasingly viewed as an essential component of health services. Guest speakers from Tacoma-Pierce County Health Department discussed how they are building trauma informed approaches to public health and community engagement work through the Making Connections Initiative and showcased a few of their strategies to becoming a trauma informed organization. Slides used in this presentation are posted at: https://bit.ly/2Uc0Z5c	https://youtu.be/0l2UpSyn_w
-----------------------------	------	-------	---	---

Health Equity	2019	January	How can we truly operationalize health equity? In this webinar Department of Health staff describe their approach for moving from health equity theory to practice, and share the lessons they've learned along the way. Slides used in this presentation are posted at: https://bit.ly/2Mncj7u	https://youtu.be/nAmByUJxTQA
The Diamond Project	2018	December	The Washington State Department of Health and the Washington State Association of Local Public Health Officials partnered on a quality improvement project to create a consistent statewide standard of immunization promotion and vaccine compliance services that meet customer needs and federal grant requirements. This webinar covers lessons learned, the preliminary results of evaluation efforts of the process to date, and recommendations on how this model could be used to address other public health system improvement opportunities. Please note: due to technical difficulties beyond our control a small portion of the audio was lost during the recording process.	https://youtu.be/ZTNvmN7tdkl
Washington Medical Commission 101	2018	October	Learn how the Washington Medical Commission protects your safety in a fee-for-service world, and how the Commission is helping to shape the transforming health system.	https://youtu.be/k33SCO6OJQY
Tobacco Cessation	2018	September	Learn about the Department of Health's approach to navigating the patchwork of tobacco cessation services currently covered in Washington State.	http://youtu.be/0dNCnIJNt5Q
Disease Intervention Specialists	2018	August	Disease Intervention Specialists (DIS) are a backbone of public health in the United States. They tackle a variety of issues including STD prevention, HIV exposure, TB outbreak, and emergency response to urgent threats such as Zika and Ebola. Learn more about these specialists and their work to educate providers and the public, and link people to care and treatment. Also included in this webinar is a discussion around DIS challenges and opportunities for other public health issues in Washington State.	http://youtu.be/1KxOzH8YiMM
Foundational Public Health Services - The Basics	2018	June	This month's Transformation Talk addresses what Foundational Public Health Services are, the history behind them, and what the rest of the country is doing around this work.	https://youtu.be/liaO6-wosCk

Healthcare and Housing; Creating Connections	2018	May	This month's Transformation Talk features work that Jefferson Healthcare hospital is doing with community partners to fund a low-income housing program in Port Townsend. This project is one of several that recieved a small investment from DOH's Office of Rural Health and includes partnerships with Olympic Community Action Program.	https://youtu.be/mKLT_CueTmQ
Foundational Public Health Services - Shared Services Projects	2018	April	This webinar features the three shared services projects funded through the Foundational Public Health Services allocation to the local health jurisdictions.	https://youtu.be/zlryD6JsuBs
Community Connections for Population Health	2018	March	The Skagit County Population Health Trust Advisory Committee is a group of community leaders with a shared commitment to improve the quality of life in Skagit County. David Jefferson discusses how the Trust uses Chief Health Strategist concepts to achieve collective impact and improve health outcomes. Please note: due to technical difficulties beyond our control a small portion of the audio was lost during the recording process.	https://youtu.be/-XaGK7J5kSI
End AIDS Washington Initiative	2018	February	Join Department of Health's Office of Infectious Disease staff to learn more about how this initiative ties together some of the components of the transformation work public health has been preparing for!	https://youtu.be/tMjm3Qznqdl
Building the Foundation to Lifelong Health	2018	January	Local public health experts from WSALPHO's Community Health Leadership Committee describe how Medicaid Transformation projects can positively impact maternal and child well-being and help build the foundations of lifelong health. They discuss the Life Course approach and ways to apply this to the Opioid, Chronic Disease and Physical-Behavioral Health Integration projects!	https://youtu.be/T8eewUHdQis
What does it mean to be a Chief Health Strategist?	2017	December	Learn from local health jurisdiction leaders in Clark, Snohomish, and Walla Walla counties to hear about best practices, lessons learned, and challenges in working as Chief Health Strategists within the context of their Accountable Communities of Health.	https://youtu.be/h-FkRLwdMwY

Washington Tracking Network	2017	October	Data are the foundation of informed decision making. Learn more about how the Department of Health is working to make data available through the Washington Tracking Network, and how these data can (and have) been used to inform public health activities. Please note this session was not recorded. Slides are available by PDF. Email HSTI@doh.wa.gov if you would like a copy of the slides.	no link, read description
Pathways Hub Model and Community Health Workers	2017	September	Learn more about the Pathways Hub Model and the coordinators - community health workers, nurses, social workers, and others - who reach out to at-risk individuals through home visits and community-based work. Guest speakers will explain how the Pathways model is currently being utilized, point out great opportunities for training and credit, and help listeners get connected to leaders in this work.	http://youtu.be/nyJerzDeRe8
How to Approach Population Health Issues	2017	August	Learn more about taking a structured approach to population health issues. Department of Health leadership talks about using the Washington Population Health Planning Guide as a resource, opportunities to align with current activities in the Accountable Communities of Health, and spotlights the Diabetes Epidemic and Action Plan as an example of a structured approach.	https://youtu.be/k_iEhga3XFM
Overview of the Opioid Epidemic and Statewide Repsonse	2017	July	Did you know that opioid use disorder is a treatable medical condition? Learn more about the statewide opioid response, the role of evidence-based medical treatments and the multiple efforts to decrease mortality rates from opioid use by changing the way treatment is delivered. Guest speaker Dr. Caleb Banta-Green from the Alcohol and Drug Abuse Institute shares his research on clinical trials and talk about the collaborative statewide efforts to stem the opioid epidemic.	https://youtu.be/3H2eYh70FSw
Behavioral Health and the Public Health Connections	2017	June	Adverse childhood experiences and chronic disease shape child and adult health outcomes. Despite natural intersections between public health and behavioral health, many public health providers and partners may feel unprepared to address behavioral health issues. In this discussion, local health jurisdictions share their perspectives on why behavioral health matters and how the public health focus on prevention and assessment can be applied to mental health and substance use disorder issues.	https://youtu.be/ObnhlqZ42-g

Practice Transformation	2017	May	Public health plays a key role in supporting the health delivery system through knowledge, training, and tools. One of the ways we provide this support is called practice transformation. Practice transformation focuses on helping providers navigate the challenges of a changing health system. In this presentation you will be introduced to two statewide practice transformation efforts being led by the Department of Health and its partners, meet some of the people who move this work forward, and find out how you can connect.	https://youtu.be/FsgHg9IY-Cw
Bree Collaborative	2017	April	The Washington State Legislature established the Dr. Robert Bree Collaborative so that public and private health care stakeholders would have the opportunity to identify specific ways to improve health care quality, outcomes, and affordability in Washington State. In this recorded webinar, Bree Collaborative Director Ginny Weir discusses the opportunities and connections for Bree's recommendations in public health work.	https://youtu.be/ez1OeimTPRI
Moving Apple Health to Value	2017	March	What if, instead of paying for health services, we paid for healthier people? Value-based purchasing is changing the way providers care for patients. In this recorded webinar, the Department of Health's partners from Health Care Authority will explain how they are moving Apple Health (our state's Medicaid program) to a system that measures and rewards improved health outcomes.	https://youtu.be/IO0mx9yXfvY
