AIM Statement

Our mission is to improve the effectiveness of our strategic plan through revision of department priorities and utilization of improved data collection and assessment systems in order to monitor implementation.

September 26, 2014

Project Activities

- Determine a tool to guide the strategic planning process so that we are PHAB compliant.
- Assess the current plan for deficiencies.
- Identify QI tools to help develop new strategic plan.
- Create a measureable implementation plan.
- Develop a monitoring system that can generate progress reports.

Next Steps

Designing our Project Manager

- We are currently developing an online strategic plan monitoring database on our county's intranet.
- Project manager will be able to assign tasks and mark items as complete, incomplete or in progress.
- Once finalized, it will be able to generate progress reports and supply information to our overall performance management dashboard.
