

Power of Providers Commitment Toolkit: Website Content

Find the full toolkit at www.doh.wa.gov/POP

Purpose: Let your patients know of your commitment to vaccination by placing this content on your website

Intended for: Providers who have enrolled in the Power of Providers initiative

Suggested use: Place this content on your website where patients and visitors will see it. If you only refer for vaccination and don't offer vaccines yourself, please change the final line to "please talk to our staff for a vaccine referral."

Note: The graphic is optional depending on your website capabilities.

Content:

COVID-19 Vaccine Commitment

>Name of your organization< is committed to protection people in Washington from COVID-19 through vaccination.

As health care providers, we're committed to the health of our patients and our communities. We've joined the Washington State Department of Health with a commitment to support getting as many people vaccinated against COVID-19 as possible. Everyone who visits our clinic should expect to hear the following steps:

Seek • Ask/Educate • Vaccinate • Empower

- **SEEK** – We will seek our patients' COVID-19 vaccination status.
- **ASK/EDUCATE** – We will ask our patients if they are vaccinated. If they're not, we'll offer them the education and information they need to make an informed decision.
- **VACCINATE** – If a patient agrees, we will provide them with a COVID-19 vaccine or a referral for vaccination

Power of Providers Commitment Toolkit: Website Content

- **EMPOWER** – We will empower our patients to share their vaccination status with the community.

If you haven't yet gotten a COVID-19 vaccine, please talk to our staff and we can take care of that for you!
