

STATE OF WASHINGTON
DEPARTMENT OF HEALTH

June 9, 2011

Patty Kollenbom, Office Manager
Spokane Obstetrics & Gynecology, PS
105 West 8th Avenue, #6060
Spokane, Washington 99204

Dear Ms. Kollenbom:

Thank you for your Ambulatory Surgical Center Determination of Non-Reviewability (DOR) Application received on May 23, 2011, related to the group practice known as Spokane Obstetrics & Gynecology, PS. Below are the facts relied upon by the Certificate of Need Program in reaching its conclusion regarding your interest in establishing an Ambulatory Surgical Center (ASC) associated with the group practice.

FACTS

- Spokane Obstetrics & Gynecology, PS is a group practice with the following two practice sites.

| Address | City | Zip |
|--|----------------|-------|
| 105 West 8 th Avenue, #6060 | Spokane | 99204 |
| 12509 East Mission, #201 | Spokane Valley | 99216 |

- This DOR request is related to the practice site located at 105 West 8th Avenue, #6060 in Spokane, within Spokane County.
- Spokane Obstetrics & Gynecology, PS intends to establish an exempt ASC at that practice site. There is not an ASC established at the East Mission site in Spokane Valley.
- The ASC will not be a separate legal entity from the group practice.
- Only five physicians would have access to the proposed ASC. The five physicians are listed below.

| | | |
|--------------------|-------------------|------------------|
| Dominique K. Grant | Marynell H. Meyer | Mark T. Schemmel |
| Kelley M. Mathia | Jason M. Reuter | |

- All five physicians hold current Washington State licenses and have no recorded sanctions or conditions attached to their respective licenses.
- Four of the five physicians listed above are partners in the group practice; the remaining physician—Dominique Grant, MD—is 100% employed by the group practice.
- A copy of the group practice Articles of Incorporation are provided with the DOR request.

- Procedures to be performed at the ASC include those surgeries typically associated with obstetric and gynecologic procedures. A listing of typical procedures is included within the DOR application.
- No management agreement for the ASC is proposed.

ANALYSIS

- Revised Code of Washington (RCW) 70.38.105(4) identifies the types of projects subject to prior Certificate of Need review and approval. Subsection (a) identifies that the construction, development, or other establishment of a new health care facility is subject to CON review.
- RCW 70.38.025(6) defines “health care facility” as *hospices, hospice care centers, hospitals, psychiatric hospitals, nursing homes, kidney disease treatment centers, ambulatory surgical facilities, and home health agencies, and includes such facilities when owned and operated by a political subdivision or instrumentality of the state and such other facilities as required by federal law and implementing regulations, but does not include any health facility or institution conducted by and for those who rely exclusively upon treatment by prayer or spiritual means in accordance with the creed or tenets of any well-recognized church or religious denomination, or any health facility or institution operated for the exclusive care of members of a convent as defined in RCW 84.36.800 or rectory, monastery, or other institution operated for the care of members of the clergy. In addition, the term does not include any nonprofit hospital: (a) Which is operated exclusively to provide health care services for children; (b) which does not charge fees for such services; and (c) if not contrary to federal law as necessary to the receipt of federal funds by the state.*
- Washington Administrative Code (WAC 246-310-010) defines “ambulatory surgical facility” as *any free-standing entity, including an ambulatory surgery center, that operates primarily for the purpose of performing surgical procedures to treat patients not requiring hospitalization. This term does not include a facility in the offices of private physicians or dentists, whether for individual or group practice, if the privilege of using such facility is not extended to physicians or dentists outside the individual or group practice.*

CONCLUSION

Based on the above factual information provided by you, the Certificate of Need Program concludes that the establishment of the ASC associated with the group practice known as Spokane Obstetrics & Gynecology, PS does not meet the definition of an ASC under the Certificate of Need provisions of Washington Administrative Code (WAC) 246-310-010. Therefore, the proposed ASC is not subject to Certificate of Need review.

Please note: This determination is not transferable and is based on the facts submitted in the exemption application. Prior Certificate of Need review and approval may be required under the provisions of WAC 246-310-020 if changes occur in your project. Examples of such changes include the following. This list is not intended to be all inclusive.

- 1) should Spokane Obstetrics & Gynecology, PS decide to extend the privilege of using the ASC to physicians not part of the practice; OR
- 2) should Spokane Obstetrics & Gynecology, PS decide to expand the scope of services at the ASC to include services subject to Certificate of Need review under the provisions of WAC 246-310-020; OR
- 3) should Spokane Obstetrics & Gynecology, PS decide to organize the ASC as a separate legal entity from the group practice; OR
- 4) should Spokane Obstetrics & Gynecology, PS decide to operate the ASC under a management agreement; OR
- 5) should any entity other than Spokane Obstetrics & Gynecology, PS hold the Medicare certification; OR
- 6) should the ASC cease operations or relinquish its Medicare certification and then choose to resume services as an ASC; OR
- 7) should the group practice or ASC be purchased or leased.

This determination of non-reviewability does not constitute approval under any other local, federal, or state statute, or implementing rules and regulations. Examples where additional approval may be necessary include, but are not limited to, construction plan approval through the Construction Review Section of the Department of Health, facility licensing/certification through the Department of Social and Health Services or Department of Health, and other federal or local jurisdiction permits.

This decision may be appealed. The two appeal options are listed below.

Appeal Option 1:

You or any interested or affected person may request a public hearing to reconsider this decision. The request must state the specific reasons for reconsideration in accordance with Washington Administrative Code 246-310-560. A reconsideration request must be received within 28 calendar days from the date of the decision at one of the following addresses:
