Dear Mr. Lee:

Thank you for your Ambulatory Surgical Center Determination of Reviewability (DOR) Application received on August 11, 2011. - Washington Center for Pain Management, PLLC intends to establish an exempt ASC at the Bellevue site. [in bold above]

ANALYSIS

- Revised Code of Washington (RCW) 70.38.105(4) identifies the types of projects subject to prior Certificate of Need review and approval. Subsection (a) identifies that the construction, development, or other establishment of a new health care facility is subject to review.
- RCW 70.38.025(6) defines “health care facility” as *hospices, hospice care centers, hospitals, psychiatric hospitals, nursing homes, kidney disease treatment centers, ambulatory surgical facilities, and home health agencies, and includes such facilities when owned and operated by a political subdivision or instrumentality of the state and such other facilities as required by federal law and implementing regulations, but does not include any health facility or institution conducted by and for those who rely exclusively upon treatment by prayer or spiritual means in accordance with the creed or tenets of any well-recognized church or religious denomination, or any health facility or institution operated for the exclusive care of members of a convent as defined in RCW 84.36.800 or rectory, monastery, or other institution operated for the care of members of the clergy. In addition, the term does not include any nonprofit hospital: (a) Which is operated exclusively to provide health care services for children; (b) which does not charge fees for such services; and (c) if not contrary to federal law as necessary to the receipt of federal funds by the state.*
- Washington Administrative Code (WAC 246-310-010) defines “ambulatory surgical facility” as *any free-standing entity, including an ambulatory surgery center, that operates primarily for the purpose of performing surgical procedures to treat patients not requiring hospitalization. This term does not include a facility in the offices of private physicians or dentists, whether for individual or group practice, if the privilege of using such facility is not extended to physicians or dentists outside the individual or group practice.*

CONCLUSION

Based on the above factual information provided within your application, the ASC would be a separate legal entity from the practice. As a result, the Certificate of Need Program concludes that the establishment of the ASC associated with the practice meets the definition of an ASC under the Certificate of Need provisions of Washington Administrative Code (WAC) 246-310-010. Therefore, the proposed ASC is subject to prior Certificate of Need review and approval before it is established.

Enclosed is a copy of the Certificate of Need rules, (WAC 246-30), regulations (RCW 70.38), and a blank application form should you wish to pursue this project.
