

2025 Annual Growing Area Evaluation (Based on 2024 Water Quality Data)	
Growing Area Name	Threatened Stations*
Bay Center	125
Dyes Inlet	473, 474
Eld Inlet	171, 849
Henderson Inlet	187, 189
Hood Canal 6	316
Liberty Bay	388, 390, 391
Makah Bay	204
Oakland Bay	129, 614
Pacific Coast	195, 197, 9
Portage Bay	49, 272
Quilcene Bay	123
Skagit Bay South	185, 192
Stretch Island	823
Contact: (360) 236-3331	

*Threatened status is generally assigned in SRS growing areas when a water sampling station’s estimated 90th percentile is between 30 and 43 FC/100mL. Threatened status is based on marine water quality but may also be based on the presence of potential pollution sources that, if not managed, may cause a downgrade in classification. Some stations with estimated 90th percentiles under 30 FC/100mL have been included due to their Threatened or Failing status history or concerns that water quality may worsen in 2025.
