

# Are you receiving CHILD Profile?

CHILD Profile sends free mailings to the parents or guardians of all Washington children, from birth to age six. The mailings are available in English and Spanish.

Mailings give parents:

- Reminders for upcoming health and dental checkups.
- Up-to-date information on health, immunization, safety and development, all targeted to the child's age.
- Resources for help and more information.

CHILD Profile also gives health care providers an easy way to track immunizations in Washington's Immunization Registry.

**If you live in Washington State, have a child under age 6 and do not receive the mailings, you can sign up. Call the Family Health Hotline at 1-800-322-2588 or visit [www.childprofile.org](http://www.childprofile.org)**
