

**BACKGROUND**

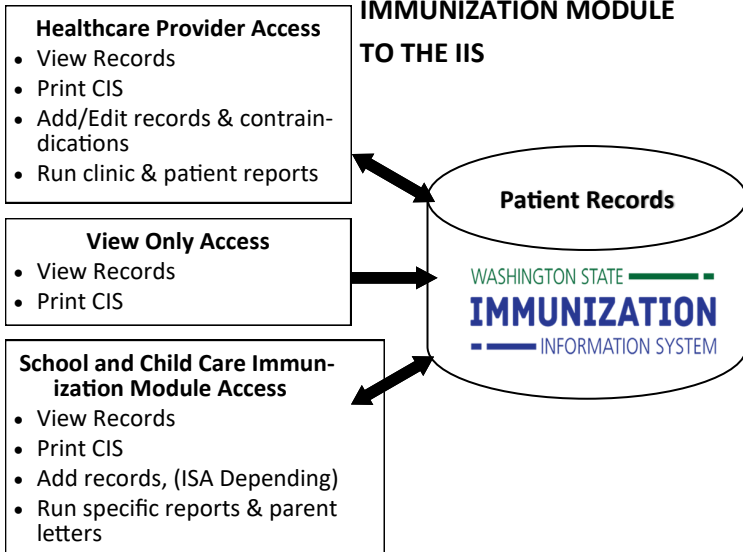

- Compliance with school and child care immunization requirements are critical to protecting Washington children from vaccine-preventable diseases.
- Multiple handoffs of immunization data make it difficult to accurately determine children's immunization compliance.
- A single system for accessing accurate immunization information is needed to efficiently conduct important immunization compliance work and identify children who are at-risk during disease outbreaks.

**HOW THE SCHOOL AND CHILD CARE IMMUNIZATION MODULE BENEFITS SCHOOLS AND CHILD CARES**

The School and Child Care Immunization Module:

- Acts as an immunization system for tracking and managing student and child immunizations and exemptions.
- Allows schools and child cares to access provider-verified immunization data.
- Saves staff time entering data and finding missing immunizations.
- Frees up more time to work with students and children instead of time spent on record keeping.
- Allows the Department of Health to access accurate school and child care immunization data for the annual immunization report.

**RELATIONSHIP OF THE SCHOOL AND CHILD CARE IMMUNIZATION MODULE TO THE IIS**

**WHAT CAN THE SCHOOL AND CHILD CARE IMMUNIZATION MODULE DO ?**

The School and Child Care Immunization Module provides:

- A roster showing each child's immunization status for school or child care required immunizations.
- Out-of-compliance reports showing which children do not meet the immunization requirements.
- Parent letters for children with missing immunizations.
- An At-Risk report that quickly identifies vulnerable children during a disease outbreak.

**THE IIS SCHOOL AND CHILD CARE IMMUNIZATION MODULE**

The School and Child Care Immunization Module is a feature of the Washington State Immunization Information System (IIS), an online registry of immunization records for people of all ages in Washington State.

It is a free, secure, and easy-to-use web-based tool that allows users to track and manage student and child immunization information.

Schools and child cares can access existing immunization records in the IIS entered by healthcare providers giving them the information they need to conduct important immunization work to promote healthy, well-vaccinated students and children.

School Roster						
Criteria						
School: VERY HEALTHY ELEMMENTARY						
Grade: All						
Last Name	First Name	Birthday	SIIS Patient ID	Status	Exemption on File?	Grade
CAT	SMOKEY	02/06/2012	6300519	NOT COMPLETE	Y	Kindergarten
CAT	MACY	12/12/2011	6300469	COMPLETE		Kindergarten
CAT	COCO					
CAT	VICTORIA					
CAT	LUCY					
CAT	EBONY					
CAT	ALICE					
CAT	TULIP					
CAT	TIM					
CAT	WILLIE					
CAT	MOLLY					
CAT	AUSTIN					
CAT	MARIE					
CAT	DAVID					
CAT	YOYO					
CAT	BONNIE					
CAT	MAX					
CAT	PETER					
CAT	PEACH
