

POTENTIAL GWI SOURCE IDENTIFICATION AND DESIGNATION FORM

Any drinking water professional (or contract representative) from a public health jurisdiction (local health jurisdiction or state drinking water program) may formally identify to the state a potential GWI source, if they find a drinking water source that meets the potential GWI identification criteria given below. A professional engineer or hydrogeologist, with experience in the state drinking water programs and the GWI program, may designate a potential GWI source. A source must be designated a potential GWI source before it can be initiated into the GWI program and evaluated under the GWI determination process.

Potential GWI Identification Criteria

Please circle criteria below that apply to the identification and designation of this potential GWI source.

1. A well with an open interval of 50 feet or less below the ground surface at the wellhead, also located within two hundred feet of surface water.
2. Ranney well.
3. Infiltration gallery.
4. A spring or springs.
5. A hand pump not meeting minimum construction standards outlined in WAC 173-160.
6. A dug well not meeting minimum construction standards outlined in WAC 173-160.
7. A sand point (well point) not meeting minimum construction standards outlined in WAC 173-160.
8. Well located within 200 feet of surface water that lacks construction documentation.
9. Other: _____

Potential GWI Identification and Designation Data

Water System Name: _____

Water System ID: _____

Source Name: _____

Source ID #: _____

Well Tag #: _____

General description of source [Include size, type, depth (to screen, bottom, pump, static water level), construction details, well log (if available), a cross-sectional drawing or sketch, if available, etc.]: _____

General description of the Sanitary Control Area (SCA) within 200 feet of the source [Include a plan-view map or aerial photograph of the general area, if available]: _____

Identifier or designator comments: _____

Potential GWI source identifier's name and title (print): _____

Potential GWI source identifier's signature: _____

Date of signature: _____

Potential GWI source designator's name and title (print): _____

Potential GWI source designator's signature: _____

Date of signature: _____
