### Search for a Student

**\*\*\* Only look up students within your School or District. Employee records can only be viewed if the Employee has given written consent.**

Watch our video tutorial on how to search for a student and report duplicates here: [How to Search for a Student and Report Duplicate Records - Video](#)

- Using the Navigation Menu, Click **Search/Add** under the Patient menu heading.
- Enter information in the Patient Search fields e.g., student name, birth date, SIIS IS, OSPI Student ID. The more information provided the shorter the search results.
- Enter the birth date as a string of numbers; for example, May 8, 2005, = 050805.
- Click **Search** or press **Enter** on your keyboard.
- Select the correct student's name by clicking once on the name. This opens **the Patient Demographic** screen.

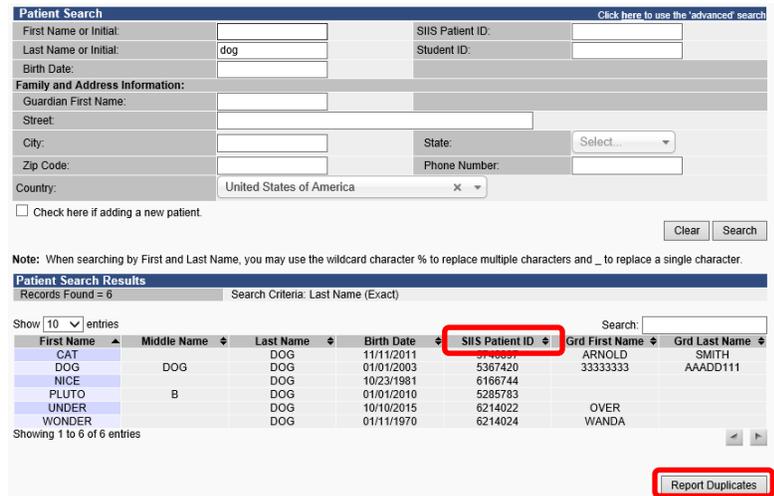

### Reporting Duplicate Records

When searching for students in the IIS, you may see multiple records for the same student. If you see duplicate records, please report them in the IIS. The IIS Team reviews and resolves the duplicate records within a few business days. Reporting duplicate records helps to improve the accuracy of student vaccination records. For more information on reporting duplicate students please review [How to Report Duplicate Patients Quick Reference Guide](#).

### Bad Merges

Sometimes profiles accidentally get merged by the system. This happens most commonly with siblings, especially twins, who have similar first names. If you suspect that accounts have been merged incorrectly, send us an email ([schoolmodule@doh.wa.gov](mailto:schoolmodule@doh.wa.gov)) with the SIIS ID that you want us to review.

**\*Important Note\*** - Please do not email student names or DOBs. If you need us to look at a specific student, please email the SIIS Patient ID.

### Vaccination Summary Page

**\*\* Only nurses have access to the Vaccination Tab. If you are not a nurse and need access to the vaccination tab you can view the steps for how to complete the delegation process on the [School Module Website](#) under section 3, number 1.**

Watch our video tutorial about the vaccination summary page here: [Vaccination Summary Page - Video](#)

After selecting a student, click on **Summary** under the **Vaccinations** menu heading. This view-only page will display the following sections:

#### Vaccination Summary

Lists a student's vaccines grouped by vaccine type. Immunizations marked with a red **X** are considered invalid. Click on the vaccine date for more detail, including the provider who gave the vaccine.

#### Invalid Vaccinations

Lists the reason a vaccine dose marked with a red **X** is invalid.

#### Vaccine Deferrals

Notes the deferrals entered by the healthcare provider about deferred.

#### Vaccine Contraindications/Exemptions/Precautions

Lists information entered by a healthcare provider. Some information may not display due to patient confidentiality. Exemptions entered here are provider exemptions which are not the same as school/childcare exemptions. Students with a school/childcare exemption must have a completed Certificate of Exemption on file which should be entered into the School Module (instructions below). Exemptions entered in the School Module display on the *Patient Demographics* page not in the *Vaccine Contraindications/Exemptions/Precautions*.

#### Vaccination Forecast

Lists vaccinations still needed and when they are due. Definitions of the Forecast Status can be found on the *Forecast* page under Vaccinations on the main menu.

For more detailed information about the vaccine summary screen review the [How to Review a Patient's Vaccination Summary and Forecast](#) quick reference guide.

Watch our video tutorial about the vaccination View/Add page here: [The Vaccination View Add Page - Video](#)

After selecting a student, click on **View/Add** under the **Vaccinations** menu heading. This page will display the following areas:

#### Vaccination View/Add

Lists all vaccinations administered and fields to enter additional doses. Only medically verified immunization records may be entered on this page. For more information about entering immunization dates see the *Add Missing Immunization* section below.

#### Vaccine Contraindications/Exemptions/Precautions and Forecast

Lists information entered by a healthcare provider as well as the Vaccination Forecast. This is the same information that displays on the *Vaccination Summary* page explained above.

### Add a Missing Immunization

#### Important:

- ✓ Only medically verified immunization records may be entered into the School Module. Follow the guidelines in the next column to determine if an immunization record is a valid medically verified record (see Appendix A for samples). The ultimate decision to enter an immunization record is based on the School Nurse's best clinical judgment.
- ✓ If the school is subject to the FERPA rules, parent consent must be obtained prior to entering the dates into the School Module. You can use the Certificate of Immunization Status (CIS) to document parent consent or obtain written consent in an alternate manner.

For strategies on how to obtain medically verified records and collecting parent consent please review the [Guidance and Expectations](#) document.

### Incorrect Vaccination Dates

Incorrect vaccination dates can only be edited by the user who entered the date. To find out who entered the vaccination, click on the immunization date. That will open the *Vaccination Detail* screen which shows the organization that entered the date. You will need to contact that provider to let them know that the date is incorrect. The error will need to be fixed in the IIS and in the provider's electronic health record, so the incorrect dose doesn't return to the IIS with their next data upload.

### Annual Immunization Reporting

- An active user of the School Module (who keeps the Roster up to date and enters missing immunization dates and exemptions), does not have to file an Annual Immunization report.
- For School Module users, the report will be pulled from School Module on your behalf.
- To report through the School Module, you need to make sure your rosters are up to date.
- An up-to-date roster means that all students are listed on it in the correct grade and any students who no longer attend this school have been removed. All missing vaccinations, exemptions and evidence of immunity have been entered when you have parents' consent to do so.
- More information on School Reporting can be found here: [Public and Private K-12 Schools Immunization Reporting | Washington State Department of Health](#)
