

How Can I Search for a Patient?

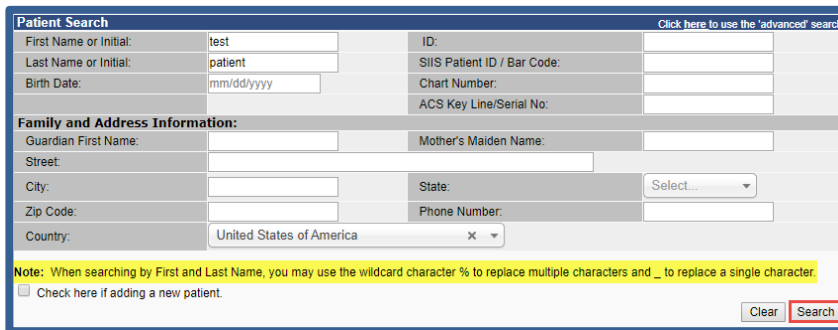

1. Click Select **Organization** under **Main** heading in the left navigation menu and choose appropriate organization.
2. Click **Search/Add** under the **Patient** heading in the left navigation menu.
3. Enter search criteria using the tips below.
4. Click the **Search** button or press **Enter**.

Search Tips

There are several ways to search for patients, including:

- Patient’s first name, last name, and birth date.
- First initial of the patient’s first or last name and birth date.
- Patient’s first and last names without the birth date.
- **Chart Number:** You can search this way if your organization/facility sends data from your electronic health record (EHR) to the IIS.
- **Wildcard Character** (e.g. % or _): You can replace letters in the patient’s first and last names if you are unsure of the spelling or need to widen your search.

Patient Search Click here to use the 'advanced' search

First Name or Initial:	test	ID:	
Last Name or Initial:	patient	SIIS Patient ID / Bar Code:	
Birth Date:	mm/dd/yyyy	Chart Number:	
Family and Address Information:		ACS Key Line/Serial No:	
Guardian First Name:		Mother's Maiden Name:	
Street:			
City:		State:	Select...
Zip Code:		Phone Number:	
Country:	United States of America x		

Note: When searching by First and Last Name, you may use the wildcard character % to replace multiple characters and _ to replace a single character.

Check here if adding a new patient.

How Can I Select a Patient?

1. Click the patient’s name under **Patient Search Results** to select the patient and view their demographic information.
2. If you see two records for the same patient, click on the **Report Duplicates** button at the bottom of the screen to report them as possible duplicates. Refer to this [guide](#) for instructions.

Other Tips:

- The Department of Health uploads birth data to the IIS weekly, so all children born in Washington State have a record in the system.
- Enter birth dates as a string of numbers (e.g. 050805 for May 8, 2005) or select from the calendar pop-up window.
- The maximum number of search results is 250 records. If you do not see your patient, narrow the criteria and search again.

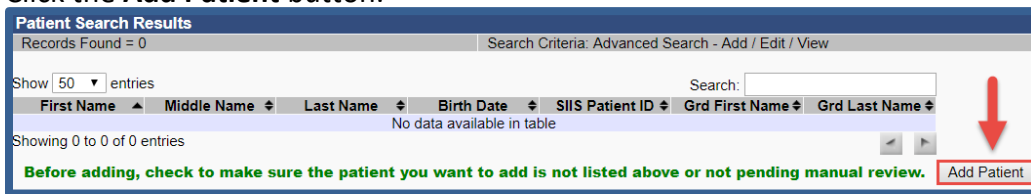

How Can I Add a Patient to the IIS?

If your patient was born in another state or does not have a record in the system, you will need to add them to the IIS.

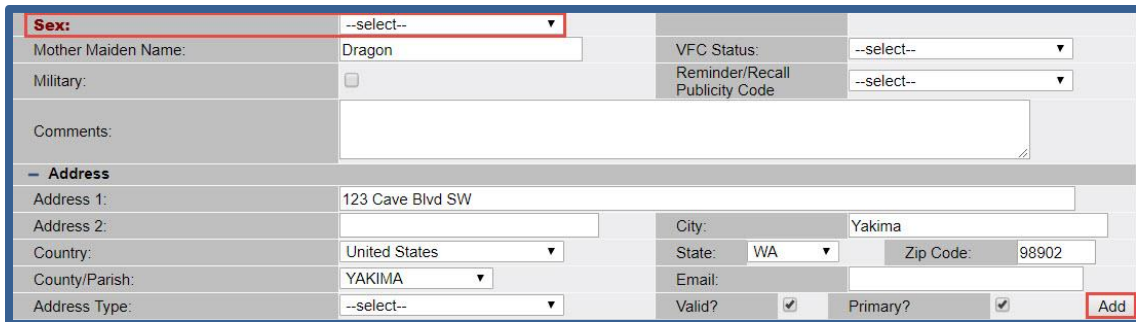

1. Try multiple search methods using the search tips above.
2. If no matching patient exists, check the box that says, “**Check here if adding a new patient.**”
3. Enter all of the required information (highlighted in red), including: First Name, Last Name, Birth Date, and Address. Guardian First Name and Mother’s Maiden Name are required for patients under 19.
4. Click the **Search** button.

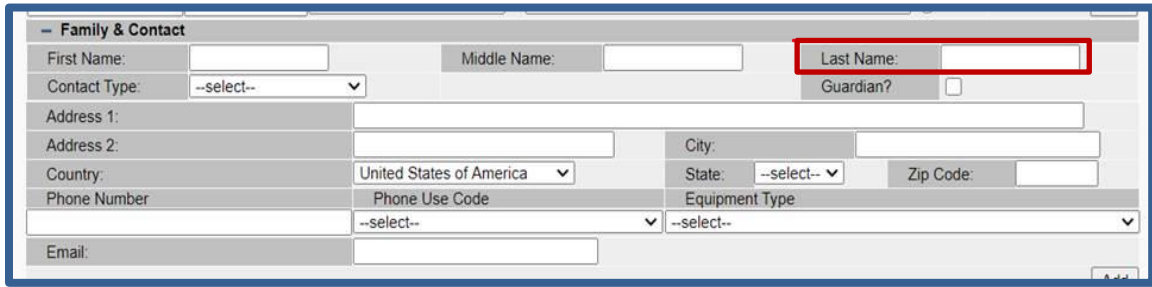

5. After clicking the search button, a warning message in green will appear in the **Patient Search Results** section.
6. Click the **Add Patient** button.

7. After clicking **Add Patient**, the **Patient Demographics Edit** screen opens.
8. Select the patient's **Sex** from the drop down box.

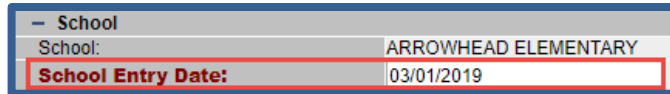

9. Under the **Address** section, click the **Add** button. Click **OK** to the pop-up message that asks if you want to mark this address as primary.
10. For patients under 19, enter the guardian's last name in the **Family & Contact** section.

11. Add any additional patient demographic information (e.g. VFC Status, phone number, race, ethnicity).

Tip: In the **School Module**, you must enter a **School Entry Date** in the **School** section when adding a student.

12. Click the **Save** button at the bottom right of the screen.

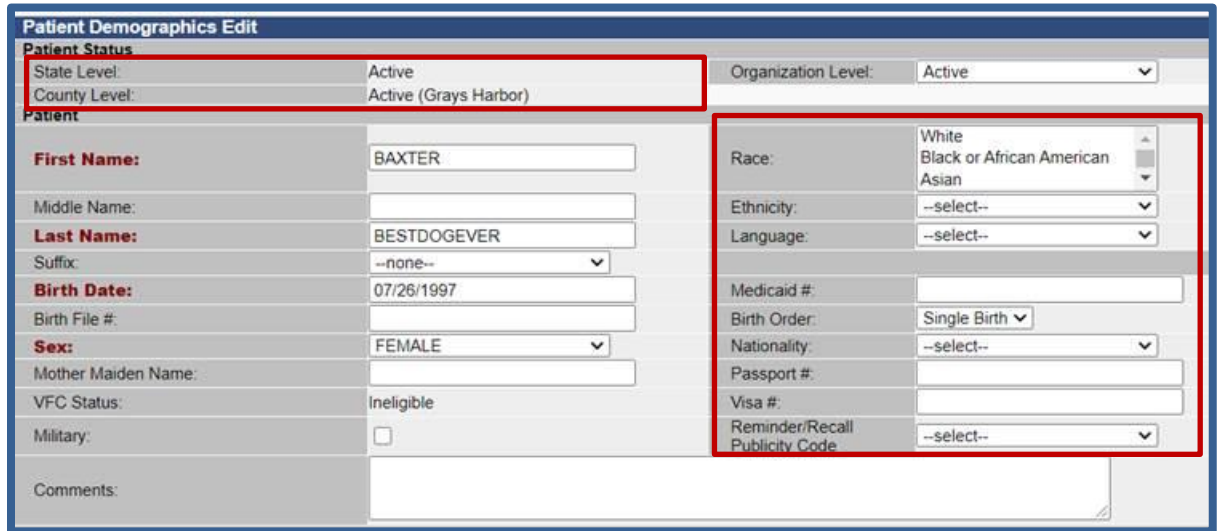

How Can I Edit Patient Demographics?

1. Search for and select a patient to open the **Patient Demographics** screen.
2. Click the **Edit** button at the bottom of the screen.
3. Add or edit patient information:

- **Patient Status:** Mark a patient as active, inactive, or deceased. The options in the drop down are more limited if your organization is not set up to own patients in the IIS.
- **Race and Ethnicity:** Select patient race and ethnicity from the drop downs.
- **Language:** Select the patient's primary language from the drop down.
- **Birth Order:** Select single birth or the correct number from the drop down if the patient is a twin, triplet, etc.
- **VFC Status:** For patient's under 19, select the appropriate patient eligibility status.

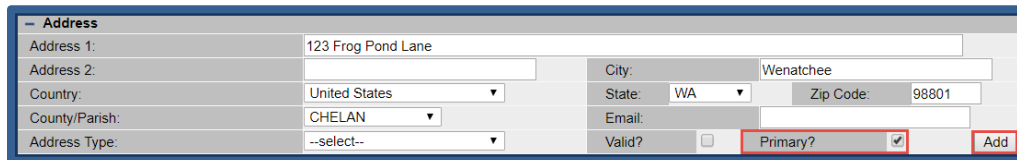

Tip: Use **+** and **-** symbols to the left of each section heading to expand or collapse a section.

4. Add, edit, or remove an address

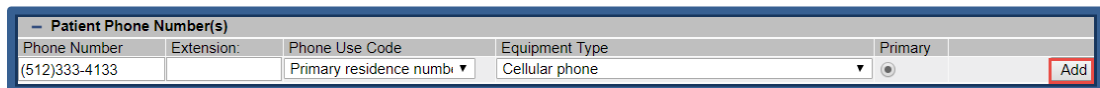

- Add or update address fields (e.g. address, city, zip).
- Mark the **Primary** check box to make this the patient’s main address and click the **Add** button. Click **OK** to close the pop-up message.

- Click the **Edit** button to modify an address. A pop up message will remind you to click the **Update** button when done editing the address. Click **OK** to close the pop-up.
- Edit the address information and click the **Update** button.
- Click the **Remove** button to remove a patient’s address. Click **OK** to close the pop-up message verifying that you want to delete the address.
- Always click the **Save** button at the bottom of the screen after adding, editing, or removing information.

5. Add, Edit, or Remove a Phone Number

- Enter the phone number and add an extension, if needed.
- Select **Phone Use Code** and **Equipment Type** from the drop downs.
- Select the **Primary** radio button to mark a patient’s phone number as primary.
- Click the **Add** button.

- Edit or remove a phone number using the **Edit** and **Remove** buttons.
- Always click the **Save** button at the bottom of the screen after adding, editing, or removing information.

Searching, Adding and Editing Patients

6. Add, edit or remove family & contact information

- Enter the guardian’s first and last name. You can list more than one guardian.
- Enter the guardian’s phone number, if needed.

- Family & Contact			
Guardian 1 First:	<input type="text" value="FIRE"/>		
Guardian 1 Middle:	<input type="text"/>	Guardian 2 First:	<input type="text"/>
Guardian 1 Last:	<input type="text" value="DRAGON"/>	Guardian 2 Last:	<input type="text"/>
Phone Number	Phone Use Code	Equipment Type	
	--select--	--select--	

- Edit family & contact information by typing different names in the guardian fields. Remove a contact by deleting names from the guardian fields.
- Click the **Save** button at the bottom of the screen after adding, editing, or removing a guardian.

7. You can also add or edit the following optional information

- **Alias:** Enter a nickname, maiden or second last name and then click **Add**. The system uses this information when searching for a patient.
- **Secondary Patient Demographics:** Document patient allergies and other household information here.
- **School Information:** Enter the school the patient attends and their date of entry.
- **Medical Home:** Enter the patient’s primary physician (if your clinic manages physicians/vaccinators in the IIS). You can also see your clinic’s chart number in this section if you send electronic data from your EHR to the IIS.
- **Birth & Death:** Enter a patient’s birth location. If you mark a patient as deceased using the **Patient Status** drop down at the top of the **Patient Demographics Edit** screen, you can add a date of death in this section.
- Click the **Save** button at the bottom of the screen after making edits.
