## How to Use / Interpret This Document

The Washington State Department of Health's (DOH) Community Health Workers (CHW) Training System focuses on relationship building, communication, collaboration and coordination among multiple sectors and partners to provide innovative training strategies to the community-based workforce. This work aligns with the department's Outward Mindset core culture and performance strategy and Washington State's One Health initiative.

Over 2200 participants have completed the CHW core competency training since it began in 2012. (Detailed participant records allow us to track information regarding geographic location, CHW roles, employer contact information, and other related information, using a simple database).

The following fact sheets provide a breakout of CHW training graduates by corresponding Accountable Community of Health (ACH) Regions. Data include a general overview of the number of DOH CHW training graduates by county, self-identified CHW role, list of participating agencies, percentage of graduates by sector and reported language capabilities. Evaluation efforts conducted in 2015 indicate most training participants attend at the request of their employer/supervisor.

### ACCOUNTABLE COMMUNITIES OF HEALTH REGIONS

CHWs may serve under a variety of titles in Washington including:

- >> Community Health Worker
- >> Community Health Advisor
- >> Community Health Advocate
- >> Community Health Promoter
- >> Outreach Worker
- >> Outreach Advocate
- >> Community Health Representative
- >> Patient Navigator
- >> Promotora/Promotores de Salud
- >> Peer Health Advisor
- >> Peer Counselor
- >> Lay Health Advisor
- >> Peer Leader
- >> And many more

## DOH CHW Training System

The CHW Training System sponsored by WA DOH offers standardized training to support community-based workers in clinical and non-clinical settings throughout state. Trainings are offered across the state on a quarterly basis with a capacity to provide training to up to 500 CHWs annually.

The 30-hour core curriculum training series is spread out over eight weeks. The core sessions address CHW roles and boundaries; communication skills; outreach and engagement, health disparities, cultural competency; organization skills; documentation skills; assessment skills; service coordination skills; and case study skills during the final in-person session of the class. An expanding list of online health-specific continuing education modules (many are available in Spanish) with an additional 100+ hours of curriculum is available to participants who successfully complete the core training.

## CHW Background

Community health workers are frontline public health workers who apply their unique understanding of the experiences, language, and culture of the populations they serve in order to carry out some of the following roles:

- >> Ensure people have access to needed health and social services they need through service coordination, referral, and follow-up.
- >> Provide health coaching or social support to people.
- >> Provide culturally appropriate health education and information.
- >> Provide basic services and screening tests (such as support with blood pressure monitoring).
- >> Provide a cultural link between organizations and communities.
- >> Advocate for the needs and perspectives of the community.
- >> Help community members increase health knowledge and be self-sufficient.
- >> Advocate for the needs and perspectives of the community members served.
- >> Help community members increase health knowledge and be self-sufficient.

## Community Health Worker Training System Graduate Data

### Number of Graduates by County

Ferry . . . . .	7
Lincoln. . . . .	1
Okanogan . . . . .	21
Pend Oreille . . . . .	8
Spokane . . . . .	253
Stevens . . . . .	12

### Identified Roles of Graduates

- >> Care Coordinator
- >> Community Health Worker
- >> Community Support Worker
- >> Community Resource Specialist
- >> Family Advocate
- >> Health Educator
- >> Medical Assistant
- >> Outreach Worker
- >> Patient Advocate
- >> Patient Navigator
- >> Promotoras
- >> WIC Certifier
- >> Program Manager
- >> Peer Advocate
- >> Program Coordinator
- >> Medical Social Worker
- >> Health Coach
- >> In-Person Assistor
- >> Financial Counselor
- >> Program Assistant

### Reported Language Capabilities of Graduates

- >> 30 CHW Training System graduates reported bilingual capabilities (11% of total graduates for this region).
- >> 24% of bilingual CHW Training System Graduates report being fluent in Spanish.
- >> Ukrainian and German are the 2nd and 3rd most common languages CHWs report being fluent in.
- >> CHWs also report being fluent in Azeri, Mandarin Chinese, Marshallese, Punjabi, Romanian, Russian, Swahili, Swiss, and Urdu.

### What agencies are graduates working at?

#### HEALTH CARE PARTNERS

- >> Amerigroup RealSolutions: 4
- >> CHAS Health: 33
- >> Confluence Health: 3
- >> Family Health Centers: 6
- >> House of Charity: 3
- >> Molina Healthcare: 4
- >> NATIVE Project: 5
- >> Pioneer Human Services: 8
- >> Planned Parenthood: 4
- >> Providence Sacred Heart Medical Center: 4
