

WICShopper App – Spanish Language Setup

WIC Staff: The steps below are in English for staff who may need to help participants setup the WICShopper app in Spanish. We have provided Spanish steps for participants.

- Please have WIC participants make all changes on their own smart phones.
- If staff are testing these steps out on their smart phones, the staff's general phone settings must be set to Spanish before downloading the app. This should not be an issue for participants who use Spanish on their smart phones everyday.
